

**Amendment Number 1
Lawn and Landscaping Services
RFx#: 3160004103**

Question and Answer Document

Question #	Section #	Page #	Question	DFA Response
1	2	9	<p>Why does this RFX require the bidder to have a Landscape Horticulturalist License (only needed when planting) and there isn't any planting that required in the RFX? Also, it states that the bidder cannot subcontract a licensed landscape horticulturist. I was curious as to why a landscape horticulturist can't be subcontracted but the bidder? But the bidder can subcontract individuals that possess the horticultural weed control and horticultural pest control license (all of these services are required in the scope of work).</p>	<p>The Landscape Horticulturalist License is required as the properties included in the scope of work contain plant material that requires proper care. Additionally, situations may arise during the term of the contract that might require services such as additional plant material or replacement plant material, where this license would be appropriate.</p> <p>DFA has determined that it is in the best interest of the Agency for the Landscape Horticulturalist License holder to not be a subcontractor.</p>
