Join the 96%

96% of our patients see improvement in their diabetes. In fact, 91% of our patients achieve greater control of their diabetes in only 6 months. More than 10,000 patients over a decade have found this success.

Lead your own team

Our team of multi-disciplinary experts designs a customized plan to get your diabetes, blood pressure, and triglycerides controlled. And many of our patients lose weight in the process.

Work with your doctor

DCG works with your primary care physician to ensure that all of your health care needs are effectively shared and addressed.

Event: Lunch and Learn
