SUBJECT: SAAS Payroll Tables Moving to SPAHRS

SAAS has served the state well in the past, but it is truly going away. Before the end of June 2015 SAAS will be completely unavailable for users. The SAAS roll will not happen, but the tables needed for SPAHRS and MAGIC payroll will move to SPAHRS and are listed below. The FY 2015 tables will migrate to SPAHRS with this new change, which means that the 2015 data will roll to 2016 in SPAHRS.
