

**MISSISSIPPI STATE AND SCHOOL EMPLOYEES
HEALTH INSURANCE MANAGEMENT BOARD**

**REQUEST FOR PROPOSAL
FOR
THIRD PARTY ADMINISTRATION SERVICES**

Vendor Questions and Board Responses Number 1
January 15, 2016

- 1. Will the Board consider including a telemedicine option either as part of its RFP response or as a separate and complementary addition to the TPA being selected?**

Please refer to SECTION 3 Scope of Services in the Third Party Administration Services Request for Proposals. The Board desires to contract with a qualified, experienced vendor capable of providing medical claims administration and network services, as described therein. Please note that a telemedicine option is not among the services requested within this RFP.

- 2. In order to quote, we will need: (1) Census (include date of birth, gender, zip code, coverage tier (Single/Family, etc.)); (2) Current Schedule of Benefits Offered; (3) Claims and Enrollment History (2 years if available); (4) Large Claims History (2 years if available); (5) Current and/or renewal rates; (6) Specific deductible and contract terms if a Stop Loss Quote is desired.**

Please refer to SECTION 3 Scope of Services in the Third Party Administration Services Request for Proposals. The Board desires to contract with a qualified, experienced vendor capable of providing medical claims administration and network services, as described therein. Please note that the Board is not seeking quotes for insurance and/or stop/loss coverage, as the State and School Employees' Health Insurance Plan is a non-ERISA self-insured health insurance plan. Information regarding the Plan's general enrollment demographics, current benefit structure, relevant claims, etc., may be found within the main RFP document and/or the RFP's accompanying appendices.
