IX. Purchase Summary

If Manufacturer currently has a contract with the State of Mississippi, a purchase summary is required. The summary should only include sales to State agencies and governing authorities. Please do not include sales to nongovernmental entities. Complete the attached excel spreadsheet for the current contract period *starting March 1, 2020*. This purchase summary must be attached with the proposal.

Please Note: Because of the expense associated with the maintenance of this type of contract, it has been determined that a lack of sales activity under \$25,000 for two consecutive years will be cause for rejection of a new contract for a period of two years.

X. Award of Contract

New contracts will be awarded to all Manufacturers that submit proposals that are in compliance with this format and are proposing competitive prices. Any requested information not submitted *may be cause for the proposal request to be denied*.

If you currently have a State Contract and your renewal information is not received by the required submission date, the contract will expire and you will be denied a new contract for a period of one year.

XI. E-Verify Compliance

If applicable, Contractor/Seller represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act of 2008, and will register and participate in the status verification for all newly hired employees. Miss. Code Ann. §§ 71-11-1 *et seq.* (1972, as amended). The term “employee” as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, “status verification system” means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Contractor/Seller agrees to maintain records of such compliance. Upon request of the State, and after approval of the Social Security Administration or Department of Homeland Security when required, Vendor agrees to provide a copy of each such verification. Contractor/Seller further represents and warrants that any person assigned to perform services hereafter meets the employment eligibility requirements of all immigration laws. The breach of this agreement may subject Contractor/Seller to the following: (1) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years with notice of such cancellation/termination being made public; (2) the loss of any license, permit, certification or other document granted to Contractor/Seller by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year; or (3) both. In the event of such termination/cancellation, Contractor/Seller would also be liable for any additional costs incurred by the State due to contract cancellation or loss of license or permit to do business in the State.

XII. New and Discontinued Products, Substitutions and/or Replacements

All new products must first be approved by the OPTFM contract administrator in writing prior to being offered by the Manufacturer to customers. Approval is not automatic and OPTFM reserves the right to reject any new product offerings.

Manufacturer shall report all discontinued products to the OPTFM contract administrator in writing immediately along with the Manufacturer’s recommendation as to an appropriate replacement product that meets or exceeds the required specifications of the discontinued product. **(The replacement product is required to be offered at the same or lesser price of the discontinued product).** Manufacturer should notify OPTFM in advance of products expected to be discontinued so that OPTFM can approve new products prior to the Manufacturer’s stock of the discontinued product being exhausted. Manufacturer must actively work to ensure there are no gaps in product coverage.

All substitutions and/or replacements of products (whether the substitution will be temporary or permanent) must also first be approved by the OPTFM contract administrator in writing. Approval is not automatic and OPTFM reserves the right to reject any product that OPTFM determines not to meet the Proposal Format and Guidelines requirements or that is otherwise unsuitable. Upon OPTFM’s approval of the

substituted/replacement item, OPTFM will update its online information within thirty (30) business days. If a customer has ordered a discontinued product and the Manufacturer cannot obtain sufficient quantity of the discontinued product (if any) to fulfill the customer's order, the Manufacturer will (1) notify the customer that the product has been discontinued and that no product is remaining, (2) advise the customer of the approved substitute product and (3) advise the customer of its rights to accept the approved substitute product or cancel the order for the discontinued product without penalty or further obligation to the Manufacturer.

One new/discontinued products request may be submitted per contract period. Items being replaced should be listed as they were originally submitted with its replacement clearly identified next to the product being replaced on the spreadsheet. A completed Price List must accompany the request with **ONLY** products impacted by the changes included.

XIII. Proposal Deadline

The contract for Grounds Maintenance Equipment is effective March 1 through the last day of February; therefore, proposals for contract must be received by **December 15**. Any proposals received after **December 15** will not be considered.

Please do not wait until the submission deadline to submit documents in Mississippi's e-procurement system. In addition, if issues arise loading files, contact MAGIC helpdesk at 601-359-1343 and note any ticket number.

XIV. Adherence to RFx Guidelines

Prior to proposal submission, it is the responsibility of the Manufacturer to verify all documents conform to the formatting guidelines as outlined in the RFx documents. Failure to adhere to the RFx proposal instructions may result in disqualification of the Manufacturer's proposal. The responsible contract analyst may, at their discretion, allow the Manufacturer to correct errors in their proposal after the submission deadline. Manufacturers agrees to submit any requested corrections as directed by the analyst and understands that failure to do so may result in disqualification of their proposal.
