Official Travel Voucher Summary – New Format

The Official Travel Voucher Summary has a new look and will be placed in production Friday, October 12, 2012. This change was made to allow an increase in *viewable* field sizes to accommodate amounts greater than \$9999.99. The fields have always been large enough on the file itself, but users were not able to see any amount of \$10,000 or greater. The new format allows the user to certify that the amounts are correct.

Example:

```
