TWO (2) NEW ISSUES BOOK-ENTRY ONLY

See "RATINGS" herein

In the opinion of Butler Snow LLP, Ridgeland, Mississippi ("Bond Counsel"), under existing laws, regulations, rulings and judicial decisions and assuming the accuracy of certain representations and continuous compliance with certain covenants described herein, interest on the Series 2019B Bonds (as defined herein) is excludable from gross income for federal tax purposes pursuant to Section 103 of the Code (as defined herein), and such interest is not a specific preference item for purposes of the federal alternative minimum tax. Interest on the Series 2019C Bonds (as defined herein) should be treated as included in gross income of the holders thereof for federal income tax purposes. Bond Counsel is further of the opinion that under existing laws, regulations, rulings and judicial decisions, interest on the Series 2019 Bonds (as defined herein) is exempt from income taxation in the State (as defined herein). For a more complete description, see "TAX MATTERS" herein and APPENDIX E - FORMS OF OPINIONS OF BOND COUNSEL attached hereto.

\$169,700,000 STATE OF MISSISSIPPI GENERAL OBLIGATION BONDS, SERIES 2019B (Tax-Exempt)

\$235,840,000 STATE OF MISSISSIPPI TAXABLE GENERAL OBLIGATION BONDS, SERIES 2019C

Dated: Date of Delivery

Due: October 1, as shown on the inside front cover

Interest on the \$169,700,000 State of Mississippi General Obligation Bonds, Series 2019B (Tax-Exempt) (the "Series 2019B Bonds") will be payable on April 1 and October 1 of each year, commencing October 1, 2020. Interest on the \$235,840,000 State of Mississippi Taxable General Obligation Bonds, Series 2019C (the "Series 2019C Bonds" and together with the Series 2019B Bonds, the "Series 2019 Bonds") will be payable on April 1 and October 1 of each year, commencing October 1, 2020. The State Bond Commission of the State of Mississippi (the "State") has designated the Office of the State Treasurer to serve as paying agent, transfer agent and registrar of the Series 2019 Bonds (in such capacity, the "Paying and Transfer Agent"). The Series 2019 Bonds will be issued as fully registered bonds in the denomination of \$5,000, or any integral multiple thereof, and registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York, which will act as securities depository for the Series 2019 Bonds. See "DESCRIPTION OF THE SERIES 2019 BONDS - Book-Entry-Only System" and APPENDIX F.

The Series 2019 Bonds are general obligations of the State and are secured by a pledge of the full faith and credit of the State.

The Series 2019 Bonds are subject to optional redemption prior to their respective maturities. See "DESCRIPTION OF THE SERIES 2019 BONDS – "Redemption Provisions of the Series 2019 Bonds."

THIS COVER PAGE CONTAINS CERTAIN INFORMATION FOR QUICK REFERENCE ONLY. IT IS NOT A SUMMARY OF THIS ISSUE. PROSPECTIVE INVESTORS MUST READ THIS <u>ENTIRE</u> OFFICIAL STATEMENT TO OBTAIN INFORMATION ESSENTIAL TO THE MAKING OF AN INFORMED INVESTMENT DECISION.

The Series 2019 Bonds are offered subject to the final approving opinion of Butler Snow LLP, Ridgeland, Mississippi, Bond Counsel. Certain legal matters will be passed upon for the Underwriters (identified below) for the Series 2019 Bonds by their counsel Balch& Bingham LLP, Jackson, Mississippi. Certain legal matters with respect to the State will be passed upon by the State Attorney General, Jim Hood, Esq. Hilltop Securities, Inc., Dallas, Texas, is serving as Financial Advisor to the State in connection with the sale and issuance of the Series 2019 Bonds. It is expected that delivery of the Series 2019 Bonds in definitive form will be made on or about October 23, 2019.

NO DEALER, BROKER, SALES REPRESENTATIVE OR OTHER PERSON HAS BEEN AUTHORIZED BY THE STATE, THE STATE BOND COMMISSION OF THE STATE OR THE UNDERWRITERS SHOWN ON THE COVER HEREOF TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATIONS OTHER THAN THOSE CONTAINED HEREIN IN CONNECTION WITH THE OFFERING OF THE SERIES 2019 BONDS AND, IF GIVEN OR MADE, SUCH OTHER INFORMATION OR REPRESENTATION MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY ANY OF THE FOREGOING. THIS OFFICIAL STATEMENT DOES NOT CONSTITUTE AN OFFER TO SELL OR THE SOLICITATION OF AN OFFER TO BUY THE SERIES 2019 BONDS NOR SHALL THERE BE ANY SALE OF THE SERIES 2019 BONDS BY ANY PERSON IN ANY JURISDICTION IN WHICH IT IS UNLAWFUL FOR SUCH PERSON TO MAKE SUCH AN OFFER, SOLICITATION OR SALE. THE INFORMATION SET FORTH HEREIN HAS BEEN OBTAINED FROM THE STATE AND OTHER SOURCES THAT ARE BELIEVED TO BE RELIABLE. THE INFORMATION SET FORTH HEREIN CONCERNING DTC HAS BEEN FURNISHED BY DTC AND NO REPRESENTATION IS MADE BY THE STATE OR THE UNDERWRITERS AS TO THE ACCURACY OR COMPLETENESS THEREOF. THE INFORMATION AND EXPRESSIONS OF OPINION HEREIN ARE SUBJECT TO CHANGE WITHOUT NOTICE, AND NEITHER THE DELIVERY OF THIS OFFICIAL STATEMENT NOR ANY SALE MADE HEREUNDER SHALL, UNDER ANY CIRCUMSTANCES, CREATE ANY IMPLICATION THAT THERE HAS BEEN NO CHANGE IN THE AFFAIRS OF THE STATE SINCE THE DATE HEREOF.

THIS OFFICIAL STATEMENT CONTAINS FORECASTS, PROJECTIONS AND ESTIMATES THAT ARE BASED ON EXPECTATIONS AND ASSUMPTIONS WHICH EXISTED AT THE TIME SUCH FORECASTS, PROJECTIONS AND ESTIMATES WERE PREPARED. IN LIGHT OF THE IMPORTANT FACTORS THAT MAY MATERIALLY AFFECT ECONOMIC CONDITIONS IN THE STATE, THE INCLUSION IN THIS OFFICIAL STATEMENT OF SUCH FORECASTS, PROJECTIONS AND ESTIMATES SHOULD NOT BE REGARDED AS A REPRESENTATION BY THE STATE THAT SUCH FORECASTS, PROJECTIONS AND ESTIMATES WILL OCCUR. SUCH FORECASTS, PROJECTIONS AND ESTIMATES ARE NOT INTENDED AS REPRESENTATIONS OF FACT OR GUARANTEES OF RESULTS.

IF AND WHEN INCLUDED IN THIS OFFICIAL STATEMENT, THE WORDS "EXPECTS," "FORECASTS." "PROJECTS," "INTENDS," "ANTICIPATES," "ESTIMATES" AND ANALOGOUS EXPRESSIONS ARE INTENDED TO IDENTIFY FORWARD-LOOKING STATEMENTS AND ANY SUCH STATEMENTS INHERENTLY ARE SUBJECT TO A VARIETY OF RISKS AND UNCERTAINTIES THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE PROJECTED. SUCH RISKS AND UNCERTAINTIES INCLUDE, AMONG OTHERS, GENERAL ECONOMIC AND BUSINESS CONDITIONS, CHANGES IN POLITICAL, SOCIAL AND ECONOMIC CONDITIONS, REGULATORY INITIATIVES AND COMPLIANCE WITH GOVERNMENTAL REGULATIONS, LITIGATION AND VARIOUS OTHER EVENTS, CONDITIONS AND CIRCUMSTANCES, MANY OF WHICH ARE BEYOND THE CONTROL OF THE STATE. THESE FORWARD-LOOKING STATEMENTS SPEAK ONLY AS OF THE DATE OF THIS OFFICIAL STATEMENT. THE STATE DISCLAIMS ANY OBLIGATION OR UNDERTAKING TO RELEASE PUBLICLY ANY UPDATES OR REVISIONS TO ANY FORWARD-LOOKING STATEMENT CONTAINED HEREIN TO REFLECT ANY CHANGE IN THE STATE'S EXPECTATIONS WITH REGARD THERETO OR ANY CHANGE IN EVENTS, CONDITIONS OR CIRCUMSTANCES ON WHICH ANY SUCH STATEMENT IS BASED.

INFORMATION HEREIN HAS BEEN OBTAINED FROM THE STATE, DTC, AND OTHER SOURCES BELIEVED TO BE RELIABLE, BUT THE ACCURACY OR COMPLETENESS OF SUCH INFORMATION IS NOT GUARANTEED BY THE UNDERWRITERS.

IN CONNECTION WITH THIS OFFERING, THE UNDERWRITERS MAY OVER ALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN MARKET PRICES OF THE SERIES 2019 BONDS AT LEVELS ABOVE THOSE WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

THE UNDERWRITERS HAVE PROVIDED THE FOLLOWING SENTENCE FOR INCLUSION IN THIS OFFICIAL STATEMENT: EACH UNDERWRITER HAS REVIEWED THE INFORMATION IN THIS OFFICIAL STATEMENT IN ACCORDANCE WITH, AND AS A PART OF, ITS RESPONSIBILITIES TO INVESTORS UNDER THE FEDERAL SECURITIES LAWS AS APPLIED TO THE FACTS AND CIRCUMSTANCES OF THIS TRANSACTION, BUT THE UNDERWRITERS DO NOT GUARANTEE THE ACCURACY OR COMPLETENESS OF SUCH INFORMATION.

UPON ISSUANCE, THE SERIES 2019 BONDS WILL NOT BE REGISTERED BY THE STATE UNDER THE SECURITIES ACT OF 1933, AS AMENDED, ANY STATE SECURITIES LAW, AND WILL NOT BE LISTED ON ANY STOCK OR OTHER SECURITIES EXCHANGE. NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY OTHER FEDERAL, STATE OR OTHER GOVERNMENTAL ENTITY

i

OR AGENCY WILL HAVE PASSED UPON THE ACCURACY OR ADEQUACY OF THIS OFFICIAL STATEMENT OR THE SERIES 2019 BONDS OFFERED FOR SALE BY THIS OFFICIAL STATEMENT.

6

THE ORDER AND PLACEMENT OF MATERIALS IN THIS OFFICIAL STATEMENT, INCLUDING THE APPENDICES, ARE NOT TO BE DEEMED A DETERMINATION OF RELEVANCE, MATERIALITY OR IMPORTANCE, AND THIS OFFICIAL STATEMENT, INCLUDING THE APPENDICES, MUST BE CONSIDERED IN ITS ENTIRETY. THE CAPTIONS AND HEADINGS IN THIS OFFICIAL STATEMENT ARE FOR CONVENIENCE OF REFERENCE ONLY, AND IN NO WAY DEFINE, LIMIT OR DESCRIBE THE SCOPE OR INTENT, OR AFFECT THE MEANING OR CONSTRUCTION, OF ANY PROVISION OR SECTIONS OF THIS OFFICIAL STATEMENT. THE OFFERING OF THE SERIES 2019 BONDS IS MADE ONLY BY MEANS OF THIS OFFICIAL STATEMENT.

THIS OFFICIAL STATEMENT IS BEING PROVIDED TO PROSPECTIVE PURCHASERS EITHER IN BOUND PRINTED FORM ("ORIGINAL BOUND FORMAT") OR IN ELECTRONIC FORMAT ON THE FOLLOWING WEBSITE: WWW.MUNIOS.COM. THIS OFFICIAL STATEMENT MAY BE RELIED UPON ONLY IF IT IS IN ITS ORIGINAL BOUND FORMAT OR IS PRINTED IN ITS ENTIRETY FROM SUCH WEBSITE.

THE OFFERING

\$169,700,000 STATE OF MISSISSIPPI GENERAL OBLIGATION BONDS, SERIES 2019B (Tax-Exempt)

The Issuer	State of Mississippi (the "State").
Issue and Date	\$169,700,000 State of Mississippi General Obligation Bonds, Series 2019B (Tax-Exempt) (the "Series 2019B Bonds"), dated their date of delivery.
Authority	The Series 2019B Bonds will be issued pursuant to the provisions of the Series 2019B Act (as defined herein) and the Series 2019B Resolution (as defined herein).
Purpose	The Series 2019B Bonds are being issued for the purpose of providing funds to finance or refinance the costs of certain capital improvements within the State as more particularly described herein, and to pay the costs incident to the sale, issuance and delivery of the Series 2019B Bonds.
Amounts and Maturities	The Series 2019B Bonds will mature on October 1 in the years and amounts as shown on the inside front cover.
Interest Payment Dates	Interest on the Series 2019B Bonds will be payable on April 1 and October 1 of each year, commencing October 1, 2020.
Redemption Provisions	The Series 2019B Bonds are subject to optional redemption prior to their respective maturities (see "DESCRIPTION OF THE SERIES 2019 BONDS - Redemption Provisions of the Series 2019B Bonds," herein).
Security for Payment	Pursuant to the Series 2019B Act, the Series 2019B Bonds shall be general obligations of the State and are secured by a pledge of the full faith and credit of the State (see "DESCRIPTION OF THE SERIES 2019 BONDS - Security," herein).
Tax Matters	In the opinion of Bond Counsel (as defined herein), assuming continuing compliance with certain covenants by the State, under existing laws, regulations, rulings, and judicial decisions, interest on the Series 2019B Bonds is excludable from gross income for federal tax purposes. Interest on the Series 2019B Bonds is not a specific preference item for purposes of the federal alternative minimum taxes. Under existing laws, regulations, rulings, and judicial decisions, interest on the Series 2019B Bonds is exempt from all income taxation in the State. For a more complete description of such opinion and certain other tax consequences incident to the ownership of the Series 2019B Bonds, see "TAX MATTERS" herein and APPENDIX E - FORMS OF OPINIONS OF BOND COUNSEL attached hereto.

The above information is qualified in its entirety by the detailed information and financial statements appearing elsewhere in this Official Statement, including the Appendices.

OFFICIAL STATEMENT

\$169,700,000 STATE OF MISSISSIPPI GENERAL OBLIGATION BONDS, SERIES 2019B (Tax-Exempt)

\$235,840,000 STATE OF MISSISSIPPI TAXABLE GENERAL OBLIGATION BONDS, SERIES 2019C

INTRODUCTION

The purpose of this Official Statement, which includes the cover page, the inside cover and the Appendices herein, is to set forth certain information concerning the State of Mississippi (the "State" or "Mississippi") and the State's \$169,700,000 General Obligation Bonds, Series 2019B (Tax-Exempt) (the "Series 2019B Bonds"), and \$235,840,000 Taxable General Obligation Bonds, Series 2019C (the "Series 2019C Bonds") and together with the Series 2019B Bonds, the "Series 2019 Bonds").

References to website addresses presented herein are for informational purposes only and may be in the form of a hyperlink solely for the reader's convenience. Unless specified otherwise, such websites and the information or links contained therein are not incorporated into, and are not part of, this Official Statement.

DESCRIPTION OF THE SERIES 2019 BONDS

General

The Series 2019 Bonds will be dated the date of delivery, and will be issued as fully registered bonds in the denominations of \$5,000 or any integral multiples thereof, bearing interest at the rates per annum set forth on the inside front cover, payable April 1 and October 1 of each year, commencing October 1, 2020, and computed on the basis of a 360-day year consisting of twelve, 30-day months. The State Treasurer of the State has been designated by the State Bond Commission of the State (the "Commission") to serve as paying agent, transfer agent and registrar of the Series 2019 Bonds (in such capacity, the "Paying and Transfer Agent"). The Series 2019 Bonds will be general obligations of the State and the full faith and credit of the State shall be pledged as security for the payment of the principal of and the interest on the Series 2019 Bonds.

The Series 2019 Bonds initially will be held in a book-entry-only system administered by The Depository Trust Company, New York, New York ("DTC"). Principal of and interest on the Series 2019 Bonds held in bookentry form shall be payable as described herein under the heading "DESCRIPTION OF THE SERIES 2019 BONDS - Book-Entry-Only System."

The principal of and interest on the Series 2019 Bonds will be payable by the Paying and Transfer Agent to DTC, which will in turn remit such principal and interest to its Direct Participants (as hereinafter defined) and Indirect Participants (as hereinafter defined), which will in turn remit such principal and interest to the Beneficial Owners (as hereinafter defined) of the Series 2019 Bonds. If the date for payment is not a business day, then the payment shall be made on the next succeeding business day with the same force and effect as if made on the payment date. The record date for the payment of interest on the Series 2019 Bonds is the close of business on the date which shall be the 15th day (whether or not a business day) of the calendar month next preceding each interest payment date.

The Series 2019 Bonds will mature October 1 in the years and in the amounts set forth on the inside cover page hereto.

Series 2019B Bonds

The Series 2019B Bonds will be issued pursuant to the provisions Section 2 of House Bill 1729, 2016 Regular Session of the State Legislature, Section 4 of House Bill 1729, 2016 Regular Session of the State Legislature, Section 22 of House Bill 1729, 2016 Regular Session of the State Legislature, Section 1 of House Bill 1649, 2018 Regular Session of the State Legislature, Section 2(2) of House Bill 1649, 2018 Regular Session of the State Legislature, Section 3 of House Bill 1649, 2018 Regular Session of the State Legislature, House Bill 1160, 2019 Regular Legislative Session of the State Legislature, Sections 31-17-151 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Section 1 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 2(2) of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 3 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 38 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 11 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 4 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 5 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 6 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 7 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 8 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 10 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 13 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 14 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 21 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 22 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 23 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 24 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 25 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 26 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 27 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 28 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 29 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 31 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 33 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 35 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 36 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 37 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 39 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 40 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 41 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 43 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 44 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 46 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 47 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 49 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 50 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 55 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 71 of Chapter 511, Laws of 2016, as amended by Section 52 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Sections 9 and 10 of House Bill 1729, 2016 Regular Session of the State Legislature, Sections 17 and 18 of Senate Bill 3065, 2019 Regular Session of the State Legislature and Section 39-5-145, Mississippi Code of 1972, as amended and supplemented, Sections 15 and 16 of Senate Bill 3065, 2019 Regular Session of the State Legislature, and Section 51-37-3, Mississippi Code of 1972, as amended and supplemented, Sections 57-75-1 et seq., Mississippi Code of 1972, as amended and supplemented (collectively, the "Series 2019B Act") and a resolution adopted by the Commission on September 3, 2019 (the "Series 2019B Resolution") for the purpose of providing funds to finance the costs of certain capital improvements within the State and to pay the costs incident to the sale, issuance and delivery of the Series 2019B Bonds, all as authorized under the Series 2019B Act and the Series 2019B Resolution. See "DESCRIPTION OF THE PROJECTS - Series 2019B Projects," herein.

Series 2019C Bonds

The Series 2019C Bonds will be issued pursuant to the provisions of Section 57-1-16. Mississippi Code of 1972, as amended and supplemented by Section 15 of House Bill 1729, 2016 Regular Session of the State Legislature and Section 4 of Senate Bill 3033, 2017 Regular Session of the State Legislature, Sections 57-61-36(1) and (3), Mississippi Code of 1972, as amended and supplemented from time to time, Sections 65-4-1 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Sections 57-75-1 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Sections 31-17-151 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Section 8 of House Bill 1724, 2007 Regular Session of the State Legislature, Section 57-1-701, Mississippi Code of 1972, as amended and supplemented from time to time, and Sections 1 and 2 of House Bill 1427, 2019 Regular Session of the State Legislature, House Bill 983, 2019 Regular Session of the State Legislature, Section 57-1-18, Mississippi Code of 1972, as amended and supplemented, including, but not limited to, Section 19 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 49-17-85, Mississippi Code of 1972, as amended and supplemented from time to time, including, but not limited to, House Bill 1568, 2019 Regular Session of the State Legislature, Sections 6 through 20, Chapter 521, Laws of 1995, as amended by Section 17, Chapter 503, Laws of 2003, as amended by Section 2, Chapter 477, Laws of 2004, as amended by Section 2, Chapter 456, Laws of 2006, as amended by Section 3, Chapter 492, Laws of 2008, as amended by Section 47, Chapter 533, Laws of 2010, as amended by Section 13, Chapter 480, Laws of 2011, as amended by Section 35, Chapter 569, Laws of 2013, as amended by Section 8 of House Bill 1649, 2018 Regular Session of the State Legislature, as amended by Section 12 of Senate Bill 3065, 2019 Regular Session of the State Legislature and Section 41-3-16, Mississippi Code of 1972, as amended and supplemented, Section 2 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 9 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 32 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 32 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 32 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 32 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 34 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 42 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 48 of Senate Bill 3065, 2019 Regular Session of the State Legislature (collectively, the "Series 2019C Act") and a resolution adopted by the Commission on September 3, 2019 (the "Series 2019C Resolution" and together with the Series 2019B Resolution, the "Resolutions") for the purpose of providing funds to finance various economic development loans, grants, and programs in the State, to pay the costs of certain capital improvements in the State and to pay the costs incident to the sale, issuance and delivery of the Series 2019C Bonds, all as authorized under the Series 2019C Act and the Series 2019C Resolution. See "DESCRIPTION OF THE PROJECTS – Series 2019C Projects," herein.

The Series 2019B Act and the Series 2019C Act are referred to herein together as the "Act."

Security

The Series 2019 Bonds will be general obligations of the State, and for the payment thereof, the full faith and credit of the State shall be irrevocably pledged. The Act provides that if the funds appropriated by the Legislature of the State shall be insufficient to pay the principal of and interest on the Series 2019 Bonds as they become due, the deficiency shall be paid by the State Treasurer from funds in the State Treasury not otherwise appropriated.

The qualified electors of the State voted in a general election held on November 7, 1995, to amend the Mississippi Constitution of 1890 (the "Constitution") to add the following new Section 172A (the "Amendment"):

SECTION 172A. Neither the Supreme Court nor any inferior court of this state shall have the power to instruct or order the state or any political subdivision thereof, or an official of the state or any political subdivision, to levy or increase taxes.

The Amendment does not affect the State's underlying obligation to pay the principal of and interest on the Series 2019 Bonds as they mature and become due nor does it affect the State's obligation to levy a tax sufficient to accomplish that purpose. However, even though it appears that the Amendment was not intended to affect bondholders' remedies in the event of a payment default, the Amendment potentially prevents bondholders from obtaining a writ of mandamus to compel the levying of taxes to pay the principal of and interest on the Series 2019 Bonds in a State court. It is not certain whether the Amendment would affect the right of a federal court to direct the levy of a tax to satisfy a contractual obligation. Other effective remedies are available to the bondholders in the event of a payment default with respect to the Series 2019 Bonds.

Redemption Provisions of the Series 2019 Bonds

<u>Optional Redemption</u>. The Series 2019 Bonds will be subject to optional redemption prior to their respective maturities on or after October 1, 2029, either in whole or in part on any date (as selected by the State among maturities and by lot within each maturity), at the principal amount thereof, together with the interest accrued thereon to the date fixed for redemption and without premium.

Selection of Series 2019 Bonds to be Redeemed

<u>Held in Book-Entry Only System.</u> If less than all of the Series 2019 Bonds shall be called for redemption, the State shall notify DTC that the redemption shall be by lot in whole multiples of \$5,000. While DTC is the registered owner of the Series 2019 Bonds, partial redemptions (including any sinking fund payments) of the Series 2019 Bonds of a particular maturity will be determined in accordance with DTC's procedures as in effect at the time of any such partial redemption.

<u>Not Held in Book-Entry Only System.</u> If less than all of the Series 2019 Bonds subject to redemption are called for redemption, the Paying and Transfer Agent shall select the Series 2019 Bonds to be redeemed from the outstanding Series 2019 Bonds subject to redemption and not previously called for redemption, by lot in any

manner deemed reasonable by the Paying and Transfer Agent, provided that the unredeemed portion of the principal amount of any Series 2019 Bond shall be not less than \$5,000.

Notice of Redemption

Notice of the call for any redemption (which may be a conditional notice), identifying the Series 2019 Bonds (or any portions thereof in authorized denominations) to be redeemed, will be given by the State at least 30 days but not more than 45 days prior to the date fixed for redemption by mailing a copy of the redemption notice by registered or certified mail to the Underwriters (as defined herein) and the registered owner of each Series 2019 Bond to be redeemed at the address shown on the records of the Paying and Transfer Agent. Failure to mail such notice to any particular owner of Series 2019 Bonds, or any defect in the notice mailed to any such owner of Series 2019 Bonds, will not affect the validity of any proceeding for the redemption of any other Series 2019 Bonds. So long as DTC or its nominee is the registered owner of the Series 2019 Bonds, notice of the call for any redemption will be given to DTC, and not directly to Beneficial Owners. See the caption, "DESCRIPTION OF THE SERIES 2019 BONDS -- Book-Entry-Only System" and APPENDIX F - BOOK-ENTRY-ONLY SYSTEM.

Defeasance

Under the Resolutions, all Series 2019 Bonds for the payment of which sufficient moneys or, to the extent permitted by the laws of the State, (a) direct obligations of, or obligations the payment of the principal of and interest on which are unconditionally guaranteed by, the United States of America or any of its agencies ("Government Obligations"), or (b) certificates of deposit fully secured by Government Obligations, or (c) evidences of ownership of proportionate interests in future interest or principal payments on Government Obligations held by a bank or trust company as custodian, under which the owner of the investment is the real party in interest and has the right to proceed directly and individually against the obligor on the Government Obligations and which Government Obligations are not available to satisfy any claim of the custodian or any person claiming through the custodian or to whom the custodian may be obligated, or (d) municipal obligations, the payment of the principal of, interest and redemption premium, if any, on which are irrevocably secured by Government Obligations and which Government Obligations are not subject to redemption prior to the date on which the proceeds attributable to the principal of such obligations are to be used and have been deposited in an escrow account which is irrevocably pledged to the payment of the principal of and interest and redemption premium, if any, on such municipal obligations (all of which collectively, with Government Obligations, "Defeasance Securities"), shall have been deposited with an escrow agent appointed for such purpose, which may be the Paying and Transfer Agent, all to the extent provided in the Resolutions, shall be deemed to have been paid, shall cease to be entitled to any lien, benefit or security under the Resolutions and shall no longer be deemed to be outstanding thereunder, and the registered owners shall have no rights in respect thereof except to receive payment of the principal of, premium, if any, and interest on such Series 2019 Bonds from the funds held for that purpose. Defeasance Securities shall be considered sufficient under the Resolutions if said investments, with interest, mature and bear interest in such amounts and at such times as will assure sufficient cash to pay currently maturing interest and to pay principal and premium, if any, when due on such Series 2019 Bonds.

Registration

<u>Series 2019 Bonds Subject to the Book-Entry-Only System.</u> For so long as DTC acts as securities depository for the Series 2019 Bonds, the registration and transfer of ownership interests in Series 2019 Bonds shall be accomplished by book entries made by DTC and the Direct Participants and, where appropriate, the Indirect Participants, as described herein under the heading "DESCRIPTION OF THE SERIES 2019 BONDS-Book-Entry-Only System."

<u>Series 2019 Bonds Not Subject to Book-Entry-Only System.</u> Should the Series 2019 Bonds no longer be held in book-entry form, each Series 2019 Bond shall be thereafter evidenced by a bond certificate in fully registered form and transferable only upon the registration records of the State maintained by the Paying and Transfer Agent, by the registered owner thereof or by such registered owner's attorney, duly authorized in writing, upon surrender thereof, together with a written instrument of transfer satisfactory to the Paying and Transfer Agent, duly executed by the registered owner or such registered owner's duly authorized attorney. Upon the transfer of any Series 2019 Bond, the State shall issue, in the name of the transferee, a new Series 2019 Bond or Series 2019 Bonds of the same interest rate and maturity of like tenor and effect in any authorized denomination equal to the unpaid principal amount of the surrendered Series 2019 Bond.

Series 2019 Bonds, upon surrender thereof at the Office of the State Treasurer with a written instrument of transfer satisfactory to the Paying and Transfer Agent duly executed by the registered owner or such registered owner's duly authorized attorney, may be exchanged for a principal amount of Series 2019 Bonds of the same interest rate and maturity and of like tenor and effect in any authorized denomination equal to the unpaid principal amount of the surrendered Series 2019 Bonds. The Paying and Transfer Agent will not be required to register the transfer of or exchange any Series 2019 Bond after the mailing of notice calling such Series 2019 Bond for redemption has been given as provided in the Resolutions, nor during the period of 15 days next preceding the giving of such notice of redemption.

Book-Entry-Only System

The State has determined that it will be beneficial to have the Series 2019 Bonds held by a central depository system and to have transfers of the Series 2019 Bonds handled by a book-entry system on the records of DTC. Unless and until the book-entry-only system has been discontinued, the Series 2019 Bonds will be available only in book-entry form in principal amounts of \$5,000 or any integral multiple thereof. DTC will initially act as securities depository for the Series 2019 Bonds. The Series 2019 Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee). One fully registered Series 2019 Bond will be issued for each maturity of the Series 2019 Bonds and will be deposited with DTC. See APPENDIX F - BOOK-ENTRY-ONLY SYSTEM, for a detailed discussion of the book-entry-only system and DTC.

In the event the book-entry-only system is discontinued, principal and interest on the Series 2019 Bonds will be payable by check or draft of the Paying and Transfer Agent as described under the heading "DESCRIPTION OF THE SERIES 2019 BONDS - Registration."

DESCRIPTION OF THE PROJECTS

Series 2019B Projects

The Series 2019B Bonds are being issued under and pursuant to the Series 2019B Act and the Series 2019B Resolution for the purpose of providing funds to finance or refinance various capital improvements including, but not limited to, capital projects for institutions of higher learning and community and junior colleges in the State, capital projects for various State agencies, construction and equipping of the Mississippi Center for Medically Fragile Children, the repair and renovation of the Mississippi Children's Museum, the construction of a new veteran's hospital and grants for capital projects throughout the State (collectively, the "Series 2019B Projects"), and to pay the costs incident to the sale and issuance of the Series 2019B Bonds.

Series 2019C Projects

The Series 2019C Bonds are being issued under and pursuant to the Series 2019C Act and the Series 2019C Resolution for the purpose of providing funds to finance or refinance various economic development loans, grants and programs and certain capital improvements in the State, including, but not limited to, funding for the State's program for grants to local economic development entities to assist in maximizing extraordinary economic development opportunities related to a new or expanding business or industry, funding for the State's development infrastructure grant program, funding for the State's economic development highway program, funding for an economic development project for Toyota Motor Manufacturing, Mississippi, Inc., funding for an economic development project for Toyota Motor Manufacturing, Mississippi, Inc., funding for an economic development project for Continental Tire the Americas, LLC, funding for the State's technology alliance program, funding for the State's grant program for industrial economic development sites, funding for capital improvements at the State shipyard in Jackson County, Mississippi, funding for the State's grant program to qualified small municipalities and counties, funding for the State's loan program for assisting in water pollution control projects, funding for the State's loan program for assisting local governments and rural water systems in making improvements to their water systems and funding for grants for various capital improvements projects in the State (collectively, the "Series 2019C Projects" and with the Series 2019B Projects, the "Projects"), and to pay the costs incident to the sale and issuance of the Series 2019C Bonds.

SOURCES AND USES OF FUNDS

The following is a summary of the estimated sources and uses of proceeds of the Series 2019 Bonds.

	Series 2019B Bonds	Series 2019C Bonds
Sources		
Par Amount	\$ 169,700,000.00	\$ 235,840,000.00
Plus Original Issue Premium	25,630,075.90	756,694.90
Total Sources	195,330,075.90	\$ <u>236,596,694.90</u>
Uses		
For Costs of the Projects	\$ 194,860,000.00	\$ 235,965,000.00
For Costs of Issuance ¹	470,075.90	631,694.90
Total Uses	$\frac{195,330,075.90}{195,330,075.90}$	\$ <u>236,596,694.90</u>

¹ Includes, among other expenses, underwriters' discount, rating agency fees, and financial advisor and legal fees. Payment of such fees is contingent upon the issuance of the Series 2019 Bonds.

DEBT STRUCTURE AND CHARACTERISTICS

General

All debt of the State must be authorized by legislation governing the specific programs or projects to be financed. In most instances, such legislation provides the Commission authority to approve and authorize the sale and issuance of State debt. The Commission is comprised of the Governor as Ex officio Chairman, the Attorney General as Ex officio Secretary and the State Treasurer as an Ex officio Member.

Short-Term Indebtedness

The Commission, acting on behalf of the State, is authorized to issue in any given fiscal year general obligation short-term notes in an amount not to exceed 7.5% of the total appropriation made by the Legislature in such fiscal year. Such short-term notes may be issued for the purpose of offsetting any temporary cash flow deficiencies in the State's General Fund and to maintain a working balance therein. The State has never issued tax anticipation notes.

The Commission also has the authority to establish lines of credit or issue short-term notes to provide temporary financing for certain projects for which the Commission is otherwise authorized to issue bonds. No such line of credit is presently outstanding.

In July 2016, the State issued its \$80,000,000 Taxable General Obligation Note, Series 2016A (the "Series 2016A Note") to provide temporary financing for a portion of the costs of a project for Continental Tire the Americas, LLC, to be located in Hinds County, Mississippi (the "Continental Tire Project"). Draws totaling \$65,000,000 were made on the Series 2016A Note, of which \$31,000,000 was refunded with the proceeds of the \$53,030,000 State of Mississippi General Obligation Bonds, Series 2017D (Tax-Exempt) and the proceeds of the \$44,765,000 State of Mississippi Taxable General Obligation Bonds, Series 2017E.

On March 29, 2018, the State issued its \$135,000,000 Taxable General Obligation Note, Series 2018A (the "Series 2018A Note") to provide temporary financing for a portion of the costs of the Continental Tire Project and to refinance the remaining \$34,000,000 outstanding under the Series 2016A Note. Draws totaling \$135,000,000 were made on the Series 2018A Note, of which, \$34,000,000 refunded the balance of the 2016A Note. The remaining \$101,000,000 was refunded with the proceeds of the State's \$198,000,000 Taxable General Obligation Note, Series 2019A (the "Series 2019A Note"), issued on March 28, 2019.

The Series 2019A Note was issued to provide temporary financing for a portion of the costs of the Continental Tire Project and to refinance the remaining \$101,000,000 outstanding under the Series 2018A Note. Under the terms of the Series 2019A Note, the State may draw the principal as needed. There is currently \$111,000,000 outstanding under the 2019A Note, which the State intends to refinance with long term financing from a portion of the proceeds of the Series 2019C Bonds. The Series 2019A Note matures March 15, 2022.

On July 18, 2019, the State issued its \$1,750,000 General Obligation Note, Series 2019B (the "Series 2019B Note") to provide temporary financing for various capital improvements, including the construction and equipping of the Mississippi Center for Medically Fragile Children; improvements to the State Coliseum in

Jackson, Mississippi, improvements for the Mississippi Department of Corrections; and the construction, furnishing and equipping of the Harrison County Veterans Affairs Nursing Home. Under the terms of the Series 2019B Note, the State may draw the principal as needed. The State has drawn all of the proceeds of the Series 2019B Note and intends to use a portion of the Series 2019 Bonds to refinance the Series 2019B Note.

Long-Term Indebtedness

The State's long-term indebtedness is composed of general obligation bonds and revenue bonds issued to finance specific programs and projects. As used in this Official Statement, the terms Gross Debt, Gross Direct Debt and Net Direct Debt are part of the State's long-term debt and have the following meanings.

"Gross Debt" means all bonded debt of the State, both general obligation bonds and revenue bonds.

"Gross Direct Debt" means only bonded debt of the State to which the full faith, credit and taxing power of the State is pledged.

"Net Direct Debt" means that amount of Gross Direct Debt, which is serviced only by appropriations from the State's General Fund or by specific sources of revenue, which would otherwise accrue to the State's General Fund except for the servicing of such debt.

The following table summarizes the outstanding principal amount of debt of the State.

STATE OF MISSISSIPPI LONG TERM INDEBTEDNESS ⁽¹⁾ As of August 1, 2019

State of Mississippi Bonds

Lease Purchase Agreements

Pursuant to the authority granted the State by Section 31-7-10, Mississippi Code of 1972, as amended and supplemented (the "Lease Purchase Act"), the Department of Finance and Administration has entered into a master lease purchase agreement to finance new personal property leased by various agencies, boards, departments and commissions of the State (the "Agency Leases"). The Agency Leases require the State to make periodic payments of rent sufficient to pay the principal and interest due thereunder. The lease payments are subject to annual appropriation and are not a full faith and credit obligation of the State. The Commission has authorized the State, through the Department of Finance and Administration, to enter into Agency Leases in an amount not to exceed \$65,000,000 to be outstanding at any one time. There was an outstanding balance under the Agency Leases at July 30, 2019 of \$16,915,000.

Under the Lease Purchase Act, the Department of Finance and Administration is also authorized to enter into lease purchase agreements (the "School Leases" and "Community College Leases") to finance personal property to be subleased by school districts and community colleges in the State (the "Subleases"). The School Leases require the State to make periodic payments of rent sufficient to pay the principal and interest due thereunder (the "Lease Payments"). The Subleases require the school districts and community colleges to make payments to the State sufficient to make the Lease Payments. The Lease Payments are subject to annual appropriation and are not a full faith and credit obligation of the State. The Commission has authorized the State, through the Department of Finance and Administration, to enter into School Leases and Community College Leases in an amount not to exceed \$50,000,000 to be outstanding at any one time. There was an outstanding balance under the School Leases at July 30, 2019 of \$6,720,000 and an outstanding balance under the Community College Leases at July 30, 2019 of \$6.

Certificates of Participation

Section 47-5-941 of the Mississippi Code of 1972, as amended and supplemented, authorizes the Wilkinson County Industrial Development Authority (the "Wilkinson Authority") to contract with the Mississippi Department of Corrections ("MDOC"), acting for and on behalf of the State, for the private incarceration of inmates of the State. The Wilkinson Authority entered into a Lease-Purchase Agreement, dated as of December 1, 1996, with MDOC (the "Wilkinson County Lease") in the original principal amount of \$31,435,000 to finance the construction of a 500-bed correctional facility to be located in Wilkinson County, which facility presently has 1,000 beds as a result of a subsequent expansion. In connection with the refunding of the then outstanding amounts under the Wilkinson County Lease, the Wilkinson County Lease has been amended and restated and assigned to secure the payment of the \$20,100,000 Mississippi Development Bank Special Taxable Obligation Bonds, Series 2010B (MDOC - Wilkinson County Correctional Facility Refunding Bonds Project), dated May 21, 2010. The Wilkinson County Lease is \$12,095,000.

House Bill 1719, Local and Private Laws of the 1996 Regular Session of the Mississippi Legislature authorized the Board of Supervisors of Lauderdale County, Mississippi to create the East Mississippi Correctional Facility Authority (the "East Mississippi Authority") for the purpose of contracting with MDOC for the private incarceration of inmates of the State. The East Mississippi Authority entered into a Lease-Purchase Agreement, dated as of December 15, 1997, with MDOC (the "East Mississippi Lease") in the original principal amount of \$34,520,000 to finance the construction of a 500-cell correctional facility to be located in Lauderdale County. In 2007, the East Mississippi Lease was amended to cover a 500-cell expansion of the facility and additional bonds were issued in the principal amount of \$39,000,000 to finance such expansion. In connection with the refunding of the then outstanding amounts under the East Mississippi Lease, the East Mississippi Lease has been amended and restated and assigned to secure the payment of the (a) \$68,830,000 (original aggregate principal amount) Mississippi Development Bank Special Obligation Bonds, Series 2010D (MDOC - East Mississippi Correctional Facility Refunding Bonds Project), dated July 20, 2010 and currently outstanding in the amount of \$12,555,000, (b) \$26,685,000 (original aggregate principal amount) Mississippi Development Bank Special Obligation Bonds, Series 2016C (Mississippi Department of Corrections East Mississippi Correctional Facility Refunding Bond Project), dated July 29, 2016 and currently outstanding in the amount of \$26,685,000, and (c) \$20,340,000 (original aggregate principal amount) Mississippi Development Bank Taxable Special Obligation Bonds, Series 2016D (Mississippi Department of Corrections East Mississippi Correctional Facility Refunding Bond Project), dated July 29, 2016 and currently outstanding in the amount of \$18,995,000. The East Mississippi Lease currently expires on August 1, 2027.

House Bill 1878, Local and Private Laws of the 1998 Regular Session of the Mississippi Legislature authorized the Town of Walnut Grove to create the Walnut Grove Correctional Authority (the "Walnut Grove Authority") for the purpose of contracting with MDOC for the private incarceration of inmates of the State. The Walnut Grove Authority entered into a Lease-Purchase Agreement, dated as of November 1, 1999, with MDOC (the "Walnut Grove Lease") in the original principal amount of \$41,420,000 to finance the construction of a 1000bed correctional facility (the "Walnut Grove Facility") to be located in the Town of Walnut Grove. In 2007, the Walnut Grove Lease was amended to cover a 500-cell expansion of the Walnut Grove Facility and additional bonds were issued in the principal amount of \$40,000,000 to finance such expansion. In connection with the refunding of the outstanding amounts under the Walnut Grove Lease, the Walnut Grove Lease has been amended and restated and assigned to secure the payment of the (a) \$93,580,000 (original aggregate principal amount) Mississippi Development Bank Special Obligation Bonds, Series 2010C (Mississippi Department of Corrections Walnut Grove Correctional Facility Refunding Bonds Project), dated July 20, 2010 and currently outstanding in the amount of \$17,495,000, (b) \$34,995,000 (original aggregate principal amount) Mississippi Development Bank Special Obligation Bonds, Series 2016A (Mississippi Department of Corrections Walnut Grove Correctional Facility Refunding Project), dated July 29, 2016 and currently outstanding in the amount of \$34,995,000, and (c) \$26,235,000 (original aggregate principal amount) Mississippi Development Bank Taxable Special Obligation Bonds, Series 2016B (Mississippi Department of Corrections Walnut Grove Correctional Facility Refunding Project), dated July 29, 2016 and currently outstanding in the amount of \$24,455,000. The Walnut Grove Lease currently expires on August 1, 2027. On June 10, 2016, MDOC notified the Walnut Grove Authority of the termination of the residential services agreement between MDOC and the Walnut Grove Authority providing for the housing of inmates at the Walnut Grove Facility, effective on September 15, 2016. MDOC ceased housing inmates at the Walnut Grove Facility on September 15, 2016 and such facility was shut down. The closure of the Walnut Grove Facility did not terminate the Walnut Grove Lease or the obligation of the State to make rental payments under the Walnut Grove Lease.

The obligations of the State to make rental payments under the Marshall County Lease, the Wilkinson County Lease, the East Mississippi Lease, and the Walnut Grove Lease are subject to annual appropriation and do not constitute general obligations or a pledge of the full faith and credit of the State or any political subdivision or agency thereof within the meaning of any constitutional or statutory provision or limitation.

Debt Limitation

Section 115, Paragraph 2 of the Mississippi Constitution of 1890 provides:

"Neither the State nor any of its direct agencies, excluding the political subdivisions and other local districts, shall incur a bonded indebtedness in excess of one and one-half (1½) times the sum of all the revenue collected by it for all purposes during any one of the preceding four fiscal years, whichever year might be higher."

The State's constitutional debt limit is established under Section 115 of the Mississippi Constitution at one and one-half times the sum of all revenues collected by the State during any one of the four preceding fiscal years, whichever may be higher. Revenues included in the foregoing debt limitation computation are restricted by current practice to the following revenues: taxes, licenses, fees, and permits, investment income, rental income, service charges (including net income from the sale of alcoholic beverages), fines, forfeits, and penalties. The following table shows the State's constitutional debt limit for the previous ten fiscal years.

Fiscal Year Ending June 30	Constitutional Debt Limit	Net Debt Applicable to Limit	Net Debt Applicable to the Limit as a Percentage
2009	\$12,451,109,000	\$3,259,476,000	26.2%
2010	12,451,109,000	3,275,320,000	26.3
2011	12,451,109,000	3,490,465,000	28.0
2012	12,451,109,000	3,847,744,000	30.9
2013	12,505,104,000	3,867,930,000	30.9
2014	12,823,921,000	3,928,641,000	30.6
2015	13,312,194,000	4,040,812,000	30.4
2016	13,312,194,000	4,054,062,000	30.5
2017	13,312,194,000	4,157,052,000	31.2
2018	13,312,194,000	3,982,879,000	29.9

2036	173,634,680	10,248,101	183,882,781
2037	95,660,040	4,270,450	99,930,490
2038	31,630,040	1,637,550	33,267,590
2039	25,960,040	519,200	26,479,540
	$\underline{4,039,495,000}$	\$ <u>1,549,652,107</u>	5,589,147,107

⁽¹⁾ Does not include the effects of the Series 2019 Bonds.

(2) These amounts do not include any subsidy payments due to the State from the United States Treasury pursuant to and in accordance with Section 1531 of the Title 1 of Division B of the American Recovery and Reinvestment Act of 2009 (Pub. L. No. 111-5, 123 Stat. 115 (2009)) (the "Recovery and Reinvestment Act") and Sections 54AA(g) and 6431 of the Code (as defined herein). Pursuant to the requirements of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, refund payments to certain state and local government filers claiming refundable credits under Section 6431 of the Code applicable to certain qualified bonds are subject to sequestration. The IRS Office of Tax Exempt Bonds (TEB) has announced that the sequester reduction percentage for payments to issuers of direct pay bonds for FY 2020 (October 1, 2019 through and including September 30, 2020) will be 5.9%. The reduction rate will be applied unless and until a law is enacted that cancels or otherwise impacts the sequester, at which time the sequestration reduction rate is subject to change. The State has made arrangements to pay the additional debt service on bonds issued under the Recovery and Reinvestment Act.

Revenue Bonds

On October 22, 2015 the State issued its \$200,000,000 Gaming Tax Revenue Bonds, Series 2015E (the "Series 2015E Bonds") to provide funds to the State to finance the costs of the repair, rehabilitation, replacement, construction and/or reconstruction of State maintained bridges within the State. The Series 2015E Bonds are limited obligations of the State payable from all or a portion of the Dedicated Gaming Tax Revenue (which is defined as the first \$3,000,000.00 of all taxes, fees, interest, penalties, damages, fines or other monies collected monthly by the Mississippi Department of Revenue in accordance with Section 75-76-177(c), Mississippi Code of 1972, as amended, in connection with all gaming operations in the State). The full faith and credit of the State is not pledged for the repayment of the Series 2015E Bonds.

On January 31, 2019 the State issued its \$268,775,000 Gaming Tax Revenue Bonds, Series 2019A (the "Series 2019A Bonds") to provide funds to the State to finance the State's Emergency Road and Bridge Repair Fund and the State's 2018 Transportation and Infrastructure Improvements Fund. The Series 2019A Bonds are limited obligations of the State payable from all or a portion of the Dedicated Gaming Tax Revenue. The full faith and credit of the State is not pledged for the repayment of the Series 2019A Bonds.

Moral Obligation Bonds

The Mississippi Development Bank (the "Development Bank"), a body corporate and politic of the State, issues various series of Mississippi Development Bank Special Obligation Bonds (the "Development Bank Bonds")

which may carry a pledge of the moral obligation of the State. The Development Bank Bonds are issued pursuant to the terms and provisions of Sections 31-25-1 *et seq.*, Mississippi Code of 1972, as amended and supplemented (the "Bank Act"), to provide financing for governmental projects of political subdivisions of the State. The Bank Act provides that, in order to assure the maintenance of the debt service reserve requirement in a debt service reserve fund for certain Development Bank Bonds carrying the moral obligation pledge of the State, the Legislature of the State may, but is not obligated to, appropriate to the Development Bank for deposit in any such debt service reserve fund such sum as necessary to restore such debt service reserve fund to the debt service reserve requirement. As required by the Bank Act, any such amount must be certified by the Development Bank on or before January 1 of any year to the Governor of the State.

Nothing in these provisions or any other provision of the Bank Act creates a debt or liability of the State to make any payments or appropriations to or for the use of the Development Bank or in connection with any Development Bank Bonds. There is no assurance under the Bank Act (a) that the request by the Governor transmitted to the Legislature of the State, stating the amount of a deficiency in any debt service reserve fund, would be taken up for consideration by the Legislature of the State, (b) that upon consideration of any such request, the Legislature would determine to appropriate funds to reduce or eliminate such deficiency, or (c) that in the event the Legislature determined to make such an appropriation, the amounts thus appropriated would be forthcoming as of any particular date. As of the date hereof, no such request has been made by the Development Bank to fund any debt service reserve fund on Development Bank Bonds carrying the State's moral obligation pledge.

As of July 1, 2019, the Development Bank Bonds outstanding carrying a moral obligation pledge of the State totaled \$282,540,000. Except for these Development Bank Bonds, no bonds of the State are outstanding as of the date of this Official Statement which carry a pledge of the moral obligation of the State or which contemplate the appropriation by the Legislature of any amount as may be necessary to make up any deficiency in any debt service reserve fund in connection with indebtedness issued by or on behalf of a political subdivision of the State.

Record of No Default

Except as set forth below, there has been no default on general obligations of the State as to payment of either principal or interest during the last 100 years.

On May 3, 2017, the State gave notice of the optional call, on June 5, 2017, of \$75,000 principal amount of its State of Mississippi General Obligation Bonds (Mississippi Small Enterprise Development Finance Act Issue 2003 Series A through C) (the "Series 2003 Bonds"). As a result of a clerical error by the State and its paying agent, the payment of the principal and interest on that portion of the Series 2003 Bonds was not made until June 7, 2017. The State has taken action to ensure that such an error will not occur in the future.

Annual Debt Service Requirements

Annual debt service requirements for the Series 2019 Bonds are set forth on pages A-1 and A-2 in APPENDIX A hereto.

FISCAL OPERATIONS OF THE STATE

The Budgetary Process

Capital Improvement Budget. Beginning in mid-spring, the Office of Building, Grounds and Real Property Management performs on-site visits, tours and inspects every State building, facility and campus, noting problems and seeing first-hand the requested and necessary projects. The projects are placed into priority guidelines as to the projects (i) preserving and improving the quality of human life, (ii) protecting existing capital investment, (iii) supporting education to compete in the global economy, (iv) providing resources to maintain or gain specific accreditations, and (v) maximizing the State's fiscal opportunities. After consideration, these projects are included in a five-year capital improvement plan and presented to the Legislature for consideration. Funding is requested for a single year, with projections for the succeeding four years presented for informational purposes only.

Operating Budget Preparation. The State operates on a fiscal year beginning July 1 and ending June 30. The budget cycle begins on or about August 1 when all State agencies and institutions requesting

appropriations submit budget requests to the Governor's Budget Office and the Legislative Budget Office. Agencies justify their requested budget in hearings held during September and October. At the close of the hearings, the Governor's Budget Office and the Legislative Budget Office receive information prepared by the State Department of Revenue, the University Research Center and the respective budget staffs regarding the financial outlook for the upcoming fiscal year. Based on this information, the budget offices adopt a consensus revenue estimate. This action enables both branches to use the same revenue estimate as the basis for their budget recommendations. It is a statutory requirement that both the Governor and Legislature submit balanced budgets for consideration. The Executive Budget is prepared and submitted to the Legislature by November 15, except that every four years after a statewide election, the Executive Budget is prepared and submitted to the Legislature by January 15. The Legislative Budget is submitted to the Legislature at its regular session, which begins on the first Tuesday after the first Monday in January of each year. At the close of each annual regular session, the Legislature will have acted on approximately 150 separate appropriation bills that constitute the budget for the upcoming year beginning July 1. All General Fund, Education Enhancement Fund and most Special Fund expenditures are appropriated annually by the Legislature and those Special Funds that are not appropriated are subject to the approval of the Department of Finance and Administration.

Revenue Projections. Five independently derived projections form the basis of the State's official revenue forecast. The Department of Revenue, the Legislative Budget Office, the Office of the State Treasurer, the Department of Finance and Administration and the University Research Center present and discuss their initial revenue forecasts and reach a consensus projection. This process is carried out for each major revenue category. Estimating techniques consist of econometric modeling and various forms of extrapolation.

Each October, the revenue estimate for the next fiscal year is finalized and presented to the Joint Legislative Budget Committee and the Governor's Budget Office. The estimate may be revised if circumstances warrant upon a consensus being reached by the five revenue-estimating agencies. If revenues fall short of projections, the Department of Finance and Administration is empowered to directly cut expenditures. All State agencies receiving general and/or special funds are subject to funding reductions of up to 5%. No agency receives a cut in excess of 5% unless all have been reduced by this percentage. Tax collections for fiscal year 2015 exceeded expectations in the amount of \$25 million or .05%. Tax collections for fiscal year 2016 were less than expectations in an amount of \$207 million or -3.07% through August 2017. Tax collections for fiscal year 2018 exceeded expectations in an amount of \$75.8 million or 1.4% through October 2018. For fiscal year 2019, tax collections exceeded expectations in an amount of \$275.5 million or 5.0% through June 2019.

If at any time during a fiscal year, the revenues received for that year fall below 98% of the Legislative Budget Office's General Fund revenue estimate, the Department of Finance and Administration, State Fiscal Officer may at any time but shall after October or any month thereafter, reduce allocations to all State agencies to keep expenditures within the actual General Fund receipts including any transfers, which may be made from the Working Cash-Stabilization Fund. Transfers from the Working Cash-Stabilization fund may not exceed \$50.0 million in any fiscal year. Senate Bill 2001 of the Second Extraordinary Session of the 2016 State Legislature removed the \$50.0 million limitation for fiscal year 2016. Senate Bill 2649 of the 2017 Regular Legislative Session provided not more than \$100 million may be transferred in fiscal year 2017.

Budget Implementation. The second phase of the budget process is the implementation of the budget based on the Legislature's appropriation bills. The establishment of any State agency's expenditure authority is a function of the Executive Director of the Department of Finance and Administration (the "Executive Director"). The Executive Director sets two six-month expenditure allotments based on seven major expenditure categories and their funding sources. These initial allotments must be approved by the Executive Director prior to July 1 of each fiscal year.

Budget and Accounting Controls. Based on the budget implemented by the Department of Finance and Administration, the Bureau of Financial Control pre-audits all invoices and supporting documents and issues warrants for payment of the legal debts of the State. No agency is allowed to exceed either the total fund allotment or major expenditure category allotment as established by the Executive Director. All payments made through the Bureau of Financial Control, except those classified as personal services and utilities, must have an approved encumbrance or purchase order on file and are charged against the allotment.

The Department of Finance and Administration has the authority to make limited revisions to agency budgets during the course of the fiscal year in the form of transfers and escalations. If an agency has a line item budget, transfers from one major object of expenditure to another major object of expenditure are limited to a maximum increase of 10% of the receiving major object of expenditure; transfer authority is not applicable to the salary category or to an increase in the equipment category. If an agency has a lump sum appropriation, transfers are not limited. Escalation authority applies to Special Funds only if funded with 100% federal funds. An escalation of nonfederal funds may be made if allowed within the appropriation bill for such requesting agency.

The Department of Finance and Administration maintains a dual fiscal management system, in that control is exercised over the total State budget as well as individual agency budgets. The Department of Finance and Administration may restrict, in its discretion, an agency to monthly allotments when it becomes evident that an agency's rate of expenditure will deplete its appropriation prior to the close of the fiscal year. In addition, should revenue collections fall below the amount estimated for collection during that period of the fiscal year, the Department of Finance and Administration may reduce allocations to all agencies in an amount necessary to keep expenditures within actual General Fund receipts. If it is determined that a deficit in revenues may occur in the General Fund at the end of a fiscal year, the Executive Director shall direct the transfer of such funds as necessary but not more than \$50.0 million from the Working Cash-Stabilization Fund to the General Fund. For fiscal year 2017, the State Legislature provided that not more than \$100 million may be transferred. Should any unexpended Special Fund cash balance exist at the end of a fiscal year, the balance may be retained for use by the respective agency in its accounts with the State Treasurer unless otherwise specified by law.

The State Department of Audit is responsible for and performs a post audit of all public entities under the jurisdiction of the State Auditor and investigates exceptions to spending practices discovered during the audit process. The State Department of Audit has the authority to recover any funds found to have been spent illegally.

GAAP Accounting

The State prepares its Comprehensive Annual Financial Report of the State ("CAFR") in accordance with Section 27-104-4, Mississippi Code of 1972, as amended and supplemented. The CAFR presents information on the financial position and operations of State government as one reporting entity. The various agencies, departments, boards, commissions and funds of State government, which constitute the State reporting entity, are governed by criteria established by the Governmental Accounting Standards Board. This Official Statement also includes financial data that was not prepared according to CAFR specifications but on a budgetary basis. The audited general purpose financial statements of the State for the fiscal year ended June 30, 2017, prepared in accordance with Generally Accepted Accounting Principles ("GAAP"), are presented in this Official Statement as APPENDIX B. The Government Finance Officers Association of the United States and Canada (the "GFOA") has awarded a Certificate of Achievement for Excellence in Financial Reporting to the State for its CAFR for the fiscal years ended June 30, 1987 through 2017 which is the highest form of recognition in the area of governmental financial reporting.

Investment and Cash Management

The State Treasurer is custodian of all State funds including all cash in the General Fund, Education Enhancement Fund and all Special Funds and is responsible for the investment of all such monies. The State Treasurer serves as custodian for securities, which are pledged to the State to secure deposits of State funds, and for other securities, which are held by various State agencies in accordance with specific State statutes.

As revenues are received from various agencies, they are deposited, and funds not immediately needed for payment are invested in interest-bearing demand accounts and then are normally placed into longer-term investments. Funds of the State invested in certificates of deposit with Mississippi financial institutions are fully collateralized by authorized United States of America and State obligations for amounts in excess of the FDIC coverage. Fiscal records of receipts, deposits and disbursements of all State funds, including federal funds received by the State, are maintained in the State Treasury as well as detailed and current records of the State's bonded indebtedness. All payments of State-obligated bonds and interest due are made by the State Treasurer.

Pursuant to Section 27-105-33, Mississippi Code of 1972, as amended and supplemented, it is the duty of the State Treasurer and the Executive Director of the Department of Finance and Administration on or before the tenth day of each month and at any other time when necessary to analyze the amount of cash in the State's General Fund and in the Special Funds credited to any special purpose designated by the Legislature. They also must determine when the cash in such funds is in excess of the amount needed to meet the current needs and demands on such funds for the next seven days and report the findings to the Governor. The State Treasurer's Office is directed to invest such excess funds in certificates of deposit, United States Treasury Obligations, United States Government agency obligations or in direct security repurchase agreements with approved depositories of

15

the State at a rate of interest numerically equal to the bond equivalent yield on direct obligations of the United States Treasury with a similar length of maturity.

Accounting Systems

Through June 30, 2014, the State operated a Statewide Automated Accounting System ("SAAS"), a comprehensive financial management system that met all GAAP, State budget and other financial management reporting requirements.

As of July 1, 2014, the State implemented a new system known as MAGIC (Mississippi's Accountability System for Government Information and Collaboration), an Enterprise Resource Planning (ERP) software to implement Financial, Procurement, Human Resource, and Payroll functions into a single, integrated software system. MAGIC has met new functional and data requirements; reduces inefficiencies and costs associated with multiple stand-alone systems at the statewide and agency levels; maintains enterprise data on a consistent, "real-time" basis; replaces aging, incompatible technology; and uses state of the art technology based on best business practices. Once MAGIC is fully implemented, it will replace the following legacy systems: SPAHRS (Statewide Payroll and Human Resource System) and ACE (Access Channel for Employees). All other systems utilized by the State prior to the implementation of MAGIC has been discontinued including SAAS (Statewide Automated Accounting Systems); WebProcure; MERLIN (Mississippi Executive Resource Library and Information Network); MELMS (Mississippi Enterprise Learning Management System); and PATS (Project Accounting and Tracking System).

Through the use of various funds, the Office of Fiscal Management of the Department of Finance and Administration accounts for operations of the State on a modified cash basis for budgetary purposes and on the modified accrual basis for GAAP purposes.

Overview of State Funds

The accompanying tables present a summary of receipts, disbursements and beginning and ending cash balances of the General Fund, Education Enhancement Fund and Special Funds.

Receipts and disbursements of the General Fund and Special Funds, as shown in the tables, may differ substantially from budgetary resources and appropriations for a number of reasons, including the following:

- (a) Capital improvements authorized in a given fiscal year's budget may require several years to complete, so that the amounts appropriated for capital improvements in a particular fiscal year do not necessarily correspond to actual disbursements for capital improvements in that fiscal year. In such cases, unused money is reappropriated each fiscal year; and
- (b) Appropriations by the Legislature for current purposes in a particular fiscal year constitute an authorization to spend up to a certain amount, but no more. In most cases, the amount actually disbursed will be below that limit.

The General Fund. Revenues of the State for general operating purposes are derived principally from sales, income and use taxes, gaming taxes and fees, plus smaller amounts from other taxes, profits from wholesale sales of alcoholic beverages, interest earned on investments, proceeds from sales of various supplies and services, service charges and license fees. For the fiscal year ended June 30, 2018, sales taxes accounted for 37.9%, individual income taxes for 33.3% and corporation income and franchise taxes for 10.4% of the total receipts allocated to the General Fund. For the fiscal year ended June 30, 2019, sales taxes accounted for 35.8%, individual income taxes for 31.8% and corporation income and franchise taxes for 10.8% of the total receipts allocated to the General Fund. A comparison of the amounts received by the various revenue sources (budgetary basis) of the General Fund is detailed in the Revenues section of the accompanying table entitled "STATE OF MISSISSIPPI GENERAL FUND - Results of Operations - Budgetary Basis."

The General Fund appropriation is limited to 98% of the official revenue estimate and estimated prior fiscal year ending cash balance; unless waived by an act of the State Legislature. The 2015 State Legislature waived this rule for fiscal year 2016 and appropriated 100% of the revenue estimate. The 2016 State Legislature waived this rule for fiscal year 2017 and appropriated 100% of the revenue estimate. The 2017 State Legislature waived this rule for fiscal year 2018 and appropriated 99% of the revenue estimate. The 2018 and 2019 State Legislature did not waive this rule for fiscal years 2019 and 2020, and appropriated 98% of the revenue estimate,

re-establishing the 2% set-aside rule pursuant to Mississippi Code Annotated Section 27-103-139. For the fiscal year ending June 30, 2020, appropriation for educational purposes accounts for 52.81% of the General Fund Budget. This includes State contributions to local school and community college districts. However, this percentage does not include certain State contributions such as maintenance funds for local school districts, shared taxes or local assistance. Other principal disbursements include costs related to welfare, public health, health care and hospitals and certain State operations. General Fund (budgetary basis) expenditures are detailed in the Disbursements section of the accompanying table entitled "STATE OF MISSISSIPPI GENERAL FUND - Results of Operations - Budgetary Basis."

The General Fund, as shown in the 2018 financial statements in APPENDIX B, is defined in Note 1 of the Notes to the Financial Statements on Significant Accounting Policies. The 2018 financial statements as set forth in APPENDIX B reflect all funds of the State, not just those that are budgeted.

At each fiscal year end, the General Fund unencumbered cash balance is distributed in the following order: (1) an amount not to exceed \$750,000 to the Municipal Revolving Loan Fund; (2) an amount equal to 50% of the remaining balance, not to exceed 10% of the General Fund appropriations for the fiscal year that the unencumbered balance represents, to the Working Cash Stabilization Reserve Fund; and (3) any remaining amount to the Capital Expense Fund.

As of July 31, 2019, the Working Cash Stabilization Fund had a fund balance of \$349,781,298.84.

Education Enhancement Fund. Of the total sales tax revenue collected, 2.266% is to be deposited into the School Ad Valorem Tax Reduction Fund until such time that the total amount deposited into the fund during a fiscal year equals \$42 million. Thereafter, the amounts diverted during the fiscal year in excess of \$42 million are to be deposited into the Education Enhancement Fund for appropriation by the Legislature. Additionally, 9.073% of the total sales tax revenue collected is to be deposited into the Education Enhancement Fund.

Of the total use tax revenue collected, 2.266% is to be deposited into the School Ad Valorem Tax Reduction Fund until such time that the total amount deposited into the fund during a fiscal year equals \$4 million. Thereafter, the amounts diverted during the fiscal year in excess of \$4 million are to be deposited into the Education Enhancement Fund for appropriation by the Legislature. Additionally, 9.073% of the total use tax revenue collected is to be deposited into the Education Enhancement Fund.

Special Funds

General. The major sources of Special Fund receipts are federal grants-in-aid and diversion of State taxes for special purposes. Special Fund receipts are not estimated on a statewide basis. Expenditures are limited by the receipt of revenues. A portion of both motor vehicle privilege taxes and motor fuel excise taxes is deposited to a special fund for highway construction, and the balance of the privilege and excise tax collections is diverted to counties and municipalities.

For the fiscal year ended June 30, 2018, Special Funds received approximately \$6,785.3 million from the federal government which includes public education, health and welfare, and highways. In addition, State tax receipts of \$1,483.0 million were diverted into Special Funds for particular purposes as provided by State law.

Health Care Trust Fund. The Health Care Trust Fund (the "Health Care Trust Fund") is a special fund established pursuant to 43-13-401 et seq., Mississippi Code of 1972, as amended and supplemented, for the deposit of funds received by the State as a result of the national tobacco litigation settlement. The Mississippi Legislature declared that such funds received by the State should be applied toward improving the health and health care of the citizens and residents of the State.

The Health Care Trust Fund began fiscal year 2000 with a balance of \$280,000,000. All subsequent tobacco settlement annual payments were to be deposited into the Health Care Trust Fund. Each year, a specified amount of funds from the Health Care Trust Fund are transferred to the "Health Care Expendable Fund", and those funds are available for expenditure by appropriation of the Legislature exclusively for health care purposes. If the interest and dividends from the investment of the Health Care Trust Fund are insufficient to fund the transfer to the Health Care Expendable Fund, the State Treasurer will transfer from the annual installment payment an amount sufficient to fully fund the transfer as required.

The 2011 Mississippi Legislature further amended the law and required annual transfers from the Health Care Trust Fund to the Health Care Expendable Fund for appropriation for health care needs. The annual transfer provided in the law is as follows:

Fiscal Year	Annual Transfer
2006	\$186,000,000
2007	186,000,000
2008	106,000,000
2009	92,254,000
2010	112,000,000
2011	112,000,000
2012	56,263,438
2013	97,450,332
2014	23,100,000
2015	3,055,564
2016	18,762
2017	5,475
2018	0
2019	0

Source: Department of Finance and Administration.

A board of directors, consisting of thirteen members, is statutorily responsible for investing the funds in the Health Care Trust Fund and the Health Care Expendable Fund. The board voted in May 2010 to discontinue meeting regularly since the assets were being gradually liquidated to satisfy the appropriations approved by the State Legislature. Upon receipt of the annual tobacco settlement payments on December 31, 2015 and in April 2016, the combined balance of both payments was transferred into the Expendable Fund by the end of fiscal year 2016. Future payments from the annual tobacco settlement will be transferred directly into the Expendable Fund. At July 31, 2019, the Health Care Expendable Fund had a balance of \$4,949,946.14.

Mississippi Prepaid Affordable College Tuition Fund. The Mississippi Prepaid Affordable College Tuition ("MPACT") program is a trust fund managed for the payment of tuition as required by contracts between the State and purchasers of the contracts. Monies received from purchasers of the MPACT contracts provide some of the cash flow used to satisfy the payment of benefits to institutions of higher learning on behalf of matriculating students. In addition to the payments received from the purchasers of MPACT contracts, the program is also funded in part from the dividends, interest and gains from the assets under management. The MPACT fund is managed within an actuarial framework, so the fund does have a target rate of return in order to grow the fund to a size that will be able to accommodate future obligations. All MPACT contracts carry the full faith and credit of the State. The relevant statute governing the MPACT Fund is Section 37-155-1 to Section 37-155-27, Mississippi Code of 1972, as amended and supplemented.

The MPACT Fund is overseen by the College Savings Plans of Mississippi Board of Directors (the "Board") of which the State Treasurer serves as Chairman. Any action taken with regard to the investments of the funds, including changes in investment management, investment policy, asset allocation, etc., must be approved by the Board.

On August 23, 2012, the Board voted to defer the 2012 enrollment effective September 1, 2012 and contract for the performance of an actuarial audit. Results of the audit were communicated to the Board at its April 30, 2013 Board meeting. Over the following 18 months, the Board held numerous planning sessions to review and approve changes to the program and the actuarial funding assumptions. The program reopened for enrollment on October 1, 2014. Utilizing the revised actuarial assumptions, as of June 30, 2018, the MPACT Fund-Legacy Plan had \$278.6 million in assets under management with a funded status of 69.7%. The value of expected liabilities of the trust exceeded the value of the assets, including the value of future payments by contract holders, by \$126.9 million. As of June 30, 2018, the MPACT Fund-Horizon Plan had \$35.7 million in assets under management with a funded status of the expected liabilities, including the value of future payments by contract holders, by \$6.2 million. The liability amounts are based on actuarial assumptions approved by the Board.

Budget Contingency Fund. The Budget Contingency Fund is a special fund created by the Legislature to handle non-recurring budget shortfalls. During the 2016 legislative session, the Legislature directed the initial \$150 million deposit of the British Petroleum Litigation Settlement (the "BP Settlement") to the Budget Contingency Fund, and appropriated \$42.5 million to various coastal projects. The \$150 million settlement payment was received in early fiscal year 2017. As of July 31, 2019, the fund balance was \$99,821.93.

Education Improvement Trust Fund. The Education Improvement Trust Fund is legally restricted to the extent that only earnings, and not principal, may be used for the purpose of educating elementary and secondary school students and for vocational training in the State. As of July 31, 2019, the Education Improvement Trust Fund had a balance of \$48,190,022.23.

Potential Claims Related to Federal Grants

The State is aware of several potential claims against the State by federal agencies for the reimbursement of certain federal grant monies. The State believes that the maximum aggregate exposure for the repayment of these grants, if any, will not exceed \$76,000,000. The State is in the process of gathering information which it believes will mitigate this exposure to the federal government.

DESCRIPTION OF STATE TAXES

State operations are funded by General Fund revenues, Education Enhancement Fund revenues and Special Fund receipts. Mississippi's tax base receives its major support from general sales and use taxes, personal income taxes, corporate income and franchise taxes, petroleum excise taxes, motor vehicle privilege taxes, insurance premium taxes and excise levies on tobacco and alcohol. The major sources of General Fund revenues are sales and use taxes, personal income taxes and corporate income and franchise taxes.

Sales Taxes. Sales taxes are imposed at a general tax rate of 7% (see "FISCAL OPERATIONS OF THE STATE - Education Enhancement Fund" herein). The State returns to the municipalities 18.5% of the retail sales tax collected within each municipality. Major exemptions from the sales tax include: (i) sales to governments; (ii) sales of raw materials to manufacturers, large vessels, barges and rail rolling stock; (iii) sales of livestock; (iv) sales of property for foreign export; (v) sales of seed, feed, fertilizer and agricultural chemicals; (vi) sales of farm products by a producer, except when sold by a producer through a regular place of business; (vii) sales of certain utility services for residential, industrial and farm use; (viii) sales of motor fuel; (ix) sales of food purchased with food stamps; (x) sales to non-profit hospitals and infirmaries; (xi) sales of newspapers; and (xii) sales of prescription drugs and medicines. The tax rate for construction contracts exceeding \$10,000, except residential

construction, is 3.5%. The tax rate for the sale of automobiles, light trucks and motor homes is 5%. The tax rate for the sale of aircraft, semi-trailers and mobile homes is 3%. The tax rate for the sale of manufacturing machinery and equipment, farm implement and farm tractors is 1.5%. Sales to electric power associations are taxed at 1%.

Use Taxes. Use taxes are imposed at the same rate as sales taxes on personal property from out-of-state sources for use, consumption or storage in the State. Credit is allowed for taxes paid to another state if the property has been used in another state prior to being brought into the State for use. Exemptions for use taxes are the same as those for sales taxes.

Personal Income Taxes. Personal income taxes are imposed at a rate of 3% on the first \$5,000 of taxable income, 4% on the second \$5,000 and 5% on the remainder. Single taxpayers are allowed a \$6,000 exemption. Married taxpayers are allowed a \$12,000 joint exemption. Heads of household taxpayers with one or more dependents living in the home are allowed an \$8,000 exemption. The exemption for each dependent is \$1,500, plus an additional \$1,500 exemption for taxpayers who are blind or over age 65. The Mississippi Taxpayer Pay Raise Act of 2016 (the "Taxpayer Pay Raise Act") passed during the 2016 Legislative Session will gradually eliminate the 3% tax bracket. Under the current plan, \$1,000 of the first \$5,000 of taxable income would be exempted in 2018, with another \$1000 each year until the bracket is phased out by 2022.

Corporate Income and Franchise Taxes. Franchise taxes are currently imposed at a rate of \$2.50 per \$1,000 of capital employed in the State. The Taxpayer Pay Raise Act will gradually eliminate the franchise tax. Beginning in 2018, the first \$100,000 of taxable capital will be exempt from the franchise tax. In 2019, the tax cut reduces the rate by 25 cents every year until the franchise tax is fully repealed by January 1, 2028. Certain nonprofit and not-for-profit organizations are exempt from corporate income taxes and franchise taxes, such as (i) religious, charitable, educational and scientific associations and institutions; (ii) business leagues, labor organizations, chambers of commerce; (iii) civic leagues and social clubs operated for promotion of social welfare; (iv) non-profit agricultural associations. A small business corporation having a valid election in effect under Subchapter S of the Code, is exempt from State income tax, except for that portion of income that might be allocable to shares of stock owned by nonresidents of the State.

Gaming Taxes and Fees. Gaming taxes and fees are imposed on gaming establishment gross revenue at a rate of 4% on the first \$50,000 per month, 6% of the next \$84,000 per month and 8% of all over \$134,000 per month.

Other Taxes. The Department of Revenue also collects other taxes that provide significant amounts of revenue. The tobacco tax is imposed on sales of all tobacco products in the State, including cigarettes, which are taxed at 68 cents per package of 20 cigarettes, all other tobacco products are taxed at 15% of the manufacturer's list price. Other taxes include gas and oil severance, beer excise, insurance premium, and finance company privilege taxes.

The Alcoholic Beverage Control Division of the Department of Revenue that controls the sale and consumption of distilled spirits and wine contributes to the General Fund through the collection of State excise taxes, markups, permit license fees (one half goes to the city or county where the permittee is located), permit application fees and interest earned on demand deposits.

RETIREMENT SYSTEM

In accordance with State statutes, the Public Employees' Retirement System (the "System") Board of Trustees (the "Board of Trustees") administers 24 programs and plans, including 22 defined benefit plans and two defined contribution plans. The defined benefit plans include the Mississippi Public Employees' Retirement System ("PERS"), a cost-sharing multiple-employer public employee retirement system established in 1952, the Mississippi Highway Safety Patrol Retirement System ("MHSPRS"), a single-employer public employee retirement system established in 1958, the Supplemental Legislative Retirement Plan ("SLRP"), established in 1989, and the Municipal Retirement Systems ("MRS") made up of 17 fire and police and two municipal employee plans placed under the administration of the System on July 1, 1987. MRS is an agent multiple-employer defined benefit public employees' retirement system.

The defined contribution plans include the Optional Retirement Program ("ORP"), established in 1990 in accordance with Section 401(a) of the IRS Code as an alternative for membership in PERS for certain teaching faculty and certain administrative staff of the State's nine colleges and universities, and the Mississippi Deferred Compensation Plan and Trust ("MDCPT") created in 1973 in accordance with Section 457 of the IRS Code. The System has no liability for losses under the ORP or the MDCPT but does have fiduciary responsibilities for both plans related to the administration and selection of investment vehicles.

Any political subdivision or judicial entity within the State may elect to have its employees covered by PERS or participate in the MDCPT. As of June 30, 2018, the System covered 877 public entities within the State.

The State neither contributes to MRS nor assumes any liability for benefits payable to members but does have the duty of due care required of an ordinary prudent investor. The plans under MRS were closed from 1975 through 1987 and the administration transferred to PERS in 1987.

On July 1, 1989, the Legislature established the SLRP for the purpose of providing supplemental retirement allowances and other benefits for elected members of the State Legislature and the President of the Senate and their beneficiaries. Each legislator and the President of the Senate must contribute 3% of all compensation or remuneration paid, except mileage allowance. The contribution rate by the State is 7.4%.

On July 1, 1990, ORP was established for employees of the State's nine colleges and universities who hold certain teaching or administrative faculty positions and who are appointed or employed after July 1, 1990. These participants have rejected membership in PERS. Title 25, Article 11 of the Mississippi Code states that the System will provide for administration of the ORP Program. ORP participants direct the investment of their funds. Benefits payable to plan participants are not obligations of the State. As such, ORP is not considered part of the System's reporting entity for financial reporting purposes.

36

Membership in PERS is a condition of employment and eligibility is granted upon hiring for all State agency and university employees not participating in ORP. For those employed by political subdivisions and instrumentalities of the State, membership is contingent upon the PERS Board of Trustees' approval of the entity's participation in the plan. If approved, membership is a condition of employment and eligibility is granted upon hiring.

Participating employees who retire at or after age 60 with four years of credited service if hired before July 1, 2007 or for those that were hired on July 1, 2007 or after, who retire at or after age 60 with eight years of credited service or those who retire regardless of age with at least 25 years of credited service if hired prior to July 1, 2011 or 30 years for those that were hired on July 1, 2011 or after are entitled to an annual retirement allowance, payable monthly for life. The retirement allowance is an amount equal to 2% of their average compensation for each year of credited service up to and including 25 years and 2.5 % for each year of credited service over 25 years, if hired prior to July 1, 2011. If hired on July 1, 2011 or after they are entitled to an annual retirement allowance, payable monthly for life, in an amount equal to 2% of their average compensation for each year of credited service up to and including 30 years and 2.5 % for each year of credited service over 30 years. There is an actuarial reduction for each year of creditable service below 30 or for each year of age below age 65, whichever is less for those hired on July 1, 2011 or after. "Average compensation" is the average of the employee's covered earnings during the four highest compensated years of credited service. A member may elect an option for a reduced allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits yest upon completion of four years of credited service for those hired prior to July 1, 2007 and vest with completion of eight years of credited service for those hired on or after July 1, 2007. PERS also provides certain death and disability benefits. Retirees and beneficiaries have the option of maintaining health and other coverage at their own expense. Benefit provisions are established by Section 25-11-1 et seq., Mississippi Code of 1972, as amended, and may be amended and supplemented from time to time only by the State Legislature.

The System incurs no expense for post-retirement health benefits. See Note 16 in the Excerpts from 2018 Audited Financial Statements of the State for a complete discussion of the State's other post-employment benefits.

Membership in MHSPRS is a condition of employment and eligibility is granted upon hiring for all officers of the Mississippi Highway Safety Patrol (the "Highway Patrol") who have completed a course of instruction in an authorized highway patrol training school on general law enforcement and who serve as sworn officers of the Highway Patrol. Participating employees in MHSPRS who withdraw from service at or after age 55 with at least five years of membership service or, after reaching age 45 with at least 20 years of credited service, or with 25 years of credited service at any age are entitled to an annual retirement allowance, payable monthly for life, in an amount equal to 2.5% of average compensation during the four highest consecutive years of earnings reduced 3% for each year below age 55 or 3% for each year under 25 years of service, whichever is less. MHSPRS also provides certain death and disability benefits. Retirees and beneficiaries have the option of maintaining health and other coverage at their own expense. Benefit provisions for MHSPRS are established by Section 25-13-1 *et seq.*, Mississippi Code of 1972, as amended, and may be amended and supplemented from time to time only by the State Legislature.

Employees covered by PERS are required to contribute 9.0% of their salaries, as of July 1, 2010. Employees of MHSPRS are required to contribute 7.25%, as of July 1, 2008. Members of SLRP are required to contribute an additional 3% of their compensation.

During a special session, the 2010 Mississippi Legislature passed House Bill 1 ("House Bill 1") which amended Sections 25-11-123, 25-11-109 and 25-11-115, Mississippi Code of 1972, and increased the percent of earned compensation as stated above from 7.25% to 9% (as a percentage of annual covered payroll) and members who retire on or after July 1, 2010 will receive credit for ½ day of leave for each full year of membership service accrued after June 30, 2010. Also, an option for members of PERS for payment of a member's retirement allowance provides that upon the retired member's death, ¾ of the member's reduced retirement allowance will be continued throughout the life of the employee's beneficiary.

Actuarial assumptions at June 30, 2018 were:

- (a) Rate of return on investment of 7.75%;
- (b) Projected Wage inflation rates 3.25%;

- (c) Projected salary increases of 3.25% to 18.50% per year for PERS, 3.25% to 8.81% for MHSPRS and 3.25% for SLRP attributable to seniority/merit;
- (d) Assumption that post-retirement benefits will increase 3.0% per year for PERS and SLRP; calculated 3% simple interest to age 55, compounded each year thereafter; and 3.0% for MHSPRS; calculated 3% simple interest to age 60, compounded each year thereafter;
- (e) Entry age for actuarial cost method; and
- (f) Five-year smoothed market asset valuation method.

Employer contribution rates for PERS, and SLRP are set by the PERS Board of Trustees in accordance with the adopted Funding Policy following the annual actuarial valuation and projection reports. The employer contribution rate for MHSPRS is set by the PERS Board after considering recommendations from the MHSPRS Advisory Board in accordance with the adopted Funding Policy following the annual actuarial valuation and projection reports. The PERS Board of Trustees revised the Funding Policy for PERS and SLRP in 2012 with the focus on contribution stability with an objective of producing a projected funded ratio of at least 80% in 2042. The PERS Board of Trustees once again revised the Funding Policy for PERS and SLRP in 2018 and implemented a "signal light" approach with three metrics, funded ratio, cash flow as a percent of assets, and actuarially determined contributions (ADC) ratio. Green – plan passes metric, yellow – plan passes metric but a warning is issued, and red – the plan fails metric. The cash flow projection is defined as the difference between total contributions less benefit payments, divided by the beginning of the year market value of assets. This calculation is provided for the entire projection period. The last metric reviews the plan to determine if the contributions meet or exceed the ADC. For the purposes of the ADC ratio only, the existing UAAL as of June 30, 2018, will be calculated using a 30-year closed amortization period and future actuarial experience will be calculated using a closed 25 years from the date of the valuation.

The MHSPRS Funding Policy provides that unfunded actuarial accrued liabilities are amortized as a level percent of active member payroll at a rate designed to produce a projected funded ratio of at least 80% in 2042. These benchmarks are reviewed annually, and should the projected funded ratio be less than 60% in 2042 or projected to be less than 75% in 2042 following two consecutive annual actuarial valuations (70% following three consecutive annual actuarial valuations for MHSPRS), a contribution rate increase will be determined that is sufficient to generate a funded ratio of 85% in 2042. The employer contribution rate so computed, expressed as a percent of active member payroll, is designed to accumulate sufficient assets to pay benefits when due.

For MRS, as closed plans, with declining active and retired memberships, the contribution is determined as a percentage of each municipality's assessed property valuation that generates an ultimate asset reserve level equal to a reasonable percentage (100 to 150 percent) of the next year's projected benefit payments, with the objective of developing a pattern of contribution rates that will develop the required funds needed to meet the objective of paying all benefits when due with little, if any, residual asset value.

House Bill 1 increased the PERS member contribution rate from 7.25% to 9.0% (as a percentage of annual covered payroll) effective July 1, 2010. Employer contribution rate increases scheduled to go into effect July 1, 2011, were delayed six months. At its October 2010 scheduled meeting, the Board approved rate increases from 12 to 12.93 % for PERS-covered employers, 6.65 to 7.40 % for the SLRP and 30.30 to 35.21 % for the MHSPRS. However, in response to a request from leaders in the Mississippi Legislature, the Board of Trustees took action at its February 2011 meeting and the MHSPRS Administrative Board voted in March 2011 to delay any employer contribution rate increase until January 1, 2012. Effective July 1, 2012, the PERS employer contribution rate increased from 14.26% and the MHSPRS from 35.21% to 37.0%. Effective July 1, 2013, the PERS employer contribution rate increased from 37.00% to 49.08%. Effective July 1, 2019, the employers of PERS are required to contribute 17.40%, an increase of 1.65% over the previous rate.

PERS began equity investments in August 1980. This chart demonstrates the volatility in the markets and the need to focus on the long term.

Investment Annualized Rates of Return

Source: Callan Investment Measurement Service Quarterly Review for June 30, 2018

*Calculated - Actual data not available

Excluding MRS, the defined benefit plans administered by the System, PERS, MHSPRS, and SLRP, were actuarially funded at 61.8%, 66.8%, and 80.4% respectively as of June 30, 2018.

At June 30, 2018, the plans' pension benefit liabilities were as follows (*in thousands).

	PERS*	MHSPRS*	SLRP
Total Actuarial Accrued Liability	\$44,396,161	\$527,428	\$22,319
Less: Actuarial Value of Assets	27,455,702	352,415	17,945
Unfunded Actuarial Accrued Liability	\$ <u>16,940,459</u>	$\underline{175,013}$	\$ <u>4,374</u>

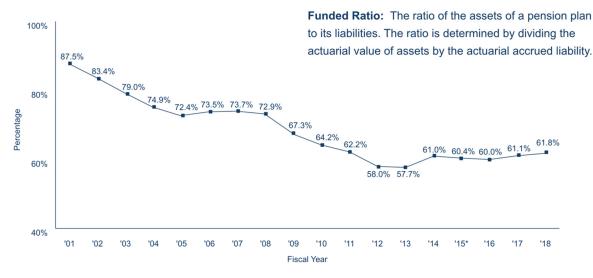

Funding policies for PERS, MHSPRS and SLRP provide for periodic employer contributions at actuarially determined rates that are adequate to accumulate sufficient assets to pay benefits when due. Actuarial valuations prepared as of June 30, 2018, the most recent valuation date, indicate that the unfunded accrued liability amortization periods of PERS, MHSPRS and SLRP are 30.9, 18.3 and 20.1 years, respectively, using an open amortization approach.

In June 2018, the Board of Trustees adopted a revised and more comprehensive funding policy that added additional metrics for decision-making. Under the revised funding policy, PERS seeks to maintain an increasing trend in the funded ratio over the projection period with an ultimate goal of being 100.0% funded. The actuarial value of assets includes smoothing actuarial gains and losses over five years. The System incorporated the requirements of GASB Statement 67, *Financial Reporting for Pension Plans* beginning in its fiscal year-end 2014 financial reports which no longer requires a 30-year amortization period for the unfunded accrued liability.

ORGANIZATION OF STATE GOVERNMENT

The State Constitution separates the legal powers of State government into three distinct branches, the legislative, the executive and the judicial.

Legislative Branch

Legislative power is vested in the Senate and the House of Representatives, which jointly comprise the Legislature of the State. The Senate is composed of 52 members, and the House of Representatives consists of 122 members. Each member of each chamber is elected to a four-year term.

The Legislature convenes annually on the first Tuesday after the first Monday in January. Regular sessions last 90 days in all years of an administration except for the first session after a new governor has been elected, when a 125-day session is held, which last occurred in January 2016. Any regular session may be extended by a concurrent resolution adopted by a 2/3 vote of the membership of both the House and the Senate. The Governor may convene the Legislature by a proclamation whenever, in the Governor's opinion, the public

44

45

safety or welfare requires it, or upon written application of 3/5 of the members of each legislative body. The Legislature has the authority to enact legislation to complement the constitutional duties and powers of the executive branch of government.

Executive Branch

The Governor is vested with the chief executive powers of the State. The Governor is elected to a fouryear term and may be elected for one additional four-year term. The Governor recommends to the Legislature, by message at the commencement of each session, the passage of such measures as the Governor deems appropriate; appoints, by and with the advice and consent of the Senate, certain officers of State government; may remit fines and penalties; grant reprieves, commute sentences, and grant pardons and paroles after convictions; and is Commander-in-Chief of the military forces of the State and, as such, may call out the National Guard to enforce laws, suppress insurrections and repel invasion.

Specific administrative functions are performed by the other statewide elected officials: the Lieutenant Governor, the Secretary of State, the Attorney General, the State Treasurer, the State Auditor, the State Insurance Commissioner and the State Commissioner of Agriculture and Commerce. For example, legal services are provided by the Attorney General; audit functions are performed under the direction of the State Auditor; and the Secretary of State maintains official records of the State, regulates the securities industry in the State and performs other statutory duties.

Other activities of State government are conducted through various boards and commissions created by the Legislature and accountable to either or both the legislative and executive branches. These include, among others:

(1) The Department of Transportation includes the State Highway Department, the Aeronautics and Rail Division, the weight inspection stations and portable scales from the Department of Revenue and the State Aid Engineer and the Division of State Aid Road Construction. The three elected members of the Mississippi Transportation Commission (one from each Supreme Court District of the State) select an executive director who serves as the administrative head of the Department of Transportation. The primary responsibilities of the department are the maintenance of highways and roads within the State and to promote the coordinated and efficient use of all available and future modes of transportation, to study means of encouraging travel and transportation of goods by the combination of motor vehicle and other modes of transportation. For operational purposes, the department is divided into six districts with maintenance and construction engineers in each district. However, certain functions, such as right-of-way acquisition, relocation assistance, bridge design, property control, research and development and testing are controlled at the departmental level. Other transportation related agencies are the Department of Public Safety and the Public Service Commission.

(2) Mississippi has a number of agencies that perform activities related to public health and welfare. Among those agencies are the State Department of Health, the Department of Human Services, the Department of Rehabilitation Services, the Division of Medicaid, Child Protective Services and the Parole Board. The Department of Health administers programs involving disease control, family health and environmental health. It also inspects sewer and water facilities, factories, food processing plants and conditions in State institutions. The Department of Human Services administers assistance payments to families of dependent children and makes determination of Medicaid eligibility. Additional services are provided through the Child Support, Food Assistance, Child Protective Services and Social Services Programs. The Office of Child Protective Services investigates reports of child abuse and administers the State's foster care system. The Division of Medicaid, within the Office of the Governor, administers the activities of all health-related programs under Title XIX of the Social Security Act.

(3) The construction, maintenance and repair of State buildings are administered by the Office of Building, Grounds and Real Property Management, within the Department of Finance and Administration. In order to fulfill its responsibilities, pursuant to authority granted by the Legislature, the Office of Building, Grounds and Real Property Management has the authority to acquire real and personal property by lease or purchase and to exercise the right of eminent domain. Short and long-range public plans are subject to the approval of the Public Procurement Review Board of the Department of Finance and Administration.

(4) Under the supervision of three-elected commissioners, one from each Supreme Court district of the State, the Public Service Commission supervises and regulates various activities of utilities and motor carriers operating within the State. It has the authority and responsibility of prescribing rates and charges that will allow

the utilities a fair and reasonable rate of return on investment under efficient operating conditions while protecting at all times the interest and welfare of the public. In the case of motor carriers, the Public Service Commission is charged with the responsibility of enforcing the provisions of the Motor Regulatory Act of 1938 on a fair and equitable basis by assuring that proper tags are purchased, that proper commodities are transported at proper rates, that franchise provisions are strictly adhered to and that each carrier has full and adequate insurance coverage.

Judicial Branch

The Judicial Branch of State government consists of a Supreme Court, a Court of Appeals, Chancery District Courts and Circuit District Courts. The Supreme Court is an appellate court with members elected from three districts for terms of eight years. The Court of Appeals is an intermediate appellate court comprised of ten appellate judges, two elected from each congressional district, to serve for a period of eight years. There are 20 Chancery District Courts and 22 Circuit District Courts in the State, subject to change by the Legislature, with judges elected from each district for terms of four years. County Court judges in certain counties, and Justice Court judges in every county, are elected for four-year terms.

Local Governments

County and municipal governments and other political subdivisions have no sovereign powers in the State. In the State's counties and municipalities, the major sources of revenues are shared revenues from sales taxes and property taxes assessed on all local real and personal property, subject to certain exemptions. State agencies, however, provide various important services to political subdivisions, including the following: the State Department of Health works in an advisory capacity with local health departments; the State Department of Education provides guidance and aid for county and municipal Superintendents of Education; the Department of Transportation provides funding and technical assistance for county and urban road and bridge construction; and the Mississippi Development Authority ("MDA") is authorized to provide many economic development services.

EDUCATION

Elementary/Secondary Education

Public Education in Mississippi has seen dramatic changes during the past 30 years, with the 1982 Education Reform Act serving to trigger much of that change. A statewide core curriculum has also been established, outlining objectives school districts are expected to include in their instruction. The State has been a leader in developing a performance-based accreditation model, with both schools and districts receiving an annual accreditation level. The State is home to the Mississippi School for Mathematics and Science, the fourth of its kind in the nation when it opened in 1988, which provides intensive training in math, science and technology to certain high school juniors and seniors. The Mississippi School of Fine Arts, which opened in the fall of 2003, offers certain high school juniors and seniors training in the various fine arts. During the 2017-2018 school year, public elementary schools (K-6) enrolled 265,908 students and public secondary schools enrolled 211,725 students. The enrollment for public elementary and secondary students was a combined total of 477,633 students. The State's public schools employed 31,252 full-time equivalent classroom teachers. State and local boards of education are responsible for governing public elementary and secondary education. At the State level, a ninemember State Board of Education administers these responsibilities. The State Superintendent of Education, appointed by the State Board of Education, serves as its secretary and chief operating officer.

Community Colleges

The State was the first state to establish a system of public two-year colleges and has 15 community colleges located on 34 campuses and centers in every area of the State. These two-year institutions offer university level courses of study as well as vocational and technical programs. There is a wide variety of specialized programs for industry start-up and industry training, which are offered Statewide. Total headcount enrollment (unduplicated) at the public community and junior colleges for 2017-2018 school year was 74,565. Public community colleges are governed by local boards of trustees, with State coordination by a ten-member State Board for Community and Junior Colleges.

Universities and Colleges

Eight institutions of higher learning are supported by the State (included in this number is the University of Mississippi Medical Center whose numbers are reflected within those for the University of Mississippi. These institutions offer courses and programs statewide. The 2017-2018 academic year enrollment in the State supported institutions of higher learning was approximately 81,378. The State's eight institutions of higher learning and a Commissioner of Higher Education.

THE ECONOMY

Location and Geography

The State is centrally located in the southern region of the United States of America. It is bounded on the east by Alabama, on the north by Tennessee, on the west by the Mississippi River, which separates it from Arkansas and Louisiana, and by Louisiana and the Gulf of Mexico on its southern boundary. The State encompasses 47,715 square miles and ranks 32nd in physical size among the states. Jackson, located in the central part of the State, is the capital and the largest city.

The State has a temperate to subtropical climate. The temperature ranges from a high mean temperature throughout the State of 84.5 degrees during July to a low mean temperature of 45.6 degrees in January. The State has an average rainfall of 53.9 inches. The topography of the State ranges from flat to hilly, with a maximum elevation of 806 feet in the northeastern corner of the State.

The State's Economy (as of August 2019)

According to the Bureau of Economic Analysis, (BEA) the Mississippi economy grew 1.0% in 2018, the strongest annual growth since 2008. Data for 2019 is mixed. Preliminary quarterly growth for the first quarter of 2019 shows real GDP rebounding relative to the slowdown in the fourth quarter 2018. Real personal income tax withholdings data however show a 1.4% decline for the first seven months of 2019.

In the first half of 2019, employment is up a respectable 1.0% over the same period of 2018. This is a significant improvement over the 0.3% growth experienced in CY 2018 and similar to the growth observed in calendar year 2015 (1.2%) and calendar year 2016 (1.1%). Through June, the state added an average of 11,767 jobs in 2019 over 2018. The largest contributor to job gains was in the leisure and hospitality sector with the bulk of these being food services sector jobs. The second largest contributor to job gains has been in the professional and business services with many of these being temp jobs. The third largest contributor to jobs in 2019 has been manufacturing jobs followed closely by transportation and warehousing. The gains in both sectors demonstrate the degree to which the national economy has bolstered growth within the state. Other sectors showing notable gains in 2019 include the health care and social assistance and federal and local government. Marked declines have occurred in construction, retail trade, and state government jobs. While the unemployment rate has increased moderately in 2019, it remains historically low. Initial unemployment claims rose in the first several months of the year, suggesting increased layoffs. Despite the gains, the level remains historically low and has in fact declined in recent months.

Real incomes grew 1.5% in 2018, slightly ahead of the 1.4% growth in 2016. For the first quarter of 2019, real incomes are up 1.7% over the year ago. The data are subject to revision and we have seen dramatic changes from the revisions of the past few years. The declining withholdings in the first half of 2019 suggests wage income is not growing as strongly as in 2018. We also anticipate farm income to be adversely affected by both the flooding and the current trade policy.

Transfers to the General Fund have been relatively strong. For fiscal year 2019 revenues were up 5.2% over the year ago, excluding Attorney General settlements. Much of the growth can be attributed to use tax which saw strong gains (26.8%) due to the introduction of sales tax on internet purchases. Corporate tax transfers which saw a 12.5% gain, were also a major contributor to growth. Transfers from retail sales tax and personal income tax were much more subdued at 2.7% and 3.9% respectively. These last two revenue sources more directly reflect economic conditions within the state and show growth only slightly above inflation.

47

Short-Term Outlook

The national economy expanded at an annual rate of 2.1% in the second quarter, according to the most recent release from the BEA. This release was accompanied with revisions to the annual data back to 2014. Average growth in the national economy 2018 is believed to have been 2.9%, duplicating the growth in 2015. Improved employee compensation, in conjunction with increased consumer spending, and the recently signed Bipartisan Budget Act of 2019 is expected to bolster growth in 2019. The just announced new tariffs on Chinese imports remains an issue of concern. The impact from these latest tariffs and the retaliation by China has not yet been factored into projections. Apart from these issues, growth is expected to reach 2.3% for 2019 and 2020.

The Mississippi economy is benefiting from the growth taking place nationally. Both job growth and income growth has improved. The flooding that has taken place in the Delta is expected to damped growth from what it would otherwise have been. Without the flooding, growth was expected to be around 1.2% for 2019, slightly ahead of the 1.0% observed in 2018. The flooding could shave as much as 0.3% off of this growth, leaving us just under the 1.0% mark. If realized, this growth would be better than the post-recession average growth experienced by the state. Growth for 2020 is expected to be nearer the 1.2 to 1.3 mark.

State Economic Structure

About 83% of the State's roughly 1.1 million wage and salary workers are in service-producing industries and the remaining 17% are employed in goods-producing industries. Almost 78.6% of total nonfarm employment is in the private sector while government employs the remaining 21.4%. Nationally, the government represents slightly more than 15.5% of the workforce. Mississippi also depends relatively more on the manufacturing sector than the U.S. with 12.4% of employment concentrated in manufacturing compared to the national average of slightly less than 8.5%. Because of the strong linkages to the rest of the economy, the manufacturing sector is a driver of significant economic activity in other sectors in the State as well.

Economic Development

MDA was created to improve the quality of life for Mississippians through the creation of productive employment opportunities and the enhancement of the State's tax base. To accomplish its mandate, MDA concentrates on recruiting new industries into the State, encouraging expansion of existing industries, expanding world markets for State products, seeking international business investment, assisting in the development of minority businesses, and providing training and retraining programs for the State's work force to meet the needs of today's business.

A variety of services are available to individuals and businesses to stimulate jobs and income growth in the State. MDA provides financial, management and technical assistance services. Some of these include tax incentives, loan programs and bond financing programs for industries, small businesses and agribusinesses.

Banking and Finance

There are 73 financial institutions in the State, consisting of 7 national chartered commercial banks, 4 federal chartered thrifts, and 62 state chartered commercial banks. The total number of branch offices is 1,142. Combined assets for these institutions as of March 31, 2019 totaled \$104,975,410,000.

There are 4 banks with assets exceeding \$10 billion. Three of these four banks are state chartered. Hancock Whitney Bank is the largest financial institution in the state and has assets of over \$28 billion.

There are 8 financial institutions with assets less than \$10 billion, but greater than \$1 billion. Total assets for the 12 largest institutions are \$88,733,699,000. This represents approximately 85% of banking assets in the State. Average asset growth over the past three years is 4%.

Manufacturing

The manufacturing sector is a leading employer in the State. Approximately 144,780 persons are employed in more than 1,887 manufacturing facilities. About one-fourth of these facilities have 100 or more employees and account for 80% of all manufacturing workers. The State has eighteen (18) manufacturing companies with 1,000 or more employees.

Every county in the State has a manufacturing facility. Hinds County has the largest number of manufacturing plants followed by Lee County, Rankin County, DeSoto County and Harrison County. The leading product groups in the State are apparel, electrical machinery and equipment, food products, furniture and fixtures, lumber and wood products and transportation equipment.

In November 2000, Nissan North America, Inc. ("Nissan") announced the location of a \$930 million automobile manufacturing facility in Madison County, Mississippi. In June 2002, while the original facility was still under construction, Nissan announced that it would expand the facility to 2.5 million square feet with an additional investment of \$500 million. When the plant began production, 2,040 people were employed and has grown to present employment of approximately 6,400. The 4.7 million-square-foot plant has a capacity to produce 450,000 vehicles per year.

In March 2007, Toyota Motor Engineering & Manufacturing North America, Inc. ("Toyota") announced its plans to locate a new manufacturing plant near the town of Blue Springs, Mississippi. Toyota directly employs approximately 2,000 and represents an \$800 million investment. Since the plant began production during November of 2011, Mississippians have been successfully producing Toyota's best-selling model, the Corolla, for the U.S. and international markets and is at full production today. In April 2018, Toyota announced the company was investing \$170 million and creating 400 new jobs to support production of the 12th generation Corolla using Toyota New Global Architecture.

Huntington Ingalls Industries is the State's largest manufacturing employer through its shipyards located in Pascagoula and Gulfport. With current employment above 11,000, Huntington Ingalls Industries has an annual payroll of approximately \$580 million. The company develops and produces technologically advanced warships for the United States Navy, Coast Guard, Marine Corps and for foreign and commercial customers. It has operated in the State since 1938.

PACCAR, a global leader in the design and manufacture of premium light-, medium- and heavy-duty trucks, constructed its newest engine manufacturing and assembly plant on a 394-acre site in Lowndes County.

Yokohama selected West Point, Mississippi as the location for its new tire manufacturing facility opening the \$300 million commercial truck tire facility October 5, 2015, just a little over 24 months after breaking ground on the site. The modern, one-million-square-foot facility located on more than 500 acres of land has hired more than 600 employees. The company plans to produce up to one million tires annually when running at full capacity.

Continental Tire the Americas, LLC, has begun construction of its commercial vehicle tire manufacturing plant in Hinds County, Mississippi and has committed to investing \$1.45 billion and creating 2,500 jobs and expects to begin production in 2020.

Tourism and Gaming

Since 1992, the total capital investment in the State by the gaming industry has exceeded \$4.5 billion. The gross gaming revenues for the 28 State-licensed casinos in fiscal year 2017 was \$2,090,634,797.88 and for the 28 State-licensed casinos in fiscal year 2018 was \$2,075,817,271. The State's gaming industry reported 19,538 State-licensed and casino hotel employees for the fourth quarter of fiscal year 2019. In addition, the Mississippi Band of Choctaw Indians employs an estimated 2,795 persons at its casino hotels.

According, to the Mississippi Department of Revenue, gross gaming revenues for fiscal year 2019 were \$1,276,655,617.12.

Agriculture and Forestry

Agriculture is one of the State's leading industries, employing approximately 29% of the State's workforce either directly or indirectly. Agriculture in the State is a \$7.6 billion industry. There are approximately 36,200 farms in the State covering 10.7 million acres. The average size farm is composed of 296 acres. Agriculture makes a significant contribution to all 82 counties. The primary agricultural products in Mississippi are poultry, forestry, soybeans, corn, rice, catfish, hay, cattle and calves, cotton, hogs, horticulture crops, milk, sweet potatoes, wheat and peanuts.

Forestry and forestry products contribute a total impact of \$12.79 billion to the State's economy. 19.8 million acres or about 65% of the total land in the State is devoted to forest production. Mississippi ranks number one in the nation in the number of certified tree farms with more than 3,200. The forestry sector, which includes pulp mills, paper mills, wood furniture, employs 25% of the State's manufacturing workforce.

Construction

The construction industry plays a powerful role in sustaining economic growth, in addition to producing structures that add to productivity and quality of life. In 2017, construction contributed \$4.2 billion (3.8%) of the State's GDP of \$109.4 billion, making construction's contribution to the State's GDP less than the industry's 4% share of United States GDP. Private non-residential construction spending in the State totaled \$677 million in 2017 while nonresidential starts in the State totaled \$2.3 billion in 2017 and \$2.6 billion in 2016, according to ConstructConnect. Construction employment in March 2019 totaled 42,800, a decrease of 2.3% from March 2018. Construction worker's pay in the State averaged \$48,800, 29% more than all private sector employees in the State.

During the period 2012 through 2017, building permits issued for residential construction averaged 6,817 annually, with an average annual valuation of \$1,056 billion. The following chart presents annual data for residential building activity for the past 10 years.

Calendar Year	Building Permits(In Thousands)	Privately-Owned Housing Units Valuation (In	Contract Construction Employment (In Thousands)
		Millions)	
2007	16.3	1,773.0	58.2

Transportation

The Mississippi Department of Transportation ("MDOT") is the lead agency to meet the transportation needs of the State. MDOT is committed to providing a transportation system - a network of highways, airports, public transit systems, ports, weight enforcement offices and rail systems - that will provide for the safe and efficient movement of people and goods. Much of the success of the transportation system can be attributed to the AHEAD program enacted in 1987, which promises to link every Mississippian to a four-lane highway within 30 miles or 30 minutes. In the spring of 2002, the Mississippi Legislature enacted Vision 21 - MDOT's Proposed Highway Program for the 21st Century. This pay-as-you-go highway program has been and will continue to upgrade existing roadways or build new highways where they are needed most, without burdening the public with new taxes.

The State's 81 public and private airports provide facilities for both commercial and private aircraft and play a vital part in the economic development of the small communities in the State. The mission of the MDOT Aeronautics Division is to assist airport owners in developing a safe and effective air transportation system in the State.

The State's public ports continue to play a vital role in the State's transportation system and the State's economy. Currently, there are 16 public ports in the State which include the State controlled Port of Gulfport in Harrison County and Yellow Creek State Inland Port in Tishomingo County. The remaining 14 ports are locally

owned and operated. These ports contribute \$1.4 billion to the State economy, representing almost 3% of the State's GDP and including some 34,000 direct and indirect jobs paying \$765 million in wages and salaries. On average, over 47.7 million tons of cargo moved through the public and private terminals within the State's ports annually.

Mississippi has 2,542 miles of mainline railroad providing service between major centers throughout the State. This mileage is comprised of five Class-I Railroads (large rail systems extending from the Gulf of Mexico into Canada) and 24 Class-III Railroads (short intrastate rail systems) utilizing the Mississippi Rail System.

During the First Extraordinary Session of 2018, the Mississippi Legislature passed three bills, which are estimated to provide \$220 million, or more annually for infrastructure projects throughout the State. The infrastructure funding will be generated by diverting a portion of State use tax collections to local roads and bridges, collecting revenue from wagers on sports betting, creating a State Lottery and appropriating the remaining BP Settlement funds. Additionally, the Mississippi Legislature authorized up to \$300 million of revenue bonds for infrastructure projects administered by MDOT (\$250 million) and the Mississippi Department of Finance and Administration (\$50 million).

Population

According to the 2010 Census, the population of the State was 2,967,297.

TOTAL RESIDENT POPULATION FOR MISSISSIPPI AND THE UNITED STATES (In Thousands)

Calendar Year	Mississippi Population	Percent Change	United States Population	Percent Change

Employment

The service producing industries are the leading employers within the State employing 969,800 people or 83% of total non-agricultural employment as of June 2019. Other large employment sectors are government, trade and transportation, and manufacturing with each employing 239,000, 233,600, and 147,500, respectively, as of June 2019. Within the goods producing industry, the durable goods segment of the industry employed 97,200 and the nondurable goods segment employ 50,300. The leading manufactures by product category are transportation equipment which includes ship building (45,000), food manufacturing (24,400) and furniture manufacturing (17,900). Although its importance has declined, agriculture continues to contribute significantly to the State's economy. The total employment in agriculture as of June 2019 was 28,100.

TEN LARGEST MISSISSIPPI MANUFACTURING EMPLOYERS⁽¹⁾

Manufacturer	Major Product	2018 Employment
Huntington Ingalls Industries	Ship Building	11,500
Nissan North America	Automobile Assembly	6,400

(1) On October 7, 2013, accounting for sales tax converted to new computing technology. As part of that conversion, the Mississippi Department of Revenue's system for collecting sales tax data by industry type changed. Prior to Fiscal Year 2014, the Mississippi Department of Revenue used the Standard Industrial Classification (SIC) System to classify and organize industries. However, with the implementation of new technology, Mississippi Department of Revenue began using the North American Industry Classification System (NAICS) when classifying industry types for sales tax collections. NAICS was developed in 1997 by the federal government and replaced the Standard Industrial Classification (SIC) System throughout the United States as the primary system for collecting statistical data. As a result of the conversion, the previous Fiscal Year data included in prior year sales tax reports are not comparable to earlier reports.

Source: Mississippi Department of Revenue, Fiscal Years 2014-2018.

RATINGS

Fitch Ratings ("Fitch"), Moody's Investors Service, Inc. ("Moody's") and S&P Global Ratings ("S&P"), have assigned ratings of "AA (stable outlook)," "Aa2 (stable outlook)," and "AA (stable outlook)," respectively, to the Series 2019 Bonds. An explanation of the significance of such ratings may be obtained from the agencies which assigned the ratings.

There is no assurance that present or future ratings will continue for any given period of time or that they will not be revised downward or withdrawn entirely by such rating agencies, if in the judgment of any or all of such rating agencies, circumstances so warrant. Any such downward revision or withdrawal of any or all of such ratings may have an adverse effect on the market price of the Series 2019 Bonds.

A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

58

CONTINUING DISCLOSURE

Securities and Exchange Commission ("SEC") Rule 15c2-12 (the "Rule"), which was originally adopted by the SEC in 1989 under the Securities Exchange Act of 1934, sets forth certain disclosure requirements relating to a primary offering of municipal securities. The Rule requires that, prior to purchasing or selling municipal securities, brokers, dealers and municipal securities dealers must reasonably determine that the issuer of such municipal securities, together with any other "obligated persons," within the meaning of the Rule, have entered into an undertaking for the benefit of bondholders to make certain information available to bondholders on a continuing basis. The State is an "obligated person" with respect to the Series 2019 Bonds within the meaning of the Rule.

The State will enter into written undertakings for the benefit of the bondholders for the Series 2019 Bonds to deliver, or cause to be delivered, to (a) the Municipal Securities Rulemaking Board (the "MSRB") through MSRB's Electronic Municipal Market Assess system at http://emma.msrb.org ("EMMA") in the electronic format then prescribed by the SEC pursuant to the Rule, and (b) any public or private repository or entity designated by the State as a State repository, if any, for the purposes of the Rule, the information described in the undertaking, including, but not limited to, annual financial reports and notices of certain material events, together with any identifying information or other information then required to accompany the applicable filing. This information will be made available free to securities brokers and others through EMMA. For the procedures for all filings and notices due to the MSRB, instructions will be provided on the following website for MSRB: <u>http://emma.msrb.org</u>.

For a summary of the State's undertakings, see "APPENDIX C - FORMS OF CONTINUING DISCLOSURE CERTIFICATES".

The State is current in all material respects with its previous continuing disclosure undertakings under the Rule. However, there have been some instances in the previous five years in which the State filed its annual undertakings late. Due to the change in the State's accounting system (see "FISCAL OPERATIONS OF THE STATE – Accounting Systems" herein), although the State's unaudited financial statements or partial unaudited financial statements were filed timely along with the annual reports, the State's CAFR for fiscal year 2014 was not filed on EMMA until February 24, 2015, the State's CAFR for fiscal year 2015 was not filed on EMMA until May 31, 2016, the State's CAFR for fiscal year 2016 was not filed on EMMA until May 5, 2017, and amended on May 15, 2017, the State's CAFR for fiscal year 2017 was not filed on EMMA until March 15, 2018, and the State's CAFR for fiscal year 2018 was not filed on EMMA until April 18, 2019. For fiscal year 2016, the State filed partial unaudited financial statements on February 1, 2017, for fiscal year 2017, the State filed partial unaudited financial statements on December 28, 2017, and for fiscal year 2018, the State filed partial unaudited financial statements on February 1, 2019. There have been instances when the State's unaudited financial statements did not contain an update of all of the information normally included therein due to its unavailability at the time of filing. When such information has become available, the State has subsequently amended its filings to update the information not available at the time of its original filing. Under one of its continuing disclosure agreements, the State is required to file its CAFR earlier than it is required to do so under its other continuing disclosure agreements, and the State has failed to meet this obligation on multiple occasions. Likewise, the State has in the past failed to timely file certain event notices such as ratings changes and refunding notices and has also on occasion failed to link its filings to all of its CUSIPs. The State has taken steps to ensure that it will timely comply with all undertakings in the future. Specifically, the State has approved a "State of Mississippi Debt Management Policy" which provides detailed procedures for the timely filing of continuing disclosure by the State. Also, the State has engaged HTS Continuing Disclosure Services, a Division of Hilltop Securities, Inc., Dallas, Texas, as dissemination agent to assist with compliance with the terms of its undertakings.

LITIGATION

The Attorney General's Office has reviewed the status of pending litigation involving the State. The State is party to various legal proceedings that arise in the normal course of governmental operations.

It is anticipated, regardless of the ultimate outcome of any litigation, that neither the courts nor the Mississippi Legislature will act inconsistently with the State's financial ability to pay all outstanding bonded indebtedness and the interest thereon. It is not anticipated that the ultimate outcome of any or all of the pending litigation will result in obligations exceeding the financial resources of the State, so that in all events it is reasonable to expect that the State will remain in a sufficiently viable financial position to meet all of these obligations, including, but not limited to, the Series 2019 Bonds provided the same are issued, sold and delivered. To predict with any degree of accuracy the ultimate outcome of any litigation would be conjectural.

UNDERWRITING

The Series 2019B Bonds are initially being purchased for reoffering by Raymond James & Associates, Inc., Duncan-Williams, Inc. and J.P. Morgan Securities LLC (collectively, the "Series 2019B Underwriters"). The Series 2019B Underwriters have agreed to purchase the Series 2019B Bonds at a purchase price of \$195,044,767.73, representing \$169,700,000.00 par amount less an underwriters' discount of \$285,308.17 and plus an original issue premium of \$25,630,075.90. The bond purchase agreement pursuant to which the Series 2019B Underwriters expect to purchase the Series 2019B Bonds provides that the Series 2019B Underwriters will purchase all the Series 2019B Bonds if any are purchased. The obligation of the Series 2019B Underwriters to accept delivery of the Series 2019B Bonds is subject to various conditions stated in such bond purchase agreement.

The Series 2019C Bonds are initially being purchased for reoffering by Wells Fargo Bank, National Association, FTN Financial Capital Markets and Stephens Inc. (collectively, the "Series 2019C Underwriters" and together with the Series 2019C Underwriters, the "Underwriters"). The Series 2019C Underwriters have agreed to purchase the Series 2019C Bonds at a purchase price of \$236,207,461.42, representing \$235,840,000.00 par amount less an underwriters' discount of \$389,233.48 and plus an original issue premium of \$756,694.90. The bond purchase agreement pursuant to which the Series 2019C Underwriters expect to purchase the Series 2019C Bonds if any are purchased. The obligation of the Series 2019C Underwriters to accept delivery of the Series 2019C Bonds is subject to various conditions stated in such bond purchase agreement.

The Underwriters may offer and sell the Series 2019 Bonds to other dealers and other purchasers at prices lower than the public offering prices stated on the insider cover page hereto. The initial public offering prices may be changed from time to time by the Underwriters.

The Underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. Certain of the Underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various investment banking services for the State for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the State.

The Underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

J.P. Morgan Securities LLC ("JPMS"), one of the Series 2019B Underwriters, has entered into negotiated dealer agreements (each, a "Dealer Agreement") with each of Charles Schwab & Co., Inc. ("CS&Co.") and LPL Financial LLC ("LPL") for the retail distribution of certain securities offerings at the original issue prices. Pursuant to each Dealer Agreement, each of CS&Co. and LPL may purchase Series 2019B Bonds from JPMS at the original issue price less a negotiated portion of the selling concession applicable to any Series 2019B Bonds that such firm sells.

Wells Fargo Securities is the trade name for certain securities-related capital markets and investment banking services of Wells Fargo & Company and its subsidiaries, including Wells Fargo Bank, National Association, which conducts its municipal securities sales, trading and underwriting operations through the Wells Fargo Bank, NA Municipal Products Group, a separately identifiable department of Wells Fargo Bank, National Association, registered with the Securities and Exchange Commission as a municipal securities dealer pursuant to Section 15B(a) of the Securities Exchange Act of 1934. Wells Fargo Bank, National Association, acting through its Municipal Products Group ("WFBNA"), the senior underwriter of the Series 2019C Bonds, has entered into an agreement (the "WFA Distribution Agreement") with its affiliate, Wells Fargo Clearing Services, LLC (which uses the trade name "Wells Fargo Advisors") ("WFA"), for the distribution of certain municipal securities offerings, including the Series 2019C Bonds. Pursuant to the WFA Distribution Agreement, WFBNA will share a portion of its underwriting or remarketing agent compensation, as applicable, with respect to the Series 2019C Bonds with WFA. WFBNA has also entered into an agreement (the "WFSLLC Distribution Agreement") with its affiliate Wells Fargo Securities, LLC ("WFSLLC"), for the distribution of municipal securities offerings, including the Series 2019C Bonds. Pursuant to the WFSLLC Distribution Agreement") with its affiliate Wells Fargo Securities, LLC ("WFSLLC"), for the distribution of municipal securities offerings, including the Series 2019C Bonds. Pursuant to the WFSLLC Distribution Agreement, wreat offerings, including the Series 2019C Bonds. Pursuant to the WFSLLC Distribution Agreement, wreat offerings, including the Series 2019C Bonds. Pursuant to the WFSLLC Distribution Agreement, wreat offerings, including the Series 2019C Bonds. Pursuant to the WFSLLC Distribution Agreement, wreat offerings, including the Series 2019C Bonds. Pursuant to the WFSLLC Distribution Agreement, wreat a portion of WFSLLC's expenses based on its municipal securities transactions. WFBNA, WFSLLC, and WFA are each wholly-owned subsidiaries of Wells Fargo & Company.

VALIDATION

Prior to issuance, the Series 2019 Bonds will be validated before the Chancery Court of the First Judicial District of Hinds County, Mississippi, as provided in Sections 31-13-1 *et seq.*, Mississippi Code of 1972, as amended.

APPROVAL OF LEGAL PROCEEDINGS

Certain legal matters incident to the authorization and issuance of the Series 2019 Bonds are subject to the approving legal opinions of Butler Snow LLP, Ridgeland, Mississippi, Bond Counsel, whose approving legal opinions will be available at the time of delivery of the Series 2019 Bonds (see APPENDIX E, herein). Certain legal matters with respect to the State will be passed upon by the State Attorney General, Jim Hood, Esq. (see APPENDIX D, herein). Certain legal matters will be passed upon for the Underwriters for the Series 2019 Bonds by their counsel Balch& Bingham LLP, Jackson, Mississippi.

FINANCIAL ADVISOR

The State has retained Hilltop Securities, Inc., Dallas, Texas, as independent municipal advisor (the "Financial Advisor") in connection with the sale and issuance of the Series 2019 Bonds. In such capacity the Financial Advisor has provided recommendations and other financial guidance to the State with respect to the preparation of documents, the preparation for the sale of the Series 2019 Bonds and of the time of the sale, tax-exempt and taxable bond market conditions and other factors related to the sale of the Series 2019 Bonds. Although the Financial Advisor performed an active role in the drafting of this Official Statement, it has not independently verified any of the information set forth herein.

TAX MATTERS

Series 2019B Bonds

In the opinion of Bond Counsel, under existing laws, regulations, rulings and judicial decisions, interest on the Series 2019B Bonds (including any original issue discount properly allocable to the owner of a Series 2019B Bond) is excludable from gross income for federal income tax purposes and is not a specific preference item for purposes of the federal alternative minimum tax. The opinion described above assumes the accuracy of certain representations and compliance by the State with covenants designed to satisfy the requirements of the Internal Revenue Code of 1986, as amended and supplemented (the "Code") that must be met subsequent to the issuance of the Series 2019B Bonds. Failure to comply with such requirements could cause interest on the Series 2019B Bonds to be included in gross income for federal income tax purposes retroactive to the date of issuance of the Series 2019B Bonds. The State has covenanted in the Series 2019B Resolution and certain certificates to comply with such requirements. Bond Counsel has expressed no opinion regarding other federal tax consequences arising with respect to the Series 2019B Bonds.

The accrual or receipt of interest on the Series 2019B Bonds may otherwise affect the federal income tax liability of the owners of the Series 2019B Bonds. The extent of these other tax consequences will depend on such owners' particular tax status and other items of income or deduction. Bond Counsel has expressed no opinion regarding any such consequences. Purchasers of the Series 2019B Bonds, particularly purchasers that are corporations (including S corporations and foreign corporations operating branches in the United States of America), property or casualty insurance companies, banks, thrifts or other financial institutions, certain recipients of social security or railroad retirement benefits, taxpayers entitled to claim the earned income credit, taxpayers entitled to claim the refundable credit in Section 36B of the Code for coverage under a qualified health

plan or taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, should consult their tax advisors as to the tax consequences of purchasing or owning the Series 2019B Bonds.

Bond Counsel is also of the opinion that, under existing statutes, interest on the Series 2019B Bonds is exempt from all income taxation in the State.

Series 2019B Premium Bonds

The Series 2019B Bonds that have an original yield below their respective interest rates, as shown on the inside cover of this Official Statement (collectively, the "Premium Bonds"), are being sold at a premium. An amount equal to the excess of the issue price of a Premium Bond over its stated redemption price at maturity constitutes premium on such Premium Bond. A purchaser of a Premium Bond must amortize any premium over such Premium Bond's term using constant yield principles, based on the purchaser's yield to maturity (or, in the case of Premium Bonds callable prior to their maturity, generally by amortizing the premium to the call date, based on the purchaser's yield to the call date and giving effect to any call premium). As premium is amortized, the amount of the amortization offsets a corresponding amount of interest for the period, and the purchaser's basis in such Premium Bond is reduced by a corresponding amount resulting in an increase in the gain (or decrease in the loss) to be recognized for federal income tax purposes upon a sale or disposition of such Premium Bond prior to its maturity. Even though the purchaser's basis may be reduced, no federal income tax deduction is allowed. Purchasers of the Premium Bonds should consult their tax advisors with respect to the determination and treatment of premium for federal income tax purposes and with respect to the state and local tax consequences of owning a Premium Bond.

Backup Withholding

As a result of the enactment of the Tax Increase Prevention and Reconciliation Act of 2005, interest on federally tax-exempt obligations such as the Series 2019B Bonds is subject to information reporting in a manner similar to interest paid on taxable obligations. Backup withholding may be imposed on payments to any owner of the Series 2019B Bonds that fail to provide certain required information including an accurate taxpayer identification number to any person required to collect such information pursuant to Section 6049 of the Code. The reporting requirement does not in and of itself affect or alter the excludability of interest on the Series 2019B Bonds from gross income for federal income tax purposes or any other federal tax consequence of purchasing, holding or selling federally tax-exempt obligations.

Changes in Federal and State Tax Law

From time to time, there are legislative proposals in the Congress and in the states that, if enacted, could alter or amend the federal and state tax matters referred to under this heading "TAX MATTERS" or adversely affect the market value of the Series 2019B Bonds. It cannot be predicted whether or in what form any such proposal might be enacted or whether if enacted it would apply to bonds issued prior to enactment. In addition, regulatory actions are from time to time announced or proposed and litigation is threatened or commenced which, if implemented or concluded in a particular manner, could adversely affect the market value of the Series 2019B Bonds. It cannot be predicted whether any such regulatory action will be implemented, how any particular litigation or judicial action will be resolved, or whether the Series 2019B Bonds or the market value thereof would be impacted thereby. Purchasers of the Series 2019B Bonds should consult their tax advisors regarding any pending or proposed legislation, regulatory initiatives or litigation. The opinions expressed by Bond Counsel are based on existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of issuance and delivery of the Series 2019B Bonds, and Bond Counsel has expressed no opinion as of any date subsequent thereto or with respect to any pending legislation, regulatory initiatives or litigation.

PROSPECTIVE PURCHASERS OF THE SERIES 2019B BONDS ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS PRIOR TO ANY PURCHASE OF THE SERIES 2019B BONDS AS TO THE IMPACT OF THE CODE UPON THEIR ACQUISITION, HOLDING OR DISPOSITION OF THE SERIES 2019B BONDS.

Series 2019C Bonds

INTEREST ON THE SERIES 2019C BONDS SHOULD BE TREATED AS INCLUDED IN GROSS INCOME OF THE HOLDERS THEREOF FOR FEDERAL INCOME TAX PURPOSES.

In the opinion of Bond Counsel, under existing laws, regulations, rulings and judicial decisions, interest on the Series 2019C Bonds is exempt from income taxation in the State.

MISCELLANEOUS

Any statements in this Official Statement involving matters of opinion or estimates, whether or not expressly so stated, are intended as such and not as representations of fact. No representation is made that any of the predictions and estimates will be realized.

The references, excerpts and summaries of all documents referred to herein do not purport to be complete statements of the provisions of such documents, and reference is directed to all such documents for full and complete statements of all matters of fact relating to the Series 2019 Bonds, the security for the payment of the Series 2019 Bonds and the rights and obligations of the registered owners thereof.

References herein to the Resolutions, the State's Constitution, the Act and all other legislative acts referred to herein are only summaries, excerpts or brief outlines of certain provisions thereof and do not purport to summarize or describe all provisions thereof. Additional information may be obtained upon request from the Office of the State Treasurer, 1101 Woolfolk Building, Suite A, 501 North West Street, Jackson, Mississippi, 39201, (601) 359-3600, Attention: Mr. Jesse Graham or from the Department of Finance and Administration, 1301 Woolfolk Building, Suite A, 501 North West Street, Jackson, Mississippi 39201, (601) 359-3160, Attention: Ms. Liz Bolin.

The execution of this Official Statement has been duly authorized by the Commission.

APPENDIX B

EXCERPTS FROM 2018 AUDITED FINANCIAL STATEMENTS

[THIS PAGE INTENTIONALLY LEFT BLANK]

STATE OF MISSISSIPPI OFFICE OF THE STATE AUDITOR SHAD WHITE AUDITOR

INDEPENDENT AUDITOR'S REPORT

The Governor, Members of the Legislature and Citizens of the State of Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of Mississippi (the State), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of:

- <u>Government-wide Financial Statements</u>
 - Governmental Activities
 - the Department of Environmental Quality Clean Water State Revolving Loan Fund, the Department of Health Local Governments and Rural Water Systems Improvements Revolving Loan Fund, the State Agencies Self-Insured Workers' Compensation Trust Fund, and selected funds at the Department of Marine Resources, the Department of Corrections, the Department of Employment Security, the Department of Environmental Quality, the Department of Information Technology Services, the Military Department, the Mississippi Development Authority, the Department of Public Safety, and the Mississippi Department of Education which, in the aggregate, represent 2% and 9%, respectively, of the assets and revenues of the governmental activities;
 - <u>Business-type Activities</u>
 - AbilityWorks, Inc. within the Department of Rehabilitation Services, the Port Authority at Gulfport, the Mississippi Prepaid Affordable College Tuition Program, the Veterans' Home Purchase Board, the Department of Finance and Administration State Life and Health Plan, and the Unemployment Compensation Fund which, in the aggregate, represent 98% and 99%, respectively, of the assets and revenues of the business-type activities;

74

- <u>Component Units</u>
 - the Universities and the nonmajor component units.
- Fund Financial Statements
 - Governmental Funds
 - the Department of Environmental Quality Clean Water State Revolving Loan Fund, the Department of Health Local Governments and Rural Water Systems Improvements Revolving Loan Fund, the State Agencies Self-Insured Workers' Compensation Trust Fund, and selected funds at the Department of Marine Resources, Department of Corrections, the Department of Employment Security, the Department of Environmental Quality, the Department of Information Technology Services, the Military Department, the Mississippi Development Authority, the Department of Public Safety, and the Mississippi Department of Education which, in the aggregate, represent 20% and 9%, respectively, of the assets and revenues of the General Fund;
 - Proprietary Funds
 - the Port Authority at Gulfport, the Mississippi Prepaid Affordable College Tuition Program, the Department of Finance and Administration State Life and Health Plan, and the Unemployment Compensation Fund which are considered major enterprise funds;
 - Aggregate Remaining Funds
 - Nonmajor enterprise funds for AbilityWorks, Inc. within the Department of Rehabilitation Services and the Veterans' Home Purchase Board;
 - the Pension Trust Funds;
 - the Private-Purpose Trust Funds of the Mississippi Affordable College Savings Program;

all of which represent 100% and 99%, respectively, of the assets and revenues of the aggregate remaining funds.

Those statements were audited by other auditors whose reports have been furnished to us; and our opinions, insofar as they relate to the amounts included for those agencies, funds, and component units, are based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we express no such opinion. The financial statements of the Mississippi State University Foundation, Inc., the University of Mississippi Foundation, the University of Southern Mississippi Foundation, the University of Mississippi Medical Center Educational Building Corporation, the University of Mississippi Medical Center Tort Claims Fund, the State Institutions of Higher Learning Self-Insured Workers' Compensation Fund and the State Institutions of Higher Learning standards generally accepted in the United States of America, but not in accordance with *Government Auditing Standards*. An audit also includes evaluating the appropriateness of accounting policies used

and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we and other auditors have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Mississippi, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 1 to the basic financial statements, in 2018, the State of Mississippi adopted new accounting guidance, Governmental Accounting Standards Board (GASB) standards Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans;* GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, as amended by GASB Statement No. 85, *Omnibus 2017.* Our opinions are not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedule and corresponding notes, the Schedules of Employer Contributions and corresponding notes, the Schedules of Changes in the Net Pension Liability, the Schedule of Proportionate Share of the Net Pension Liability, the Schedule of Changes in the Net OPEB Liability, the Schedule of Employer Contributions and corresponding notes, the Schedule of the Net OPEB Liability, the Schedule of the Proportionate Share of the Net OPEB Liability, and the Schedule of the Proportionate Share of Employer Contributions and corresponding notes listed in the accompanying table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Mississippi's basic financial statements. The introductory section, the supplementary information such as the combining and individual fund financial statements and supporting schedules and the statistical section as listed in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and supporting schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described previously, and the reports of the other auditors, the combining and individual fund financial statements and supporting schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 12, 2019, on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control over financial reporting and compliance.

Management's Discussion and Analysis

The following discussion and analysis of the State of Mississippi's financial performance provides an overview of the State's financial activities for the fiscal year ended June 30, 2018. Readers are encouraged to consider the information presented here in conjunction with the transmittal letter, which is located in the Introduction of this report, and the State's financial statements, which immediately follow this discussion and analysis.

Financial Highlights

Government-wide - The assets and deferred outflows of resources of the State exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$14,145,499,000 (reported as "net position"). Of this amount, a negative \$5,438,401,000 was reported as "unrestricted net position", which means that it would be necessary to convert a portion of the restricted component of net position to unrestricted if the government's ongoing obligations to citizens and creditors were immediately due and payable. The restricted component of net position amounted to \$3,901,227,000. Net position of governmental activities increased by \$330,190,000 while business-type activities increased by \$103,581,000.

Fund Level - At the end of the fiscal year, the State's governmental funds reported combined ending fund balances of \$3,864,638,000, which is \$9,665,000 less than the previous year. Revenues from taxes increased slightly from the prior year while other sources of revenues also increased. Expenditures declined slightly over the prior year.

Long-term Debt - The total outstanding net long-term bonds and notes were \$5,441,993,000 at June 30, 2018. During the year, the State issued \$389,988,000 in bonds and notes, including premiums. These bonds and notes were issued primarily for refunding and capital improvements.

Overview of the Financial Statements

This discussion and analysis serves as an introduction to the State's basic financial statements, which include government-wide financial statements, fund financial statements, and the notes to the financial statements. This report also contains required supplementary information and other supplementary information.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the State's finances. These statements consist of the statement of net position and the statement of activities, which are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The statement of net position presents all of the State's nonfiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in the State's net position may serve as a useful indicator of whether its financial position is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements for the primary government report two types of activities:

Governmental Activities - The State's basic services are reported here, including general government; education; health and social services; law, justice and public safety; recreation and resource development; regulation of business and professions; and transportation. Taxes and federal grants finance most of these activities.

Business-type Activities - The cost of providing goods or services to the general public, which is financed or recovered primarily through user charges, is reported here. State fair and coliseum operations; home mortgage loans to veterans; port facilities; and unemployment compensation services are examples of these activities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The State's funds are divided into three categories: governmental funds, proprietary funds, and fiduciary funds. These categories use different accounting approaches and should be interpreted differently.

Governmental Funds - The State's general activities are reported in governmental funds. Governmental funds are used to account for the same functions reported as governmental activities in the government-wide financial statements. However, governmental funds are accounted for using the modified accrual basis of accounting and the flow of current financial resources

measurement focus. This approach focuses on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at year end. The governmental fund statements provide a detailed view of the State's near-term financing requirements. Governmental funds are comprised of the General Fund, which is presented separately as a major fund, and nonmajor funds, which consist of permanent funds.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it may be useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may gain a better understanding of the long-term impact of the State's near-term financing decisions. Both the governmental fund balance sheet and statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Proprietary Funds - The State reports the enterprise fund type as proprietary funds. Enterprise funds charge fees for services to outside customers. They are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting, and are used to report the same functions presented as business-type activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Unemployment Compensation Fund, the Port Authority at Gulfport Fund, the Prepaid Affordable College Tuition Fund, and the State Life and Health Insurance Plan are presented separately as major funds, with the nonmajor enterprise funds combined into a single column. The eight nonmajor enterprise funds are presented in detail in the combining financial statements.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the state government. Because these resources are not available to support the State's own programs, fiduciary funds are not reported in the government-wide financial statements. The State's fiduciary activities are presented in a statement of fiduciary net position and a statement of changes in fiduciary net position, with related combining financial statements. These funds, which include pension and other employee benefits trust funds, private-purpose trust funds, and agency funds, are reported using the accrual basis of accounting.

Reconciliation of Government-wide and Fund Financial Statements

The financial statements include two schedules that reconcile the amounts reported on the governmental fund financial statements (modified accrual basis of accounting) with government-wide financial statements (accrual basis of accounting). The following summarizes the major differences between the two statements:

Capital assets used in governmental activities are not reported on governmental funds financial statements. Capital outlay spending results in capital assets on government-wide financial statements, but is reported as expenditures on the governmental funds financial statements.

Bond and note proceeds result in liabilities on the government-wide financial statements, but are recorded as other financing sources on the governmental funds financial statements. Certain other outflows represent either increases or decreases in liabilities on the government-wide financial statements, but are reported as expenditures on the governmental funds financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the component unit financial statements.

Other Information

This report also contains the following required supplementary information (RSI): the Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) - All Budgetary Funds, the Schedule of Employer Contributions for each pension plan, the Schedules of Changes in the Net Pension Liability for the single employer plans, the Schedule of Proportionate Share of the Net Pension Liability for the multiple employer plan, the Schedule of Proportionate Share of the Net Other Post-Employment Benefits (OPEB) Liability, the Schedule of the Proportionate Share of Employer Contributions OPEB, the Schedule of Changes in the Net OPEB Liability and Schedule of Employer Contributions OPEB, along with the accompanying notes. The combining financial statements are presented as supplementary information immediately following RSI.

Request for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the State of Mississippi's finances and to demonstrate the State's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact: Department of Finance and Administration, Office of Financial Reporting, P. O. Box 1060, Jackson, MS 39215.

Government-wide Financial Analysis

Net Position

The State's combined net position for governmental and business-type activities increased \$455,455,000 in fiscal year 2018. Current year net position is \$14,145,499,000 in contrast to the prior year balance of \$13,690,044,000. Business-type activities reported positive balances in all three components of net position, while governmental activities and the State as a whole continued to reflect a negative balance in the unrestricted component of net position.

Net position consisted primarily of investment in capital assets such as land, buildings, machinery and equipment, and infrastructure, less any outstanding debt used to acquire those assets. The State uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the State's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Net investment in capital assets increased \$411,112,000 from the previous year. The governmental activities' increase of \$325,394,000 was primarily due to additions to software, as well as, additions to infrastructure for roads, highways, and bridges. The business-type activities' increase of \$85,718,000 can be attributed to ongoing construction projects at the Port Authority at Gulfport.

Restricted net position represents resources that are subject to externally imposed restrictions. Restricted net position decreased by \$159,594,000, or 3.9 percent during fiscal year 2018.

The remaining net position is classified as unrestricted. As of June 30, 2018, the State had a deficit unrestricted net position of \$5,438,401,000. The deficit is due, in part, to the State issuing debt on behalf of component units and other entities for construction, repair and renovation of non-state capital assets. The positive unrestricted balance of \$407,471,000 in business-type activities may be used to meet ongoing obligations to citizens and creditors; however, internally imposed designations of certain resources further limit the purposes for which those resources may be used.

Net Position (amounts expressed in thousands)

*The 2017 amounts presented here have not been restated for the implementation of GASB Statement 75.

Changes in Net Position

Operating grants and contributions of \$7,151,253,000 and taxes of \$7,126,002,000 were the State's major revenue sources. Together, they accounted for 81.9 percent of total revenues. Revenue from taxes increased \$184,548,000 and operating grants and contributions increased by \$113,300,000 over the prior year. As in the prior year, the majority of the State's total expenses were related to the health and social services function at \$7,866,652,000 or 46.2 percent. Expenses within this function declined over the prior year by \$58,255,000. Unemployment compensation expenses were down by \$10,077,000, continuing a downward trend.

Governmental Activities

Governmental activities increased the State's net position by \$330,190,000 for fiscal year 2018. Taxes increased by \$184,548,000, in comparison to the prior year. The majority of both expenses and program revenues were in the health and social services function at \$7,866,652,000 and \$6,480,853,000, respectively. Education expenses of \$3,610,796,000 exceeded program revenues of \$748,320,000 resulting in a negative \$2,862,476,000 to be funded from general revenues.

Governmental Activities - Expenses and Program Revenues

(amounts expressed in thousands)

Business-type Activities

Business-type activities increased the State's net position by \$103,581,000. The percentage of revenues from charges for services continued to increase as federal revenue for the Emergency Unemployment Compensation program diminished. The amount of investment income decreased from the prior year, as did the investment income as a percentage of total revenues, due to market conditions. For the current year, the Umemployment Compensation Fund decreased in both revenues and expenses with a positive change in net position of \$24,764,000. Operations at the Port Authority at Gulfport added \$86,520,000 to net position in the current year.

Financial Analysis of the State's Individual Funds

As noted earlier, the State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

At June 30, 2018, the governmental funds reported combined fund balances of \$3,864,638,000, indicating a decrease of \$9,665,000 from the prior year. Within fund balances, \$104,998,000 or 2.7 percent was classified as nonspendable. The majority of the fund balance, \$3,084,864,000 or 79.8 percent was restricted. Committed fund balance equaled \$129,083,000 or 3.3 percent of the total. Assigned fund balance comprised \$14,309,000 or .4 percent while the remaining 13.7 percent, or \$531,384,000, of fund balance was unassigned.

The General Fund is the chief operating fund of the State. The fund balance for the General Fund decreased by \$9,834,000 from the prior year. The decrease, along with the restatement of beginning fund balance, result in an ending fund balance of \$3,801,086,000. Overall, taxes increased by \$196,872,000 or 2.8 percent. There was a \$25,672,000 increase in corporate income and franchise tax revenues. Sales and use tax revenues rose by \$66,911,000 compared to an increase of \$23,722,000 in the prior year. Gasoline and other motor fuel revenues decreased by 3.6 percent. Federal government revenues increased by \$192,888,000. Court assessments and settlements revenue was \$1,643,000 less than the prior year.

Health and social services expenditures decreased slightly during fiscal year 2018, falling by .5 percent over the prior fiscal year. Expenditures decreased because of a drop in beneficiaries and Department of Medicaid commitment to contain cost below the inflation rate. The Centers for Medicare and Medicaid Services estimated inflation at 4.5 percent.

Proprietary Funds

The Unemployment Compensation Fund experienced an increase in net position of \$24,764,000, largely due to a decrease in claims benefits of \$10,077,000. Claims and benefits expense decreased as the economy continued to gradually improve. Assessments' revenue decreased by \$3,778,000 or 4.4 percent due to legislation that allowed certain employers to pay a zero percent tax rate along with employer's experience tax rate falling as a result of fewer unemployment insurance (UI) benefit claims being filed. Additionally, federal revenue used to pay claims declined by \$496,000.

The Port Authority at Gulfport Fund increased net position by \$86,520,000 as compared to an \$54,834,000 increase reported in the prior year. Operating revenues and expenses increased slightly by \$4,592,000 and \$205,000 respectively. The increase in net position can be attributed to the increase in investment income.

The Prepaid Affordable College Tuition Fund's net position increased by \$16,826,000. Tuition receipts decreased by 5.2 percent over the prior year. The \$13,143,000 decrease in claims and benefits expense was directly related to changes in the actuarially determined experience of the program. Investment income decreased by \$14,912,000 due to market value of investments being lower than the prior year.

General Fund Budgetary Highlights

Actual fiscal year 2018 General Fund revenue collections increased by \$78,442,000 or 1.4 percent over the prior year. These revenues were \$91,974,000 above estimated amounts. Individual income tax increased by \$44,909,000 or 2.5 percent, sales tax collection increased by \$27,700,000 or 1.3 percent, and corporate income and franchise tax increased by \$8,316,000 or 1.5 percent.

The final expenditure budget was \$37,900,000 more than the original budget and actual expenditures were \$9,784,000 less than the final budget. Amounts budgeted but not expended during the year are reappropriated in the following year or retained in the General Fund and made available for the subsequent year budget allocations.

Capital Assets and Debt Administration

Capital Assets

The State's investment in capital assets for governmental and business-type activities as of June 30, 2018 were \$22,703,521,000, less accumulated depreciation of \$5,556,502,000, resulting in a net book value of \$17,147,019,000. For the current fiscal year, governmental activities and business-type activities increased by \$286,830,000 and \$73,602,000, respectively. These changes amount to 1.8 and 11.8 percent increases, respectively, over the prior year.

Major capital asset events during fiscal year 2018 included the following:

Construction in progress for governmental activities increased by \$841,629,000 and had the largest amount of decreases of any asset class with \$1,265,948,000. Mississippi Department of Transportation accounts for the majority of the increase with \$777,340,000. The Department of Finance and Administration added \$12,911,000 which included building projects for the Mississippi Civil Rights and History Museums and Mississippi State Fairground improvements. Decreases to construction in progress are primarily for completed Mississippi Department of Transportation projects moved to infrastructure.

Infrastructure had the largest increases of any asset class with \$1,135,059,000. Pavement rehabilitations took place in Desoto, District 5, Harrison, Hinds, Jackson, Lauderdale, Panola, Tate, Yalobusha, and Yazoo counties. The Surface Transportation Program (Urban street projects) was completed in Chickasaw, Jones, Lafayette, Noxubee, and Washington counties. Interstate projects were completed in Copiah and Pike counties, and Vision 21 highway projects were completed for Attala, Hancock, Harrison, Jackson, Lamar, and Lauderdale countes.

During fiscal year 2018, net capital assets for business-type activities increased by \$73,602,000. The Port Authority at Gulfport added \$85,921,000 to Construction in Progress, which includes the following current projects: Terminal 3 gate, West Pier site, and East Pier wharf expansion. Projects completed and moved to infrastructure and land improvements included the Gate Buildings, Marine Research Facility, Small Craft Harbor Landside Improvements, Port Landscaping Project, Barge Mooring Facility, and North Harbor Paving and Electrical Project. The completed projects were valued at \$57,261,000.

Additional information about the State's capital assets is presented in Note 8 to the financial statements. Note 17 addresses the State's outstanding long-term contracts related to the construction of state and county roads, highways, and bridges, as well as building projects for various state agencies.

Debt Administration

As of June 30, 2018, outstanding general obligation debt for the State was \$4,269,670,000, including premiums. General Obligation Refunding bonds of \$1,830,230,000, Capital Improvements bonds of \$1,008,187,000, and Industry Incentive Financing bonds of \$291,580,000 comprise 73.3 percent of this outstanding debt. During the current fiscal year, the State issued \$310,200,000 in general obligation bonds and notes which are reported in governmental activities. Within business-type activities, general obligation bonds decreased by \$177,000 as the Port Authority at Gulfport continued to repay its long-term debt.

The State issued \$63,301,000 of notes payable which are reported in governmental activities. Of the total notes payable issued, \$59,445,000 was for advance refunding.

Mississippi has a rating of AA from Standard and Poor's, AA from Fitch, and Aa2 from Moody's. These ratings are based upon the State's conservative fiscal management practices, manageable debt levels, favorable effects of various budgetary reforms and the potential for future economic diversification.

The State's constitutional debt limit is established at one and one-half times the sum of all revenues collected by the State during any one of the four preceding fiscal years, whichever may be higher. Current practice restricts revenues included in the computation of this debt limitation to the following: taxes; licenses, fees and permits; investment income; rental income; service charges including net income from the Alcoholic Beverage Control Division; and fines, forfeitures and penalties. As of June 30, 2018, the State's constitutional legal debt limit remained at \$13,312,194,000, which significantly exceeds the amount of debt applicable to the debt limit. Additional information about the State's long-term debt can be found in Notes 9 through 13 to the financial statements.

Economic Factors and Next Year's Budget

Mississippi's average unemployment rate for the calendar year 2017 was 5.1 percent, which is higher than the national average of 4.4 percent. In calendar year 2017, Mississippi's personal income and per capita personal income increased by 2.3 percent, compared to national average increases of 4.4 percent and 3.6 percent, respectively.

Fiscal year 2019 revenue collected by the Department of Revenue (DOR) continues to outperform revenue collected in fiscal year 2018. DOR collections from the beginning of fiscal year 2019 through January 31, 2019, were up by \$96,992,000 or 3.4 percent. Mississippi's two largest revenue generators are collected from sales and individual income taxes. To-date, sales taxes are outperforming projections by 2.5 percent and individual income taxes are one percent below projections. Sales and individual income taxes account for approximately 73 percent of Mississippi's revenue, which has the state optimistic that revenue collections will either meet or exceed expectations.

Governmental Funds		
Reconciliation of the Governmental Funds Balance Sheet		
to the Statement of Net Position		
June 30, 2018 (Expressed in Thousands)		
Total fund balances for governmental funds		\$ 3,864,638
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds:		
	\$ 2,418,859	
Construction in progress Software	4,353,902 171,924	
Buildings	2,195,184	
Land improvements	281,672	
Machinery and equipment	759,414	
Infrastructure	11,713,634	
Accumulated depreciation	(5,446,451)	16,448,138
Deferred outflows of resources reported in governmental activities are not		
financial resources and therefore are not reported in the governmental funds:		
Refunding of debt	125,238	
Pensions Other and the second	304,551	447.000
Other postemployment benefits	17,450	447,239
Deferred inflows of resources reported in governmental activities are not		
financial resources and therefore are not reported in the governmental funds		
Interest rate swaps	(8,545)	
Pensions Other postemployment benefits	(138,224) (23,063)	(169,832
	(23,003)	(103,032)
Some of the State's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and		
therefore are deferred in the funds as deferred inflows of resources.		713,869
Long-term liabilities and related accrued interest are not due and payable in the current period and therefore are not reported in the governmental funds:		
General obligation bonds and notes	(4,010,944)	
Limited obligation bonds	(191,400)	
Notes payable	(880,551)	
Unamortized premiums	(352,602)

97

Governmental Funds

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

For the Year Ended June 30, 2018 (Expressed in Thousands)

Net change in fund balances - total governmental funds		\$ (9,665)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay Depreciation expense	\$ 816,446 (528,592)	287,854
Various capital asset related transactions affect the statement of activities but have no impact on governmental funds. These transactions include disposition of capital assets by sale, trade, or scrap.		(3,521)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resource of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and the difference between the carrying value of refunded debt and the acquisition cost of refunded debt when debt is first issued. These amounts are deferred and amortized in the statement of activities.	es	
Premiums on bonds, notes and refunding bonds and notes and bonds issued Bonds and notes issued Refunding notes and bonds issued Capital leases issued Payments of debt principal Payments to bond escrow agent Accrued interest payable Interest at refunding	(16,487) (151,651) (221,850) (1,819) 323,203 263,616 24,323 (157)	219,178
Some items reported in the statement of activities do not provide or require the use of current financial resources and therefore are not reported as revenues/expenditures in governmental funds. These activities include:		
Donations of equipment Change in claims payable Change in compensated absences Change in deferred revenues Change in other postemployment benefit costs, net Change in pollution remediation obligation Change in fair value of investment derivative Change in fair value of borrowing derivative Change in pension costs, net Change in other liabilities Amortization of premiums Amortization of deferred amount on refunding	2,497 4,934 (1,869) (22,076) (602) (995) (2,396) 4,791 (142,843) (22,838) 35,441 (17,700)	(163,656)
Change in net position of governmental activities		\$ 330,190

The accompanying notes to the financial statements are an integral part of this statement.

The accompanying notes to the financial statements are an integral part of this statement.

Notes to the Financial Statements

June 30, 2018

Note 1 - Significant Accounting Policies

The significant accounting policies applicable to the State of Mississippi are described below.

- **A. Basis of Presentation** The accompanying financial statements of the State have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting principles.
- B. Financial Reporting Entity For GAAP financial reporting purposes, the State's reporting entity includes all funds of the State's various commissions, departments, boards, elected officials, universities, and other organizational units (hereinafter referred to collectively as "agencies"). Management has considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the State are such that exclusion would cause the State's financial statements to be misleading or incomplete.

GASB has set forth criteria to be considered in determining financial accountability. These criteria include the following considerations: 1) appointment of a voting majority of an organization's governing authority and the ability of the primary government to either impose its will on that organization or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, or 2) an organization is fiscally dependent on the primary government and there is a potential for the organization to provide specific financial benefits or impose specific financial burdens of whether the organization has a separately elected governing board.

As required by GAAP, these financial statements present the primary government and its component units. Blended component units, although legally separate entities, are in substance part of the government's operations and so data from these units are combined with that of the primary government. The blended component unit is:

Public Employees' Retirement System of Mississippi (PERS) - The System was created having all the powers and privileges of a public corporation for the purpose of providing pension benefits for public employees of the State and its political subdivisions. The Board of Trustees is composed of the State Treasurer, one member appointed by the Governor and eight members elected by its members. The administrative expenses are subject to legislative budget controls. Its four pension trust funds and one agency fund are reported as part of the State using the blended component method. The funds were audited by independent auditors for the period ended June 30, 2018, and their report has been issued under separate cover. The Comprehensive Annual Financial Report may be obtained by writing to Public Employees' Retirement System, Accounting Department, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling 1-800-444-PERS.

Discretely presented component units, which are legally separate from the State, are reported in a separate column of the government-wide financial statements. The State reports the following major discretely presented component unit:

Universities – The Board of Trustees of State Institutions of Higher Learning (IHL) is appointed by the primary government. IHL includes Alcorn State University, Delta State University, Jackson State University, Mississippi State University, Mississippi University for Women, Mississippi Valley State University, the University of Southern Mississippi, and the University of Mississippi. IHL is a body corporate and politic. The State provides financial support to IHL through state appropriations, tuition, federal grants, and private donations and grants. Also included in the Universities are the financial data of their significant fund-raising foundations. Because the restricted resources held by the foundations can only be used by, or for the benefit of, the specific universities, the foundations are considered component units of the Universities. The audited financial statements may be obtained from IHL at 3825 Ridgewood Road, Jackson, MS 39211.

The State reports the following nonmajor discretely presented component units:

Mississippi Business Finance Corporation – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and a financial benefit/burden relationship exists. The Corporation and the State work together, providing support, one to the other, in the State's economic development. The audited financial statements may be obtained from Mississippi Business Finance Corporation at 735 Riverside Drive, Suite 300, Jackson, MS 39202-1166.

Mississippi Development Bank – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and a financial benefit/burden relationship exists. The Bank and the State work together, providing support, one to the other, in the State's economic development. The audited financial statements may be obtained from Mississippi Development Bank at 735 Riverside Drive, Suite 300, Jackson, MS 39202-1166.

Mississippi Prison Industries Corporation – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and may impose its will on the corporation. A financial benefit/burden relationship exists. The Corporation leases and manages the prison industry programs of the Mississippi Correctional Industries. The audited financial statements may be obtained from Mississippi Prison Industries Corporation at 663 North State Street, Jackson, MS 39202.

Pat Harrison Waterway District – This is a legally separate entity created and established as a body corporate and politic. The State does not appoint the voting majority of the board. The District is fiscally dependent and a financial benefit/burden relationship exists. Expenditures are subject to legislative budget approval. The District provides flood relief along the Pascagoula River and its tributaries and preserves and protects these waters for future generations and for economic enhancement of the area and its industrial growth. The audited financial statements may be obtained from Pat Harrison Waterway District at P.O Drawer 1509, Hattiesburg, MS 39403-1509.

Pearl River Basin Development District – This is a legally separate entity created and established as a body corporate and politic. The State does not appoint the voting majority of the board but the District is fiscally dependent and a financial benefit/burden relationship exists. Expenditures are subject to legislative budget approval. The District handles the preservation, conservation, storage and regulation of the waters of the Pearl River and its tributaries and their overflow waters for domestic, commercial, municipal, industrial, agricultural and manufacturing purposes, for recreational uses, flood control, timber development, irrigation, navigation, and pollution abatement. The audited financial statements may be obtained from the Department of Finance and Administration at P.O. Box 267, Jackson, MS 39205.

Pearl River Valley Water Supply District – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and may impose its will. A financial benefit/burden relationship exists. Expenditures are subject to legislative budget approval. The District operates and maintains the Ross Barnett Reservoir and surrounding district lands to provide water supply, flood reduction and recreational opportunities. The audited financial statements may be obtained from Pearl River Valley Water Supply District at P.O. Box 2180, Ridgeland, MS 39158-2180.

Tombigbee River Valley Water Management District – This is a legally separate entity created and established as a body corporate and politic. The State appoints the voting majority of the board and may impose its will. A financial benefit/burden relationship exists. Expenditures are subject to legislative budget approval. The District provides for a plan of conservation, recreation, water control and utilization, agricultural development and economic advancement within the district. The audited financial statements may be obtained from Tombigbee River Valley Water Management District at P.O. Box 616, Tupelo, MS 38802-0616.

State officials are also responsible for appointing the members of the boards of other related organizations, but the primary government's financial accountability for these related organizations does not extend beyond making the appointments. These related organizations are Mississippi Hospital Equipment and Facilities Authority, Mississippi Home Corporation and Mississippi Industries for the Blind.

C. Government-wide and Fund Financial Statements

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all nonfiduciary activities of the primary government and its component units. The primary government is further subdivided between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position presents all of the State's nonfiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. GAAP requires that net position be subdivided into three categories:

Net investment in capital assets - capital assets net of accumulated depreciation and related deferred outflows of resources reduced by outstanding balances for bonds, notes and other debt net of unspent debt proceeds and related deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position - assets and deferred outflows of resources less any related liabilities and deferred inflows of resources that are restricted externally by creditors, grantors, contributors, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position - assets that are not classified as net investment in capital assets or restricted net position.

The Statement of Activities demonstrates the degree to which direct expenses of a given function are offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, thus, are clearly identifiable to a particular function. Certain indirect costs have been included as part of the program expenses reported for the various functions and activities. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. General revenues include taxes and any sources of revenue that are not reported as program revenues.

Fund Financial Statements - Separate financial statements are provided for governmental funds, proprietary funds, fiduciary funds, and component units. Major individual enterprise funds are reported as separate columns in the fund financial statements.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation – The government-wide financial statements and the financial statements of the proprietary funds and fiduciary funds (excluding agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds have no measurement focus, but use the accrual basis of accounting.

The revenues and expenses of proprietary funds are classified as operating or nonoperating. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's primary operations. All other revenues and expenses are reported as nonoperating.

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. Assets, deferred outflows of resources, liabilities and deferred inflows of resources are included on the balance sheet as applicable. Revenues are recognized when measurable and available to finance operations of the current fiscal year. Available means collectible within the current year or soon enough after fiscal year end to liquidate liabilities existing at the end of the fiscal year. The State considers revenues received within 60 days after fiscal year end as available. Significant revenue sources that are susceptible to accrual include sales taxes, individual income taxes, corporate income taxes and federal grants. Licenses, fees, permits and other miscellaneous revenues are recognized when received since they normally are measurable only at that time. Expenditures are recognized upon receipt of goods and services.

The State reports the following major governmental fund:

The General Fund accounts for all activities of the State not specifically required to be accounted for in other Funds. Transactions are related to general government, education, health and social services, law, justice and public safety, recreation and resource development, regulation of business and professions, transportation, capital projects, and debt service.

The State reports the following major enterprise funds:

The Unemployment Compensation Fund accounts for the collection of unemployment insurance assessments from employers and the payment of unemployment benefits to eligible claimants. Funds are also provided by the federal government and investment income.

The Port Authority at Gulfport Fund accounts for operations of a public port providing facilities for foreign and domestic trade. Funding is provided by gross receipts from port operations, proceeds from bond issues and investment income. Expenses include port operation, construction and the payment of maturing bond interest and principal.

The Prepaid Affordable College Tuition Fund accounts for operations of a prepaid college tuition program. Funding is provided by the purchasers' specified actuarially determined payments and investment income.

The State Life and Health Insurance Plan Fund accounts for resources and transactions pertaining to the State's self-insured medical plan and life insurance program as mandated by state law to be offered to state and public education employees. Funding is provided by premiums collected from active and retired employees, local school districts, and the State's operating fund.

Additionally, the State reports the following nonmajor funds:

Governmental funds:

Permanent Funds account for transactions related to resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that benefit the government or its citizenry.

Proprietary Funds:

Enterprise Funds account for operations where the intent of the State is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where periodic measurement of the results of operations is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Fiduciary Funds:

Pension Trust and Other Employee Benefit Trust Funds account for transactions, assets, liabilities and net position held in trust for plan benefits of the State's Public Employee Retirement System and the State Life and Health Insurance Plan.

Private-purpose Trust Fund accounts for operations of a college savings program under Section 529 of the Internal Revenue Code. Funding is provided by participants' contributions and investment earnings.

Agency Funds account for funds distributed to the various counties and municipalities of the State; for receipt of various taxes, refundable deposits, inventories, and other monies collected or recovered to be held until the State has the right or obligation to distribute them to state funds or to various entities or individuals; and for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

E. Equity in Internal Investment Pool and Cash and Cash Equivalents - Equity in internal investment pool is cash equity with the Treasurer and consists of pooled demand deposits and investments recorded at fair value. Cash and cash equivalents include bank accounts, petty cash, money market demand accounts, money market mutual funds and certificates of deposit with a maturity date within 90 days of the date acquired by the State.

In accordance with IHL policy, all highly liquid investments with an original maturity date of three months or less are included as cash and cash equivalents for the Universities, a major component unit.

F. Fair Value Measurements – Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GASB establishes a fair value reporting hierarchy to maximize the use of observable inputs when measuring fair value and defines the three levels of inputs as noted below:

Level 1 – Assets or liabilities for which the identical item is traded on an active exchange, such as publicly-traded instruments or futures contracts.

Level 2 – Assets and liabilities valued based on observable market data for similar instruments. Fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for assets and liabilities, either directly or indirectly.

Level 3 – Assets or liabilities for which significant valuation assumptions are not readily observable in the market and instruments, which are valued based on the best available data. Fair value is estimated using unobservable inputs that are significant to the fair value of the assets or liabilities. Level 3 assets may include instruments for which the determination of fair value requires significant management judgment or estimation.

G. Investments - Investments, including any land or other real estate held as investments by endowments, are recorded at fair value with all investment income, including changes in the fair value of investments, reported as revenue in the financial statements. Income from short-term interest bearing securities is recognized as earned. Changes in the fair value of investment derivative instruments, including derivative instruments that are determined to be ineffective as hedges, are reported as investment income in the government-wide Statement of Activities.

Investments of the pension trust funds are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Corporate bonds are valued based on yields currently available on comparable securities from issuers of similar credit ratings. Mortgage securities are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar instruments. Short-term investments are reported at fair value when published prices are available, or at cost plus accrued interest, which approximates fair value. The fair value of commingled real estate investment funds is based on independent appraisals, while Real Estate Investment Trusts (REIT) traded on a national or international exchange are valued at the last reported sales price at current exchange rates. For individual investments where no readily ascertainable fair value exists, the Public Employees' Retirement System, in consultation with its investment advisors and custodial bank, has determined the fair values.

- H. Receivables Receivables represent amounts due to the State for revenues earned that will be collected sometime in the future. Amounts expected to be collected in the next fiscal year are classified as "current" and amounts expected to be collected beyond the next fiscal year are classified as "noncurrent." Receivables are reported net of allowances for uncollectible accounts where applicable.
- I. Interfund Activity Interfund activity consists primarily of transfers between funds. Transfers represent flows of assets between funds of the primary government without the equivalent flows of assets in return and without a requirement for payment. Eliminations have been made to minimize the internal activity. Transfers between governmental and business-type activities are reported at the net amount on the government-wide financial statements.
- J. Interfund Balances Interfund receivables and payables have been eliminated from the government-wide Statement of Net Position, except for the residual amounts due between governmental and business-type activities. Fiduciary funds' receivables and payables have been reclassed to accounts receivable and accounts payable, respectively, on the government-wide Statement of Net Position.
- K. Inventories and Prepaid Items Inventories of supplies and materials are stated at cost, generally using the first-in, first-out method. Cost of inventories held for use by the Department of Transportation is determined by the weighted average method. Inventories of supplies and materials of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

- L. Restricted Assets Proprietary fund and component unit assets required to be held and/or used as specified in bond indentures, bond resolutions, trustee agreements, board resolutions and donor specifications have been reported as restricted assets.
- M. Capital Assets Capital assets are reported, net of depreciation, in the applicable governmental or business-type activities columns in the government-wide financial statements. Purchased or constructed capital assets are reported at cost. Donated capital assets are recorded at their acquisition value on the date of donation. Classes of capital assets and their related capitalization thresholds are: land cost or acquisition value on the date of donation, software \$1,000,000, buildings \$50,000, land improvements \$25,000, machinery and equipment \$5,000, infrastructure \$100,000, and construction in progress based on the project's class. Infrastructure acquired prior to July 1, 1980 is not reported in the basic financial statements. The costs of normal maintenance and repairs that do not add to the value of capital assets or materially extend their respective lives are not capitalized. Interest expenditures are not capitalized on capital assets.

Capital assets, excluding land and construction in progress, are depreciated using the straight-line method over the estimated service lives of the respective assets. Estimated service lives include 5 to 20 years for software, 40 years for buildings, 20 years for land improvements, 5 to 15 years for machinery and equipment, 3 years for computer equipment, 5 to 15 years for heavy and outdoor equipment, and 3 to 10 years for vehicles. The estimated service life varies from 12 to 50 years for infrastructure, based on the individual asset.

The State owns various collections, works of art and historical treasures that have not been capitalized because they are held for public exhibition, education or research, and are protected and preserved. The proceeds from sales of such items are used to acquire other items for the collections. These collections include paintings, photographs, various objects of art, historical and scientific artifacts, antique furniture, clothing, books, and relics.

N. Claims and Benefits Payable - In the government-wide and proprietary fund financial statements, a liability for an insurance claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable.

In the Prepaid Affordable College Tuition Fund (a major proprietary fund), claims and benefits payable represents the actuarially determined present value of future tuition obligations. In the Unemployment Compensation Fund (a major proprietary fund), claims and benefits payable represents amounts incurred prior to the reporting date.

O. Accumulated Unpaid Leave - State law authorizes payment for a maximum of 30 days accrued personal leave in a lump sum upon termination of employment. Additionally, in accordance with the Fair Labor Standards Act, nonexempt employees may accrue up to 240 hours of compensatory leave (480 hours for emergency response personnel). No payment is authorized for accrued major medical leave unless employees present medical evidence that their physical condition is such that they can no longer work in a capacity of state government.

The State's obligation for accumulated unpaid personal leave, up to the maximum of 30 days per employee, is reported as "Other Liabilities" in the government-wide financial statements, as well as proprietary and fiduciary fund financial statements. In the governmental funds, only the amounts that normally would be liquidated with expendable available financial resources are accrued as current year expenditures. The reported liability applicable to all funds includes the related fringe benefits that the State as employer is required to pay when the accrued compensated absences are liquidated.

118

Accumulated unpaid major medical leave is not accrued, except in the Universities, because it is not probable that the compensation will be paid in a lump sum other than in the event of severe illness. However, state law authorizes the Universities to make payment for a maximum of 30 days in a lump sum upon termination of employment for nine-month faculty members eligible to receive retirement benefits.

- P. Unearned Revenues and Deferred Inflows of Resources Unearned revenues are recognized when assets are received prior to being earned in an exchange transaction. Deferred revenues are reported in the governmental fund financial statements as deferred inflows of resources until such time as the revenues become available.
- Q. Pensions Net pension liability, deferred outflows of resources related to pensions, deferred inflows of resources related to pensions, and pension expense have been measured using the same basis as the PERS fiduciary net positon. For the purpose of determining the PERS fiduciary net position, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension system reports investments at fair value.
- R. Postemployment Benefits Other Than Pensions (OPEB) The OPEB liability is the actuarial present value of projected healthcare benefit payments to be provided to employees in the period after employment. The net OPEB liability, deferred outflows of resources, deferred inflows of resources related to OPEB and OPEB expense have been measured using the same basis as the State Life and Health Insurance Plan's fiduciary net position. For the purpose of determining the OPEB fiduciary net position, benefit payments are recognized when due and payable in accordance with benefit terms. The OPEB Plan reports investments at fair value.
- S. Net Position/Fund Balance Net Position is the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources on government-wide, proprietary and fiduciary funds financial statements and Fund Balance on governmental funds financial statements. Fund Balances of governmental funds are classified as:

Nonspendable - amounts that cannot be spent because they are not in a spendable form (not expected to be converted to cash) or are legally required to be maintained intact. Examples include inventories and permanent fund principal.

Restricted - amounts where legally enforceable constraints are imposed by an external party such as a grantor, or by the constitution, or by the State Legislature at the same time the revenue is created.

Committed - amounts where constraints are imposed by bills which become law after passage by the State Legislature, the highest decision-making authority in the State. These constraints are imposed separately from the creation of the revenue. The revenue cannot be used for any other purpose unless the State Legislature removes or changes the specified use by taking the same formal action that originally imposed the constraint.

Assigned - amounts where constraints are imposed on the use of resources through the intent of the State Legislature or by its delegation to each agency director.

Unassigned - the residual amount of the General Fund, which is the only fund that reports a positive unassigned fund balance.

When an expenditure is incurred for purposes in which all classifications of spendable fund balance are available, it is the State's general policy to use the fund balances in the following order: restricted, committed, assigned, and unassigned.

- T. Federal Grants Federal grants and assistance awards made on the basis of entitlement periods are recorded as receivables and revenues when entitlement occurs. Federal reimbursement type grants are recorded as revenues when the related expenditures are recognized. Use of grant resources is conditioned upon compliance with terms of the grant agreements and applicable federal regulations, which include subjecting grants to financial and compliance audits.
- U. Bonds and Notes Bond and note proceeds, premiums and discounts are reported as other financing sources or uses in the governmental fund financial statements. In the government-wide and proprietary fund financial statements, bond and note premiums and discounts, as well as refunding charges (the difference between the carrying amount of redeemed/defeased debt and its reacquisition price), are deferred and amortized over the life of the bonds and notes using the straight-line method. Bonds and notes payable are reported net of the applicable unamortized bond and note premium and discount while refunding charges are reported as deferred outflows or deferred inflows of resources. Issuance costs are recognized as debt service expenditures/expenses in the period incurred.
- V. Changes in Accounting Standards The State implemented the following standards issued by GASB in the current fiscal year as required: GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions; GASB Statement No. 81, Irrevocable Split-Interest Agreements; GASB Statement No. 85, Omnibus 2017; and GASB Statement No 86, Certain Debt Extinguishment Issues. The provisions of these standards have been incorporated into the financial statements and the notes. GASB Statement No. 74, Financial Reporting for Postemployment Benefits Plans other than Pension Plans, was implemented during fiscal year 2018 with the creation of a trust for OPEB benefits. The implementation of GASB Statements No. 85 and No. 86 did not have a material impact on the financial statements and notes.

Note 2 - Other Accounting Disclosures

- A. Net Position Restricted by Enabling Legislation The State's net position restricted by enabling legislation represent resources which a party external to government, such as citizens, public interest groups, or the judiciary, can compel the government to use only for the purpose specified by the legislation. The government-wide statement of net position reports \$3,901,227,000 of restricted net position, of which \$170,179,000 is restricted by enabling legislation.
- **B.** Deficit Net Position At June 30, 2018, the State Treasurer Prepaid Affordable College Tuition Fund (a major proprietary fund) has a deficit net position of \$112,577,000. The deficit is a result of actual investment earnings being less than actuarial assumptions.
- C. Working Cash Stabilization Reserve Account The Budget Reform Act of 1992 created the Working Cash Stabilization Reserve Account (Account) and required that 100% of the unencumbered General Fund cash balance be deposited into the Account at the close of each fiscal year until the balance reaches \$40,000,000. Thereafter, 50% of the unencumbered General Fund ending cash balance must be deposited into the Account until it reaches 10% of General Fund appropriations for the current fiscal year. As required by law, the Account is not considered as a surplus or available funds when adopting a balanced budget. The Account balance in excess of \$40,000,000 may be permanently transferred to the General Fund to cover deficits up to a maximum of \$50,000,000 in any one fiscal year. These transfers are restored to the Account out of future annual General Fund ending cash balances until the 10% maximum is again attained. At June 30, 2018, the Account, as reported in the General Fund, has an unassigned fund balance of \$290,095,000.
- **D.** Fund Balances At June 30, 2018, the State's restricted, committed and assigned fund balances are summarized by purpose as follows (amounts expressed in thousands):

		Restricted		Committed	Assigned
Governmental Funds					
General General Government

E. Restatements of Fund Balance and Net Position – During fiscal year 2018, a prior period adjustment was made for a loan to promote economic development. The restatement of fund balance is as follows (amounts expressed in thousands):

Fund Balance	une 30, 2017 s previously reported	ior Period djustment	une 30, 2017 as restated
Governmental Funds: General Fund	\$ 3,783,706 \$	\$ 27,214 \$	\$ 3,810,920

During fiscal year 2018, the State implemented GASB Statements No. 74 – Financial Reporting for Postemployment Benefit Plans Other Than Pensions and No. 75 – Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. These Statements establish standards of accounting and financial reporting for defined benefit OPEB Plans and defined contribution OPEB Plans that are provided to the employees of state and local governments through OPEB plans that are administered through trusts or equivalent arrangements. A prior period adjustment was also made for the loan receivable as reported in the General Fund.

The restatement of net position is summarized as follows (amounts expressed in thousands):

Net Position		June 30, 2017 as previously reported	Implementation of GASB Statements No. 74 and 75	Loan Receivable	June 30, 2017 as restated
Governmental Activities					
Net Investment in capital assets	\$	14,666,438 \$	\$	\$	14,666,438
Restricted		3,374,220		27,214	3,401,434

Total	\$ 1,860	\$	295	\$	35,054 \$	104	\$	5 13,422 \$	50,735			

At June 30, 2018, interfund receivables and interfund payables consisted of (amounts expressed in thousands):

Interfund receivables and payables are the results of 1) timing differences between the date expenses/expenditures occur and the date payments are made and 2) the accrual of tax distributions for taxes collected in the following fiscal year.

At June 30, 2018, amounts due from/to primary government and component units consisted of (amounts expressed in thousands):

	 Due To										
	 Primary	/ Go	overnment		Compor	t Units					
Due From	 General	Universities			Nonmajor		Total				
Primary Government:											
General	\$	\$		\$	11,174	\$	26 \$	\$	11,200		
Component Units:											
Universities	2,603		146						2,749		
Nonmajor	 92								92		
Total	\$ 2,695	\$	146	\$	11,174	\$	26 \$	5	14,041		

Amounts due to and due from the primary government and component units are the results of timing differences between the date expenses/expenditures occur and the date payments are made.

At June 30, 2018, interfund transfers consisted of (amounts expressed in thousands):

	Transfer To											
Transfer From	 General		Pension and other Employee Benefits	Port Authority at Gulfport	Nonmajor Enterprise	Total						
Governmental: General Permanent Proprietary: State Life and Health	\$ 1,017	\$		90,499	\$	6,676	\$	97,175 1,017				
Insurance Plan	 2,100		1,000					3,100				
Total	\$ 3,117	\$	1,000	90,499	\$	6,676	\$	101,292				

Interfund transfers are primarily used to 1) move revenues from funds required to collect them to funds required to expend them, 2) use revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and 3) transfer capital facility construction and debt service expenditures to the funds making the payments.

Note 4 - Deposits and Investments

The State Treasurer maintains a cash and short-term investment pool for all state treasury funds and for investments of certain other state agencies. In addition, the Public Employees' Retirement System (the System), and a small number of other agencies carry out investment activities separate from the State Treasurer. A discussion of statutory authority for these investments follows.

The State Treasurer is authorized to invest all excess treasury funds of the state under Section 27-105-33, Mississippi Code Ann. (1972). Funds in the Working Cash-Stabilization Reserve Account and the Education Improvement Trust Account are invested by the State Treasurer as authorized by Sections 27-103-203 and 7-9-103, respectively, Mississippi Code Ann. (1972).

Sections 37-155-9 and 37-155-115, Mississippi Code Ann. (1972) authorize the Board of Directors of the College Savings Plans of Mississippi Trust Funds (the Board) to invest funds held in the Mississippi Affordable College Tuition (MPACT) Account and the Mississippi Affordable College Savings (MACS) Account, respectively.

The System is authorized to invest funds under Section 25-11-121, Mississippi Code Ann. (1972). All investments are governed by the Board of Trustee's policy of the prudent person rule. The prudent person rule establishes a standard for all fiduciaries, to act as a prudent person would be expected to act, with discretion and intelligence, while investing for income and preservation of principal.

Primary Government Deposits (except for the System)

Section 27-105-5, Mississippi Code Ann. (1972) authorizes the State Treasurer to implement a statewide collateral pool program which secures all state and local public funds deposits through a centralized system of pledging securities to the State Treasurer. The program requires the State Treasurer as pledgee of all public funds to monitor the security portfolios of approved financial institutions and ensure public funds are adequately secured.

Section 27-105-5, Mississippi Code Ann. (1972) establishes the requirements for a financial institution to be approved as a qualified public funds depository. Generally, financial institutions make annual application to the State Treasurer for state funds by signing a contract and supplying the financial report as provided to its regulatory authority to assure the statutory required 5.5 percent primary capital to total assets ratio. When so approved by the State Treasurer, the financial institution is required to place on deposit with the State Treasurer collateral equal to at least 105 percent of the amount of public funds on deposit in excess of the amount insured by the Federal Deposit Insurance Corporation (FDIC). Collateral may be held by a third party custodian, with approval of the State Treasurer, if conditions are met which protect the State's interests.

Sections 27-105-5 and 27-105-6, Mississippi Code Ann. (1972) establish a public funds guaranty pool administered by the Guaranty Pool Board and the State Treasurer. The Guaranty Pool Board is composed of the State Treasurer, Commissioner of Banking and Consumer Finance, five members nominated by the Mississippi Bankers Association, one member nominated by the Mississippi Supervisors Association, and one member nominated by the Mississippi Municipal League. The Guaranty Pool Board is responsible for reviewing and recommending criteria to be used by the State Treasurer in order to protect public deposits and the depositories in the guaranty pool program.

Sections 27-105-5 and 27-105-6, Mississippi Code Ann. (1972) establish criteria for a financial institution that has been in existence for three years or more to be approved as a qualified public funds depository and a public funds guaranty pool member. Potential guaranty pool members must submit an application and supply financial information to the State Treasurer as provided to its regulatory authority to verify the institution meets certain financial criteria established in the law. In addition to the requirements in the law, the Guaranty Pool Board has established additional membership requirements pursuant to its statutory authority. Once approved as a member of the public funds guaranty pool, the members must submit quarterly financial information to the State Treasurer. The Guaranty Pool Board uses this information to monitor the financial status of each member and the fiscal soundness of the guaranty pool.

Under the criteria established by the Guaranty Pool Board, an approved guaranty pool member must meet the 75 percent security requirement by depositing eligible collateral with the State Treasurer (or an approved custodian). The agreement provides that if a loss to a public depositor in the guaranty pool is not covered by deposit insurance and the proceeds from the sale of securities pledged by the defaulting depository, the difference will be provided by an assessment against other guaranty pool members on a pro rata basis.

Custodial credit risk for deposits is the risk that in the event of the failure of a financial institution, the government will not be able to recover deposits or collateral securities that are in the possession of an outside party. As of June 30, 2018, of the statewide collateral pool cash deposits reported by the financial institutions, \$434,000 was uninsured and uncollateralized. Of the cash deposits not included in the statewide collateral pool, \$801,000 was uninsured and uncollateralized, and \$17,507,000 was uninsured and collateral held by the pledging financial institution's trust department or agent was not in the government's name.

123

Primary Government Investment Policies (except for the System)

The State Treasurer is authorized to invest all funds in the state pool in the following:

Certificates of deposit or term repurchase agreements with approved financial institutions, banks and savings associations domiciled in Mississippi;

Repurchase agreements and securities lending transactions (with at least 80 percent of the total dollar amount with qualified state depositories);

Direct U.S. Treasury obligations fully guaranteed by the U.S Government;

U.S. Government agency, U.S. Government instrumentality, or U.S. Government sponsored enterprise obligations, the principal and interest of which are fully guaranteed by U.S. Government, U.S. Government agency, U.S. Government instrumentality, or U.S. Government sponsored enterprise; and

Any open-end or closed-end management type investment company or investment trust registered under the provisions of 15 U.S.C. Section 80(a)-1 et seq., provided that the portfolio is limited to direct obligations issued by the U.S. (or its agencies, instrumentalities or sponsored enterprises) and to repurchase agreements fully collateralized by direct obligations of the U.S. (or its agencies, instrumentalities or sponsored enterprises). The total dollar amount of funds invested in all open-end and closed-end management type companies and investment trust cannot exceed 20 percent of total investments. Not more than \$500,000 may be invested with foreign financial institutions.

The State Treasurer, for the Working Cash-Stabilization Reserve Account and the Education Improvement Trust Account and the Board for the MPACT Account, are authorized to invest in the following:

Bonds, notes, certificates and other valid general obligations of the State, or of any county, city, or supervisor's district of any county of the State;

School district bonds of the State;

Notes or certificates of indebtedness issued by the Veterans' Home Purchase Board, not to exceed five percent of total investments;

Highway bonds of the State;

Corporate bonds of Grade A or better as rated by Standard & Poor's Corporation (S&P) or by Moody's Investors Service. The Board may invest up to 5 percent of the book value of the total fixed income investment in corporate bonds of Grade BBB/Baa or better as rated by S&P or by Moody's Investors Service;

Short-term obligations of corporations, or of wholly-owned subsidiaries of corporations, whose short-term obligations are rated A-3 or better by S&P or rated P-3 or better by Moody's Investors Service;

Bonds of the Tennessee Valley Authority;

Bonds, notes, certificates and other valid obligations of the U.S. or any federal instrumentality that issues securities under authority of an act of Congress and are exempt from registration with the U.S. Securities and Exchange Commission (SEC);

Bonds, notes, debentures and other securities issued by any federal instrumentality and fully guaranteed by the U.S.; and

Interest-bearing bonds or notes which are general obligations of any other state in the U.S. or any city or county therein, provided such city or county had a population as shown by the federal census next preceding such investment of not less than 25,000 inhabitants, and provided that such state, city, or county has not defaulted for a period longer than 30 days in the payment of principal or interest on any of its general obligation indebtedness during a period of ten calendar years immediately preceding such investment.

In addition, the Board for the MPACT Account, is authorized to invest in the following:

Bonds rated A or better, stocks and convertible securities of established non-U.S. companies which are listed on primary national stock exchanges of foreign nations and foreign government securities rated A or better by a recognized rating agency. The Board is authorized to hedge such transactions through foreign banks and generally deal in foreign exchange through the use of foreign currency, interbank forward contracts, futures contracts, options contracts, swaps and other related derivative instruments;

Shares of stock, common and/or preferred, of corporations created by or existing under the laws of the U.S. or any state, district or territory thereof;

Covered call and put options on securities traded on one or more of the regulated exchanges;

Pooled or commingled funds managed by a corporate trustee or by a SEC registered investment advisory firm and shares of investment companies and unit investment trusts registered under the Investment Company Act of 1940, where such pooled or commingled funds or shares are comprised of common or preferred stocks, bonds, money market instruments or other authorized investments; and

Pooled or commingled real estate funds or real estate securities managed by a corporate trustee or by a SEC registered investment advisory firm retained as an investment manager by the Board.

The Board is authorized to invest for the MACS account as permitted under Section 529 of the Internal Revenue Code of 1986.

Primary Government Investments (except for the System)

A. Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The primary government follows the statutes as previously discussed as its policy for limiting exposure to credit risk. The Moody's or S&P credit ratings for the primary government's investments as of June 30, 2018 are as follows (amounts expressed in thousands):

		Quality Ratings										
Investment Type		AAA	AA	Α	BBB	Not Rated						
Asset backed securities	\$	2,922 \$	1,623 \$	1,599 \$	897 \$							
Collateralized mortgage obligations		472	258			365,729						
Corporate bonds		716	3,378	23,901	6,105	330						
Mortgage pass-throughs						38,782						
Municipal bonds			2,002			776						
Mutual funds		85,394				57,575						
U.S. Government agency obligations	s	9,775	1,005,899			27,999						
Total	\$	99,279 \$	1,013,160 \$	25,500 \$	7,002 \$	491,191						

B. Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The primary government has no formal policy on limiting exposure to interest rate risk. As of June 30, 2018, the primary government had the following investments and maturities (amounts expressed in thousands):

		Fair Value	I	Investment Maturities (in Years)							
Investment Type	(in thousands)	Less than 1		1 - 5	6 - 10		More than 10			
Asset backed securities	\$	7,041	\$	\$	3,476 \$	2,134	\$	1,431			
Collateralized mortgage obligations		410,330	472		8,220	77,476		324,162			
Corporate bonds		36,900	4,784		18,798	7,733		5,585			
Mortgage pass-throughs		41,308	789		5,215	16,989		18,315			
State and local obligations		2,779	250		1,192	1,241		96			
Mutual funds		112,757	55,183		9,677	47,897					
Other pass-throughs		306,528	390		6,188	15,042		284,908			
U.S. Government agency obligations		1,049,213	449,033		585,716	11,909		2,555			
U.S. Treasury Obligations		719,850	675,799		25,601	15,114		3,336			
Zero coupon bonds		999	539		460						
Total Primary Government	\$	2,687,705	\$ 1,187,239	\$	664,543 \$	195,535	\$	640,388			

Collateralized mortgage obligations (CMOs) are bonds that are collateralized by whole loan mortgages, mortgage passthrough securities or stripped mortgage-backed securities. Income is derived from payments and prepayments of principal and interest generated from collateral mortgages. Cash flows are distributed to different investment classes or tranches in accordance with that CMO's established payment order. Some CMO tranches have more stable cash flows relative to changes in interest rates while others are significantly sensitive to interest rate fluctuations.

Asset backed securities (ABS) are bonds or notes backed by loan paper or accounts receivable originated by banks, credit card companies, or other credit providers. The originator of the loan or accounts receivable paper sells it to a specially created trust, which repackages it as securities. Similar to CMOs, ABS have been structured as pass-throughs and as structures with multiple bond classes.

Mortgage pass-through securities are issued by the FNMA, FHLMC, and Government National Mortgage Association (GNMA). These investments are backed by mortgage loans in which the borrowers have the option of prepaying.

C. Fair Value Measurements - The State categorizes its fair value measurements within the fair value hierarchy established by GASB Statement 72. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. As of June 30, 2018, the primary government has the following recurring fair value measurements (amounts expressed in thousands):

			Fair Value Measurements Using:				
		Act	ioted Prices in ive Markets For entical Assets	•	gnificant Other servable Inputs		
Investment by Fair Value Level	Fair Value		(Level 1)		(Level 2)		
Debt securities:							
Asset backed securities	\$ 7,041	\$		\$	7,041		
Collateralized mortgage obligations	410,330				410,330		
Corporate bonds	38,792		1,893		36,899		
Fixed income securities	42,018		42,018				
International fixed	1,891		1,891				
Mortgage pass-throughs	41,308				41,308		
Mutual funds	79,129		79,129				
Other pass-throughs	306,528				306,528		
Real estate investments	12,271		12,271				
State and local obligations	2,467				2,467		
U.S. Government agency obligations	1,048,088				1,048,088		
U.S. Treasury obligations	 731,622		731,622				
Total Debt Securities	 2,721,485	\$	868,824	\$	1,852,661		
Equity securities:							
Domestic equities	229,032		229,032				
International equities	41,301		41,301				
Total Equity Securities	 270,333		270,333				
Total Investments By Fair Value Level	 2,991,818	\$	1,139,157	\$	1,852,661		
Open-ended comingled funds - foreign	 60,165						
Real estate funds	17,019						
Total Investments Measured at NAV	 77,184						
Total Investments Measured at Fair Value	\$ 3,069,002						

126

Certain investments that are measured at fair value using the Net Asset Value (NAV) per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. Investments measured at NAV per share (or its equivalent) are (amounts expressed in thousands):

	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Open-ended comingled funds - foreign	\$ 60,165	6 -	Daily	Up to 30 days
Real estate funds	17,019	-	Daily	Up to 60 days
Total Investments at NAV	\$ 77,184	-		

Open-ended comingled funds include two investments that take both long and short positions, primarily in foreign common stocks. Real estate funds include three real estate funds that invest primarily in U.S. commercial real estate and timberland. The investment in the timberland fund can be redeemed upon maturity of the fund. Distributions from the timberland fund will be made as the underlying investments of the funds are liquidated. The U.S. commercial real estate funds have quarterly liquidity availability.

D. Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The primary government limits investment in the Veteran's Home Purchase Board notes or certificates to not more than five percent of total investment holdings. By statute, the Board's investments in stocks of any one corporation are limited to not more than three percent of the book value of their assets. The primary government has the following investments that represent more than five percent of net investments (amounts expressed in thousands):

Federal Home Loan Bank	\$ 334,550	8.86%
Federal Home Loan Mortgage Corporation	564,584	14.96
Federal National Mortgage Association	380,123	10.07
Federal Farm Credit Bank	210,251	5.57

System Deposits

Section 25-11-121, Mississippi Code Ann. (1972), requires the System's Board of Trustees to determine the degree of collateralization necessary for both foreign and domestic demand deposits in addition to that which is guaranteed by federal insurance programs. These statutes also require that, when possible, the types of collateral securing deposits be limited to securities in which the System itself may invest. The Board of Trustees has established a policy to require collateral equal to at least 100 percent of the amount on deposit in excess of that which is guaranteed by federal insurance programs to the credit of the System for domestic demand deposit accounts. No collateral is required for foreign demand deposit accounts, and at June 30, 2018, the System had no deposits in foreign demand deposit accounts.

For deposits, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Section 25-11-121, Mississippi Code Ann. (1972), provides that the deposits of the System in any U.S. bank shall, where possible, be safeguarded and guaranteed by the posting of bonds, notes, and other securities as security by the depository. The System's Board of Trustees has formally adopted a short-term investment policy that requires that the market value of securities guaranteeing the deposits shall at all times be equal to 100 percent of the amount of funds on deposit.

System Investment Policies

The System is authorized to invest in the following:

Bonds, notes, certificates and other valid general obligations of the State, or of any county, city, or supervisor's district of any county of the State;

School district bonds of the State;

Notes or certificates of indebtedness issued by the Veterans' Home Purchase Board, not to exceed five percent of total investments;

Highway bonds of the State;

Corporate bonds rated by S&P or by Moody's Investors Service;

Short-term obligations of corporations, or of wholly-owned subsidiaries of corporations, whose short-term obligations are rated A-3 or better by S&P or rated P-3 or better by Moody's Investors Service;

Bonds of the Tennessee Valley Authority;

Bonds, notes, certificates and other valid obligations of the U.S. or any federal instrumentality that issues securities under authority of an act of Congress and are exempt from registration with the SEC;

Bonds, notes, debentures and other securities issued by any federal instrumentality and fully guaranteed by the U.S.;

Bonds, stocks, and convertible securities of established foreign companies that are listed on primary national stock exchanges of foreign nations and in foreign government securities. The System is authorized to hedge such transactions through foreign banks and generally deal in foreign exchange through the use of foreign currency, interbank forward contracts, futures contracts, options contracts, swaps and other related derivative instruments;

Interest-bearing bonds or notes that are general obligations of any other state in the U.S. or any city or county therein, provided such city or county had a population as shown by the most recent federal census of not less than 25,000 inhabitants, and provided that such state, city, or county has not defaulted for a period longer than 30 days in the payment of principal or interest on any of its general obligation indebtedness during a period of ten calendar years immediately preceding such investment;

Shares of common and/or preferred stock of corporations created by or existing under the laws of the U.S. or any state, district or territory thereof;

Covered call and put options on securities traded on one or more of the regulated exchanges;

Pooled or commingled funds managed by a corporate trustee or by a SEC registered investment advisory firm and shares of investment companies and unit investment trusts registered under the Investment Company Act of 1940, where such pooled or commingled funds or shares are comprised of common or preferred stocks, bonds, money market instruments or other authorized investments;

Pooled or commingled real estate funds or real estate securities managed by a corporate trustee or by a SEC registered investment advisory firm retained as an investment manager by the System. Section 25-11-121, Mississippi Code Ann. (1972), allows the System to invest up to ten percent of the total portfolio in real estate only via real estate securities and commingled funds. Direct ownership of real estate assets is prohibited. The portfolio is divided between core commingled and value added real estate fund investments, which directly invest in properties, and in managed portfolios of Real Estate Investment Trusts (REITs). REITs are exchange traded securities that provide indirect exposure to real estate properties and real estate management companies. Fair values of commingled fund properties are based on the most recent independent appraisal values. Independent appraisal firms which are Members of Appraisal Institute (MAI) are required to conduct valuations at least annually; and

Up to ten percent of the total book value of investments can be types of investments not specifically authorized by this section, if the investments are in the form of a separate account managed by a SEC registered investment advisory firm retained as an investment manager by the Board of Trustees, or a limited partnership, or commingled fund.

System Investments

A. Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The System follows the statutes as previously discussed as its policy for limiting exposure to credit risk. The Board of Trustees has adopted a short-term investment policy which further restricts commercial paper to be of corporations with long-term debt to be rated A or better by S&P or Moody's, and whose short-term obligations are of A-2 or P-2 or better ratings by S&P and Moody's, respectively. This applies to all short-term investments. In addition to the short-term investment policy, a policy adopted for the internally-managed short-term account requires that for any amount above the established core of \$30 million, no more than 25 percent may be invested in any issue having a rating lower than AA or A1/P1. Credit risk for derivatives results from the same considerations as other counterparty risk assumed by the System. Policy requires that the credit quality of the underlying asset must be rated A or better by Moody's or S&P. The lending agent is permitted to purchase asset-backed securities for the cash collateral fund that are only AAA rated.

128

Mississippi

The Moody's or S&P credit ratings for the System's investments as of June 30, 2018 are as follows (amounts expressed in thousands):

	 Quality Ratings											
Investment Type	 Aaa/AAA	Aa/AA	A/A	Baa/BBB	Ba/BB	B/B						
Asset backed securities	\$ 1,369,201 \$	42,774 \$	46,396 \$	21,221 \$	10,697 \$	3,554

Total	\$ 28,985 \$	3,549 \$	14 \$	4,568 \$	301,493					

B. Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Section 25-11-121, Mississippi Code Ann. (1972), requires that all investments be clearly marked as to ownership, and to the extent possible, shall be registered in the name of the System. Of the System's \$31,808,283,000 in investments at June 30, 2018, \$4,875,673,000 was exposed to custodial credit risk. These are cash collateral reinvestment securities held in the name of the custodian who acquired them as the lending agent/counterparty and the securities on loan for securities collateral that is held in the name of the lending agent. This is consistent with the securities lending agreement in place with the custodian.

The fair value of the System's cash collateral securities and the underlying securities on non-cash loans as of June 30, 2018, consisted of (amounts expressed in thousands):

Investment Type	Fair Value
Cash collateral securities	
Asset backed securities	\$ 1,177,225
Commercial paper	470,956
Corporate bonds	1,450,083
Repurchase agreements	 429,716
Total cash collateral securities	 3,527,980
Underlying securities on non-cash loans	
Debt securities	213,388
Equities	1,122,295
Real Estates Investment Trusts	 12,010
Total underlying securities on non-cash loans	 1,347,693
Total	\$ 4,875,673

C. Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The System has no formal policy on limiting exposure to interest rate risk. As of June 30, 2018, the System had the following investments and maturities (amounts expressed in thousands):

		Inv	estment Maturiti	es (in Years)	
Investment Type	Fair Value	Less than 1	1 - 5	6 - 10	More than 10
Asset backed securities \$	1,502,112 \$	1,304,424 \$	126,940 \$	35,138 \$	35,610
Collateralized mortgage obligations	549,328	208,886	15,541	21,945	302,956
Commercial paper	476,455	476,455			
Corporate bonds	3,201,727	1,084,549	1,282,845	432,534	401,799
Mortgage pass-throughs	828,119	73	2,824	6,334	818,888
Repurchase agreements	672,392	672,392			
Sovereign governments debt	1,129,688	38,814	389,328	446,038	255,508
State and local obligations	47,322	154	14,641	6,459	26,068
U.S. Government agency obligations	60,423	43,263	6,697	394	10,069
U.S. Treasury obligations	1,149,439	219,931	286,502	323,535	319,471
Yankee/Global bonds	31,000		21,646	6,868	2,486
Total \$	9,648,005 \$	4,048,941 \$	2,146,964 \$	1,279,245 \$	2,172,855

During fiscal year 2018, the investments in derivatives were exclusively in asset/liability based derivatives such as interestonly (IO) strips, CMOs and ABS. The System reviews fair values of all securities on a monthly basis and prices are obtained from recognized pricing sources. Derivative securities are held, in part, to maximize yields. IO and principal-only (PO) strips are transactions which involve the separation of the interest and principal components of a security. They are highly sensitive to prepayments by mortgagors which may result from a decline in interest rates. The System held IO strips valued at \$20,100,000 at fiscal year-end. The derivatives policy limits IO and PO strips to three percent of the investment portfolio.

CMOs are bonds that are collateralized by whole loan mortgages, mortgage pass-through securities or stripped mortgagebacked securities. Income is derived from payments and prepayments of principal and interest generated from collateral mortgages. Cash flows are distributed to different investment classes or tranches in accordance with that CMO's established payment order. Some CMO tranches have more stable cash flows relative to changes in interest rates while others are significantly more sensitive to interest rate fluctuations. In a declining interest rate environment, some CMOs may be subject to a reduction in interest payments as a result of prepayments of mortgages which make up the collateral pool. A reduction in interest payments causes a decline in cash flows and, thus a decline in the fair value of the CMO security. Rising interest rates may cause an increase in interest payments, thus an increase in the value of the security. The System held \$549,300,000 in CMOs at June 30, 2018. Of this amount, \$49,500,000 were tranches that are highly sensitive to future changes in interest rates. CMO residuals are prohibited under the derivatives policy.

ABS are bonds or notes backed by loan paper or accounts receivable originated by banks, credit card companies, or other credit providers. The originator of the loan or accounts receivable paper sells it to a specially created trust, which repackages it as securities. Similar to CMOs, ABS have been structured as pass-throughs and as structures with multiple bond classes. Of the \$1,500,000,000 in ABS held at June 30, 2018, \$79,600,000 are highly sensitive to changes in interest rates. ABS which are leveraged structures or residual interests are prohibited by the derivatives policy.

At June 30, 2018, the System has invested in \$828,100,000 in mortgage pass-through securities issued by the FNMA, FHLMC, and GNMA. These investments are moderately sensitive to changes in interest rates because they are backed by mortgage loans in which the borrowers have the option of prepaying.

D. Foreign Currency Risk - Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The investment asset allocation policy does not limit foreign currency-denominated investments of the System. The Investment Committee of the Board of Trustees evaluates the actual investment asset allocation quarterly, in accordance with the adopted phase-in policy. Based on current market conditions, the Board adjusts the allocation as necessary. The System's exposure to foreign currency risk at June 30, 2018, is as follows (amounts expressed in thousands):

Currency	Cash and Equivalents	Equities and REITs	Debt Securities	Total Fair Value
Argentine need	\$ (1,400)	\$	\$ 2.064	\$ 1 5 4 2

E. Investment Derivatives - The System's derivatives policy limits foreign currency forwards to no more than 100 percent of the aggregate value of the portfolio securities denominated in the hedged currency. At June 30, 2018, the counterparties of the foreign currency forwards primarily had short term credit ratings of A as rated by the nationally recognized statistical rating organizations. The System's general policy requires that the counterparty has a long term credit rating of A or better and a short term credit rating of A1/P1 at a minimum. More specifically, the System's policy requires that all over-the-counter derivatives be rated AA or better by the nationally recognized statistical rating organizations. The counterparties of the to-be-announced securities were primarily rated A by the nationally recognized statistical rating organizations. The foreign currency forwards are presented in the foreign currency risk table, and the to-be-announced securities are disclosed in the interest rate risk table by years to maturity. The investment derivative instruments outstanding as of June 30, 2018, are as follows (amounts expressed in thousands):

Investment Type	Notional	Changes in Fair	Value	Fair Value at June 30, 2018		
Investment Type	Amount	Classification	Amount	Classification	Amount	
Foreign currency forwards	\$ (31,835,635)	Investment income \$	7,764	Investment	\$(7,764)	
To-be-announced securities	389,099	Investment income	1,623	Debt securities	389,515	

F. Securities Lending Transactions - The Board of Trustees has authorized the System to lend its securities to broker-dealers with a simultaneous agreement to return the collateral for the same securities in the future. The System's custodian, pursuant to a written agreement, is permitted to lend all long-term securities to authorized broker-dealers subject to the receipt of acceptable collateral. The System lends securities for collateral in the form of either cash or other securities. The types of securities on loan at June 30, 2018, by the System are long-term U.S. Government and agency obligations, corporate bonds, REITs, and domestic and international equities. The contractual agreement with the custodian provides indemnification in the event the borrower fails to return the securities lent or fails to pay the System income distributions by the securities' issuers while the securities are on loan. There have been no significant violations of the provisions of the agreement during the period of this statement.

At the initiation of a cash loan, borrowers are required to provide collateral amounts of 102 percent on U.S. securities and international securities denominated in the same currency of the loaned security. For international securities that are denominated in a currency other than the currency of the loaned security, 105 percent collateral is required at the initiation of the loan. In the event the collateral fair value on U.S. securities and sovereign debt falls to less than 100 percent of the respective fair value of the securities lent, the borrower is required to provide additional collateral by the end of the next business day. In the event the collateral fair value falls below 102 percent for international same-currency transactions or 105 percent for cross-currency transactions, the borrower is required to provide additional collateral.

For non-cash loans, 110 percent collateral is required from the borrowers. The System cannot pledge, lend, or sell securities received as collateral unless the borrower defaults. As such, these securities are not presented on the Statement of Fiduciary Net Position. Authorized securities' collateral includes U.S. and non-U.S. government debt obligations and securities, supranational debt obligations, U.S. and non-U.S. equity securities listed on specified indices, U.S. and non-U.S. corporate bonds, and convertible securities. Equities were held as collateral on the non-cash loans as of June 30 2018.

The maturities of the investments made with cash collateral generally do not match the maturities of the securities loans. All securities loans can be terminated on demand by either the System or the borrower, although the average term of these loans was three days at June 30, 2018. Cash collateral was invested in repurchase agreements, corporate bonds and ABS. The weighted average effective duration and the weighted average maturity of all collateral investments at June 30, 2018, were 26 days.

Securities lent at year end for cash and non-cash collateral are presented by type. Securities lent for securities collateral are classified according to the custodial credit risk category for the collateral. There were \$1,347,693,000 securities lent for securities collateral as of June 30, 2018. The investments purchased with the cash collateral are presented in the discussion of custodial credit risk, since the custodian, as agent, is the counterparty in acquiring these securities in a separate account for the System.

At year end, the System had no credit risk exposure to borrowers because the amount the System owed the borrowers exceeded the amount the borrowers owed the System. At June 30, 2018, the aggregate cost of securities lending holdings, including accrued interest, was \$3,533,512,000 (fair value of \$3,535,405,000) and the aggregate fair value, including accrued interest, of the underlying securities lent was \$4,724,228,000. The value of the collateral pledged by borrowers at year end was \$4,960,355,000.

G. Fair Value Measurements - The System categorizes its fair value measurements within the fair value hierarchy established by GASB Statement 72. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the NAV value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The System's assessment of the significance of particular inputs to these fair value measurements requires judgment and

132

Mississippi

considers factors specific to each asset or liability. As of June 30, 2018, the System has the following recurring fair value measurements (amounts expressed in thousands):

				Fair Valu	ie N	leasurements	Usi	ng:
Investment by Fair Velue Level		Fair Value	Ac	uoted Prices in tive Markets For lentical Assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant nobservable Inputs (Level 3)

Debt and Equity - The System's debt and equity securities in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Securities classified in Level 2 of the fair value hierarchy are valued using a proprietary pricing source. The primary proprietary pricing source utilizes continuous evaluations throughout the trading day based on factors such as dealer quotes and trades, trade execution data, and transaction reporting services. Along with market sources, relative credit information, observed market movements, and sector news is integrated and incorporated into evaluation pricing applications and models. Commercial and residential mortgage-backed securities classified in Level 3 are valued using discounted cash flow techniques. Collateralized debt obligations classified in Level 3 are valued using a proprietary model that monitors structured product markets, interest rate movements, new issue information, and other pertinent data. Evaluations of tranches (non-volatile and volatile) are based on market modeling, trading, and pricing conventions. New issue features are analyzed on data such as pricing speed, spread, and volatility. Information is also solicited from outside sources including secondary dealers, portfolio managers and research analysts.

Derivative Instruments – The System held derivative instruments in the form of U.S. Treasury strips, collateralized mortgage obligations, asset-backed securities, and currency conversions as of June 30, 2018.

Real Estate - The System's real estate funds include open-end funds and closed-end limited partnerships that invest primarily in US commercial real estate. The fair values of these investments have been determined using the NAV per share (or its equivalent) of the System's ownership interest in the fund or partners' capital, as applicable. The governing document for each open-end real estate fund provides investors the ability to request the redemption of all or part of their fund investments. The funds resulting from an investor's redemption request are raised by the sale of underlying real estate investments held by the open-end fund. Closed-end real estate funds, governed by limited partnership agreements, do not contain provisions for limited partner redemptions on demand. Closed-end funds have a finite life or term, which is defined in the limited partnership agreement. Typically, real estate investments must be made within the first three to four years of the partnership's lifespan, and liquidated by the end of the 10th year. As underlying real estate investments are sold over the life of the closed-end fund, pro-rata distributions of the proceeds are made to each partner in the fund partnership. The standard liquidation period of 10 years with the option of two one-year extensions applies to the one percent of the total portfolio invested in closed-end funds.

Private Equity – The System's private equity investments consist of two fund-of-funds (FOF) limited partnerships that invest in multiple private equity funds on behalf of the System. Private equity funds invest primarily in non-public companies whose prices are not quoted on a stock exchange; therefore, these investments are typically illiquid in nature. The System's ownership in the underlying private equity funds consists of limited partnership interests. Because these partnership interest are illiquid, the System's investments cannot be redeemed on demand. Instead pro-rata distributions are received through the liquidation of the assets of the underlying partnerships. Based on the terms of each limited partnership within the System's FOFs, all partnership assets should be liquidated over the 10-to-12 year life of the individual partnership.

As of June 30, 2018, it is probable that all the System's private equity underlying investments will be sold at an amount different from the NAV per share (or its equivalent) of the System's ownership interest in partners' capital. Therefore, the fair values of these underlying investments have been determined using recent observable transaction information for similar investments and non-binding bids received from potential buyers of the investments of each partnership. As of June 30, 2018, a buyer (or buyers) for these investments has not yet been identified. Each underlying private equity fund's general partner has full discretion for the disposition of each partnership investment. The general partner is solely responsible for determining the most appropriate timing for the sale of each investment and the best exit strategy to utilize. In addition, the general partner is responsible for identifying all buyers and approving all sale transactions of partnership investments.

Note 9 - Long-term General Obligation Bonds and Notes and Limited Obligation Bonds

Bond indebtedness incurred by the State must be authorized by legislation governing the specific programs or projects to be financed. Such legislation provides the state bond commission authority to approve and authorize the sale and issuance of bonds. The state bond commission is comprised of the Governor as chairman, the State Attorney General as secretary, and the State Treasurer.

A. General Obligation Bonds and Notes

General obligation bonds are issued to provide funds for capital improvements which include repairing, renovating, or constructing state owned facilities, to provide loans and grants to local governments and other entities for economic development and capital improvements, and to provide grants to community colleges and universities for capital improvements. General obligation notes are issued to provide funds for economic development. General obligation refunding bonds are issued to currently refund or advance refund certain outstanding bonds for both capital and non-capital related purposes, the majority of which are non-capital related. Certain general obligation refunding bonds issued by the State as of June 30, 2018 pay interest at variable rates. The remaining general obligation debt has fixed rates of interest.

The *Tax Reform Act of 1986* requires governmental entities issuing tax-exempt bonds to refund to the U. S. Treasury interest earnings on bond proceeds in excess of the yield on those bonds. The State must comply with arbitrage rebate requirements in order for their bonds to maintain tax-exempt status. As of June 30, 2018, no arbitrage rebate liability existed.

General obligation bonds and notes are backed by the full faith, credit and taxing power of the state. Although certain general obligation debt is being retired from the resources of the business-type activities and is, therefore, recorded in those funds, the State remains contingently liable for its payment.

Restructured and Defeased Bonds

During fiscal year 2018, the State issued the following general obligation bonds, which are reported in governmental activities:

Taxable-Exempt General Obligation Bonds, Series 2017B (LIBOR Term Rate) totaling \$61,260,000 dated August 16, 2017. The Series 2017B Bonds were issued to restructure the \$78,625,000 State of Mississippi General Obligation Refunding Bonds, Series 2012D (SIFMA Index). The 2017B Bonds will initially and prior to Conversion bear interest at a rate equal to 67% of one-month LIBOR plus .33% (33 basis points) for the Initial Term Rate Period of August 20, 2017 to August 31, 2020, provided however, the interest rate on the 2017B Bonds shall never exceed 11% per annum.

Taxable General Obligation Bonds, Series 2017C (LIBOR Term Rate) totaling \$101,145,000 dated August 16, 2017. The series 2017C Bonds were issued to restructure the \$100,490,000 State of Mississippi General Obligation Refunding Bonds, Series 2012C (LIBOR Index). The 2017C Bonds will initially and prior to Conversion bear interest at a rate equal to one-month LIBOR plus .40% (40 basis points) for the Initial Term Rate Period of August 30, 2017 to October 31, 2020, provided however, the interest rate on the 2017C Bonds shall never exceed 11% per annum.

DRAFTv1

The 2017B and 2017C Bonds will be subject to mandatory tender and remarketing on the initial Conversion Dates of September 1, 2020 and November 1, 2020, respectively.

Prior to August 30, 2017, the restructured bonds, State of Mississippi General Obligation Refunding Bonds, Series 2012C and 2012D, were associated with four hedging derivative instruments. On August 30, 2017, the hedging derivative instruments became associated with Series 2017B and 2017C. The hedging derivative instruments are discussed further in the Derivative Instruments section of this note.

In prior years, the State defeased certain outstanding general obligation bonds of the primary government by depositing the proceeds in irrevocable trusts to be used solely for satisfying all future scheduled principal and interest payments on the refunded debt. Accordingly, for financial reporting purposes, the defeased bonds and related trust accounts are not included in the financial statements. At June 30, 2018, \$656,010,000 of outstanding general obligation bonds are considered defeased.

At June 30, 2018, the primary government's outstanding general obligation bonds and notes as presented in governmental activities and business-type activities are (amounts expressed in thousands):

			Final	
	Outstanding	Interest	Maturity	Original

*General obligation refunding bonds include \$162,405,000 of outstanding variable rate bonds, \$155,375,000 of which have associated interest rate swap agreements. Under the interest rate swap agreements, the state pays the counterparty fixed rate payments ranging from 3.75% to 3.843% on \$55,375,000 and 5.248% to 5.708% on \$100,000,000. The state receives variable rate payments computed on one-month LIBOR. The remaining outstanding general obligation bonds have fixed rates of interest.

At June 30, 2018, future general obligation debt service requirements for the primary government are (amounts expressed in thousands):

Derivative Instruments

The State entered into interest rate swap agreements in connection with \$155,375,000 of outstanding variable rate debt in order to hedge changes in cash flows. At June 30, 2018, the State had the following pay-fixed interest rate swap derivative instruments reported in governmental activities, all of which had the objective of hedging the interest rate risk of the variable rate bonds.

Associated Bonds	Notional Amount	Effective Date	Final Maturity Date	Terms	Counterparty Credit Rating
2017C	\$ 50,000,000	Aug. 2017	Nov. 2028	Pay 5.708%; receive one-month LIBOR	AA-/Aa2/AA
2017C	50,000,000	Aug. 2017	Nov. 2026	Pay 5.248%; receive one-month LIBOR	A/A1/AA-
2017B	25,195,000	Aug. 2017	Sept. 2025	Pay 3.843%; receive one-month LIBOR x 67%	BBB+/A3/A
2017B	30,180,000	Aug. 2017	Sept. 2027	Pay 3.750%; receive one-month LIBOR x 67%	BBB+/A3/A

The swaps associated with the 2017B and 2017C variable rate bonds had an effectiveness determined using regression analysis on variable interest rate bonds. The variability of the cash flows of the bond coupons is affected by more than changes in the benchmark interest rate. For example, changes in the credit quality of the State's bonds would affect its interest rates. The State's specific objective, however, is to offset changes in the cash flows of the bond coupons attributable to changes in the benchmark interest rate (a cash flow hedge). The relevant benchmark interest rate index for the 2017B and 2017C variable rate bonds is LIBOR. For the 2017B and 2017C bonds, the swaps that the State entered into do not meet the criteria for the consistent critical terms method. Because the swaps are a hedge of interest rate risk as opposed to the risk of changes in overall cash flows associated with the bond coupons, the State is precluded from using the synthetic instrument method to evaluate effectiveness. Unable to apply either the consistent critical terms method or the synthetic instrument method, the State has chosen to apply the regression analysis method for financial reporting purposes as well as tax compliance purposes.

The regression analysis method evaluates effectiveness by considering the statistical relationship between the cash flows or fair values of the potential hedging derivative instrument and the hedgeable items. The changes in cash flows or fair values of the potential hedging derivative instrument substantially offset the changes in cash flows or fair values of the hedgeable item if all of the following criteria are met;

The R-squared of the regression analysis is at least 0.80

The F-statistic calculated for the regression model demonstrates that the model is significant using a 95 percent confidence interval.

The regression coefficient for the slope is between -1.25 and -.80.

Data was used from November and December 2015 through June 2018, to determine if the potential hedging derivative instruments were effective as of June 30, 2018. The use of the regression analysis method requires appropriate interpretation and understanding of the statistical inferences.

The resulting calculation shows that using over 30 observations, the resulting adjusted R-square is .99, the F-statistic is zero and the regression coefficients for the slopes is -0.998. Based on these parameters required to apply hedge accounting, 2017B and 2017C hedges are deemed highly effective.

The hedging derivative instruments are considered hybrid instruments since the derivatives were "off-market" at the time of association with the 2017C and 2017B bonds. The restructuring of the associated bonds resulted in a conversion date of September 1, 2020 and final maturity of September 1, 2027 for the 2017B bonds, and a conversion date of November 1, 2020 and final maturity of November 1, 2028 for the 2017C bonds.

Fair Value - Fair values for the swap transactions were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero – coupon bonds due on the date of each future net settlement on the swap.

The fair value balances at June 30, 2018 and the changes in fair value of pay fixed receive-variable interest rate swaps reported in governmental activities are (amounts expressed in thousands):

Associated	Notional	Changes in Fair V	/alue		Fair Value at June 30, 20), 2018
Bonds	Amount	Classification Amount		Amount	Classification	Amount	
2017C	\$ 50,000	Interest expense	\$	1,780	Borrowing	\$	(15,670)
		Deferred inflows of resources		3,410	At-market derivative		3,885

		Investment revenue		(291)	Investment derivative		0
	\$ 155,375		\$	10,152		\$	(23,463)

Hedged Debt and Derivative Instrument Payments - The interest and net swap payments shown assume that interest rates at year end will remain unchanged for the term of the bonds and the hedges. As interest rates vary, interest payments on the variable rate bonds and the net swap payments will change. At June 30, 2018, future debt service requirements on the variable rate bonds and net payments on associated hedging derivative instruments are (amounts expressed in thousands):

			Net Swap	
Year Ending June 30	Principal	Interest	Payment	Total
2019	5,180	3,374	4,580	13,134
2020	5,400	3,281	4,445	13,126
2021	 144,795	971	1,297	147,063
	\$ 155,375	\$ 7,626	\$ 10,322	\$ 173,323

Interest Rate Risk - Although the interest rates on the bonds are synthetically fixed under the swap agreements, interest payments on the variable rate bonds and the net payments under the swap agreements will vary as interest rates change.

Credit Risk - The swap agreements and Section 31-18-11, Mississippi Code Ann. (1972), require that the counterparties have credit ratings by at least one nationally recognized statistical rating agency that are within the two highest investment grade categories, and credit ratings by all other nationally recognized statistical rating agencies that are within the three highest grade categories, otherwise the payment obligations of the counterparty shall be unconditionally guaranteed by an entity with such credit ratings. Section 31-18-11, Mississippi Code Ann. (1972), also requires that should the credit rating of the counterparty or of the entity unconditionally guaranteeing the counterparty's obligations fall below the required rating, that the obligations of such counterparty shall be fully and continuously collateralized by direct obligations of, or obligations the principal and interest on which are guaranteed by the United States of America, with a net market value of at least 102% of the net market value of the swap agreements and shall be deposited as directed by the State. Additionally, Section 31-18-11, Mississippi Code Ann. (1972 requires that the counterparty, or the entity guaranteeing the counterparty's obligations, have a net worth of at least \$100,000,000. The State is not exposed to credit risk at June 30, 2018, as all hedging derivative instruments are in a liability position.

Basis Risk - The swap agreements expose the State to basis risk because the applicable interest rates under the swap agreements are based on the LIBOR swap index, which may differ from the interest rates for the State's variable rate bonds. As of June 30, 2018, the weighted average variable interest rate paid on the bonds was 2.21947%, while the one-month LIBOR was 2.09025%.

Termination Risk - The swap agreements are documented by using the International Swap Dealers Association Master Agreement which includes standard termination events, such as failure to pay and bankruptcy. The schedule to the Master Agreement includes additional termination events providing that the swap agreements may be terminated if either the State's or the counterparty's credit rating falls below certain levels. The State or the counterparties may terminate the swap agreements if the other party fails to perform under the terms of the contract. If one or more of the swap agreements are terminated, the State would no longer have a synthetic fixed rate with respect to the previously hedged bonds and would be exposed to these bonds' variable interest rates. Also, if at the time of termination the swap agreements have a negative fair value, the State would incur a loss and would be required to pay the swap agreements' fair value to the counterparty. If the swap agreements have a positive fair value at the time of termination, the State would realize a gain and would receive the swap agreements' fair value from the counterparty.

Market-Access Risk and Rollover Risk – The swap agreements are for the same maturity terms as the hedged variable rate bonds. Therefore, the State is not exposed to market access risk or rollover risk that would be present if the swap agreements' maturity terms ended prior to the maturities of the hedged bonds.

B. Limited Obligation Bonds

Limited obligation bonds are payable exclusively from specific pledged General Fund revenues. Such obligations are not secured by the full faith, credit and taxing power of the state, and holders of such obligations are not entitled to look to other state resources for payment.

These bonds, with an original issue amount of \$200,000,000, were issued to provide funding for road and bridge projects and mature serially through fiscal year 2036 with interest rates ranging from four to five percent. At June 30, 2018, the primary government's future limited obligation debt service requirements are (amounts expressed in thousands):

Year Ending June 30		Principal	Interest		
2019	\$	6,755	\$	9,367	
2020		7,065		9,056	
2021		7,430		8,693

2023		52,022		67,727		
2024-2028		274,102		192,074		
2029-2033		283,063		131,446		
2034-2038		245,630		75,442		
2039-2043		187,548		34,624		
2044-2048		86,629		6,215		
	\$	1,332,122	\$	712,960		

Note 12 - Other Long-term Liabilities

- A. Compensated Absences The State's liability for compensated absences at June 30, 2018 is \$118,315,000 for governmental activities and \$696,000 for business-type activities. For governmental activities, accrued compensated absences are generally paid out of the general fund. The component units' liability for compensated absences is \$118,572,000 of which \$117,870,000 is for the Universities. The reported liability includes related fringe benefits and excludes any obligations related to leave accumulations in excess of 30 days per employee (see Note 1-O).
- **B.** Pollution Remediation Obligation As of June 30, 2018, five Superfund sites in the State are in various stages of cleanup ranging from initial assessment of contamination to cleanup of chemical spills. Numerous leaking underground storage tank sites exist where motor fuels contaminate soil and groundwater, and present inhalation and explosive hazards. Under federal and state law, the State is legally obligated to remedy the detrimental effects of existing pollution through site investigation and assessment, restoration and replacement, cleanup, and monitoring.

At June 30, 2018, the primary government's pollution remediation obligation is \$38,274,000. This estimate is based on professional judgment, experience, historical cost data, and the use of the expected cash flow technique. Recoveries from other responsible parties, which would reduce the State's remediation liability, are not anticipated. Costs of pollution remediation are paid out of the general fund. Remediation obligation estimates may change over time. Estimated costs will vary due to changes in technology, fluctuation in prices, changes in potential responsible parties, and changes in regulations.

C. Notes Payable - At June 30, 2018, the primary government's outstanding notes payable as presented in governmental activities are (amounts expressed in thousands):

Purpose	utstanding Amount	Interest Rates	Final Maturity Date	Original Amount
Utility restoration	\$ 27,095	5%	Jul. 2019	\$ 57,325
Energyefficiency	8,716	3.10% - 4.50%	Apr. 2026	12,606
Buildings	189,755	2% - 5.37%	Jul. 2031	325,745
Roads and bridges	 654,985	1% - 6.59%	Jan. 2040	 832,471
Total	 880,551			 1,228,147
Premiums	76,614			
Total Notes Payable, Net	\$ 957,165			\$ 1,228,147

Refunding and Defeased Notes

During fiscal year 2018, the State issued \$59,445,000 of refunding notes to advance refund a portion of notes payable reported in governmental activities. The advance refunding was undertaken to reduce debt service payments over the next 10 years by \$4,428,000, and obtain an economic gain (the difference between the present value of the debt service payments for the refunded and refunding notes) of \$3,845,000.

The net proceeds of the refunding issues were deposited in irrevocable trusts to be used solely for satisfying all future scheduled principal and interest payments on the refunded debt. Accordingly, for financial reporting purposes, the defeased notes and related trust accounts are not included in the financial statements. At June 30, 2018, \$163,065,000 of outstanding notes are considered defeased.

At June 30, 2018, future debt service requirements for notes payable as presented in governmental activities are (amounts expressed in thousands):

Year Ending June 30	Principal	Interest
2019	\$ 66,593	43,647
2020	68,286	40,524
2021	57,277	37,666
2022	59,951	34,955
2023	61,947	35,318
2024-2028	331,631	124,235
2029-2033	132,585	53,005
2034-2038	78,790	19,933
2039-2040	23,491	2,275
Total	880,551	391,558
Premiums	76,614	
Total Debt Service, Net	\$ 957,165	\$ 391,558

D. Capital Lease Commitments - The State leases property with varying terms and options. Most leases contain a fiscal funding addendum stating that the lease shall terminate on the last day of the fiscal year if appropriated funds for the ensuing fiscal year are insufficient. However, if renewal is reasonably assured, leases requiring appropriation by the State Legislature are considered non-cancellable leases for financial reporting purposes.

At June 30, 2018, assets recorded under capital leases are as follows (amounts expressed in thousands):

	 Governmental Activities		Business-type Activities
Land	\$	\$	700
Machinery and Equipment	16,249		293
Accumulated Depreciation	 (9,163)		(100)
Total	\$ 7,086	\$	893

The discretely presented component units recorded capital assets acquired through capital leases of \$1,668,000.

At June 30, 2018, future minimum commitments under capital leases are (amounts expressed in thousands):

Year Ending June 30		vernmental Activities	В	usiness-Type Activities	al Primary vernment	C	omponent Units
2019	\$	3,262	\$	41	\$ 3,303	\$	624
2020		2,084			2,084		354
2021		2,032			2,032		337
2022		807			807		157
2023		185			185		351
Total Minimum Lease Payments		8,370		41	8,411		1,823
Less Interest		498		1	499		196
Present Value of Minimum Lease Payments	\$	7,872	\$	40	\$ 7,912	\$	1,627

Note 13 - Changes in Long-term Liabilities

Changes in the primary government's long-term liabilities for the year ended June 30, 2018 are summarized below (amounts expressed in thousands):

	Beginning Balance	Additions	I	Reductions	Ending Balance	ue Within One Year
Governmental Activities:						
General Obligation Bonds and Notes (Note 9)	\$ 4,136,647	\$ 310,200	\$	435,903	\$ 4,010,944	\$ 311,817
Premiums/Discounts (Note 9)	273,192	3,942		24,904	252,230	23,336
Limited Obligation Bonds (Note 9)	196,595			5,195	191,400	6,755
Premiums (Note 9)	25,132			1,374	23,758	1,374
Notes Payable (Note 12)	949,024	63,301		131,774	880,551	66,593
Premiums (Note 12)	81,136	12,545		17,067	76,614	9,184
Total Bonds and Notes	5,661,726	389,988		616,217	5,435,497	419,059
Derivative Instruments (Note 9)	33,615			10,152	23,463	
Capital Lease Obligations (Note 12)	11,124	1,819		5,071	7,872	3,044
Accrued Compensated Absences (Note 12)	116,446	70,647		68,778	118,315	10,580
Pollution Remediation Obligation (Note 12)	37,279	11,512		10,517	38,274	6,771
	\$ 5,860,190	\$ 473,966	\$	710,735	\$ 5,623,421	\$ 439,454
Business-type Activities:						
General Obligation Bonds (Note 9)	\$ 6,673	\$	\$	177	\$ 6,496	\$ 6,188
Capital Lease Obligations (Note 12)	120			80	40	40
Accrued Compensated Absences (Note 12)	669	333		306	696	44
	\$ 7,462	\$ 333	\$	563	\$ 7,232	\$ 6,272

The current portion of accrued compensated absences is reported in accounts payable and other liabilities and the long-term portion is included in noncurrent other liabilities.

Note 14 – Tax Abatements

As of June 30, 2018, the State provides tax abatements through eight programs subject to the requirements of GASB Statement No. 77: the Jobs Tax Credit; the Investment Tax Credit; the Income Tax Exemption; the Fee In Lieu of Franchise Tax; the Sales and Use Tax Exemption to Establish and Operate the Project; the Sales and Use Tax Exemption for Machinery, Tooling, Leases, Repair parts and Services; the Withholding Rebate for New Job Creation; and the Withholding Rebate for Maintaining Existing Jobs. The eight programs are available to entities authorized in Section 57-75-5 (f) of Mississippi Code Ann. (1972) to encourage businesses to locate or expand operations in the State and to create significant new job opportunities for State residents.

The Jobs Tax Credit Program provides an income tax credit to eligible entities that commit to make certain capital investments, to create a certain number of new full-time jobs and to maintain those employment levels. The credit amount is based on employment levels. Eligible entities can receive an annual credit equal to \$5,000 per employee at the project site for a set period of time ranging from 10 to 20 years with a three to ten year carryforward. Eligible entities are able to elect the date when their credit period starts within certain parameters. The credit can be used to offset up to 100% of an eligible entity's state income tax liability. There are no recapture provisions for this program.

The Investment Tax Credit Program provides an income tax credit to eligible entities that commit to make certain capital investments, to create a certain number of new full-time jobs and to maintain those employment levels. An annual tax credit equal to 7.5% of the eligible investment is available to offset the entity's state income tax liability. An eligible entity is able to elect the start date for the credit, however, it must be within two years of becoming fully operational. Any credit claimed and not used in any taxable year can be carried forward for ten consecutive years from the close of the tax year in which it was earned. The amount of the credit that can be used in any one tax year is limited to the entity's total state income tax liability for that year and the credit is subject to recapture if the property for which the credit is received is disposed of, or converted to another nonbusiness use.

The Income Tax Exemption Program provides a full exemption from state income tax to eligible entities that commit to make certain capital investments, to create a certain number of jobs and to maintain those employment levels. An eligible entity is granted a full exemption from state income tax for a period of 20 to 25 years, including the year in which the exemption commences. The eligible entity can elect the date on which the exemption begins, though it typically cannot begin until the committed number of jobs is in place and it must start within five years of the start of production. If in any taxable year to which

the exemption applies the average number of jobs falls below the business's jobs commitment, the income tax exemption may be reduced or suspended until the required number of jobs is restored. There are no recapture provisions for this program.

The Fee in Lieu of Franchise Tax Program allows eligible entities to pay a fee of \$25,000 per year instead of the calculated amount of the franchise tax that would have been due. The fee in lieu of franchise tax typically goes into effect the first year that an eligible entity's franchise tax liability exceeds \$25,000. Eligible entities have to commit to making certain capital investments and/or creating a certain number of jobs and maintaining those employment levels. Each fee in lieu of franchise tax agreement is negotiated with the eligible entity that is investing in the State and is available between ten and thirty years. There are no recapture provisions for this program.

The Sales and Use Tax Exemption to Establish and Operate the Project Program provides a full exemption from sales and use tax for the start-up of a project of eligible entities that commit to make certain capital investments, to create a certain number of jobs and to maintain those employment levels. The State grants eligible entities a full exemption from sales and use taxes on purchases and leases of component building materials and machinery and equipment required for the start-up and operation of an Mississippi Major Economic Impact Authority (MMEIA) eligible project. The amounts exempted under this program are not required to be reported to the State. There are no recapture provisions for this program.

The Sales and Use Tax Exemption for Machinery, Tooling, Leases, Repair Parts and Services Program provides a full exemption from sales and use tax for the perpetual operation of an eligible project to entities that commit to make certain capital investments, to create a certain number of jobs and to maintain those employment levels. The State grants eligible entities with a full exemption from sales and use tax on purchases and leases of machinery, special tooling, repair parts or replacement or leases thereof, supplies and repair services purchased by the eligible entity. The amounts exempted under this program are not required to be reported to the State. There are no recapture provisions for this program.

The Withholding Rebate for New Job Creation Program provides a rebate of new employees' state income tax withholding to eligible entities that commit to create a certain number of new high-paying jobs at certain average annual salary levels that exceeds between 110% and 150% of the state or county average annual salary and to maintain those employment levels throughout the possible rebate period. Eligible entities can receive a percentage of the employees', including leased employees, state income tax withholding in a quarterly payment. These withholding tax rebate payments are capped at 3.5% to 4% of the eligible entity's gross payroll or the actual amount of income tax withheld from their employees. Eligible entities can receive rebate payments on a quarterly basis for up to 25 years assuming the committed number of jobs at the required salary levels are met and maintained. There are no recapture provisions for this program.

The Withholding Rebate for Maintaining Existing Jobs Program provides a rebate to current large employers to retain their existing workforce and further invest in their State operations. It provides a rebate of new employees' state income tax withholding to eligible entities that make a new private investment at the project site and maintain a set number of existing jobs with average annual salaries of at least \$45,000. A rebate equal to one percent of existing employees' wages subject to state income withholding taxes is available for eligible entities for up to ten years or until a maximum rebate of \$6,000,000 has been reached. There are no recapture provisions for this program.

The amounts of taxes abated during fiscal year 2018 are (amounts expressed in thousands):

Program	Abated	
Jobs Tax Credit	\$ -	*
Investment Tax Credit***	-	
Income Tax Exemption***	-	
Withholding Rebate for New Job Creation	-	*
Withholding Rebate for Maintaining Existing Jobs***	-	
Aggregate total of tax credits, tax rebates, and income tax exemption	 17,495	_
Sales and Use Tax Exemption to Establish and Operate the Project	 -	**
Sales and Use Tax Exemption for Machinery, Tooling, Leases, Repair Parts and Services	-	**
Total Sales and Use Tax Exemptions	 9,259	_
Fee in Lieu of Franchise Tax	 9,450	-
Total	\$ 36,204	-

* The amounts abated under these programs are presented in the aggregate. Sections 27-3-73 and 27-7-83 (9) of Miss. Code Ann (1972), prevent disclosure of the individual amounts abated under these programs due to confidentiality of taxpayer reports and returns; however, the total of all abatements is presented in the aggregate.

** Amounts of sales and use taxes abated are estimates.

***There are no taxes abated under these programs.

Note 15 - Retirement Plans

Plan Description

In accordance with state statutes, Public Employees' Retirement System (PERS) Board of Trustees (System) administers four defined benefit plans. The defined benefit plans are the PERS, a cost-sharing multiple-employer public employee retirement system established in 1952, Mississippi Highway Safety Patrol Retirement System (MHSPRS), a single-employer public employee retirement system established in 1958, the Municipal Retirement Systems (MRS), which are agent multiple-employer defined benefit public employee retirement systems composed of 19 separate municipal retirement and fire and police disability and relief systems, and Supplemental Legislative Retirement Plan (SLRP), a single-employer public employee retirement system established in fiscal year 1990.

PERS, MHSPRS, MRS and SLRP are considered part of the State of Mississippi's financial reporting entity and are included in the accompanying financial statements as pension trust funds. The purpose of these plans is to provide pension benefits for all state employees, sworn officers of the state highway patrol, other public employees whose employers have elected to participate, and elected members of the State Legislature and the president of the Senate. The System issues a Comprehensive Annual Financial Report, which includes PERS, MHSPRS, MRS and SLRP, that is available from Public Employees' Retirement System of Mississippi.

Membership and Benefit Provisions

Public Employees' Retirement System: Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by the political subdivisions and instrumentalities of the State, membership is contingent upon approval of the entity's participation in PERS by the System's Board of Trustees. If approved, membership for these employees is a condition of employment and eligibility is granted to those who qualify upon hiring. A member who terminates employment from all covered employers and who is not eligible to receive monthly retirement benefits may request a refund of his or her accumulated member contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions.

Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2 percent of their average compensation for each year of credited service up to and including 30 years (25 years for those who became members before July 1, 2011) plus 2.5 percent for each additional year of credited service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of credited service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. Benefit provisions are established by Section 25-11-1 et seq., Mississippi Code Ann. (1972) and may be amended only by the State Legislature.

A Cost-of-Living Adjustment (COLA) is made to eligible retirees and beneficiaries. The COLA is equal to 3 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3 percent compounded for each fiscal year thereafter. For the year ended June 30, 2018, the total annual COLA payments for PERS were \$650,466,000.

Mississippi Highway Safety Patrol Retirement System: Membership in MHSPRS is a condition of employment granted upon hiring for all officers of the Mississippi Highway Safety Patrol who have completed a course of instruction in an authorized highway patrol training school on general law enforcement and who serve as sworn officers of the highway patrol in the enforcement of the laws of the State. Participating members who withdraw from service at or after age 55 with at least five years of membership service, or after reaching age 45 with at least 20 years of credited service, or with 25 years of service at any age, are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.5 percent of average compensation during the four highest consecutive years of earnings, reduced 3 percent for each year below age 55 or 3 percent for each year under 25 years of service, whichever is less. MHSPRS also provides certain death and disability benefits. A member who terminates employment from the highway patrol and who is not eligible to receive monthly retirement benefits may request a refund of his or her accumulated employee contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Benefit provisions for MHSPRS are established by Section 25-13-1 et seq., Mississippi Code Ann. (1972) and may be amended only by the State Legislature.

A COLA payment is made to eligible retirees and beneficiaries. The COLA is equal to 3 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60, with 3 percent compounded for each fiscal year thereafter. For the year ended June 30, 2018, the total annual COLA payments for MHSPRS were \$9,980,000.

Municipal Retirement Systems: Membership in the two general Municipal Retirement Systems and the 17 Fire and Police Disability and Relief Systems was granted to all municipal employees, fire fighters, and police officers who were not already

members of PERS and who were hired prior to July 1, 1976. Two fire and police plans elected to extend the eligibility period for membership to July 1, 1987. Eligible employees hired after these periods automatically become members of PERS. The Municipal Retirement Systems were all closed to new members by July 1, 1987.

Regardless of age, participating employees who retire with at least 20 years of membership service are entitled to an annual retirement allowance payable monthly for life in an amount equal to 50 percent of their average monthly compensation and an additional 1.7 percent for each year of credited service beyond 20 years, not to exceed 66.67 percent of average monthly compensation for the two Municipal Retirement Systems and the 17 Fire and Police Disability and Relief Systems is the monthly average for the last six months of service. Certain participating employers provide a minimum monthly retirement allowance. Benefits vest upon reaching 20 years of credited service. MRS plans also provide certain death and disability benefits. Members who terminate employment from all covered employers and are not eligible to receive monthly retirement benefits may request a full refund of employee contributions. Members covered by MRS do not receive interest on their accumulated contributions. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Benefit provisions are established by Sections 21-29-1 et seq., Articles 1, 3, 5 and 7, Mississippi Code Ann. (1972) and annual local and private legislation. Statutes may be amended only by the State Legislature.

The retirees and beneficiaries of MRS plans with provisions for COLAs, who are receiving a retirement allowance on July 1 of each fiscal year, may be entitled to a COLA. This payment is equal to the annual percentage change of the Consumer Price Index (CPI) but not to exceed 2.5 percent of the annual retirement allowance for each full fiscal year of retirement. Certain MRS plans may adopt a COLA other than one linked to the change in the CPI. These additional payments will be made only when funded by the employers. For the year ended June 30, 2018, the total COLAs for MRS plans were \$5,522,000.

Supplemental Legislative Retirement Plan: Membership in SLRP is composed of all elected members of the State Legislature and the president of the Senate. This plan is designed to supplement the provisions of PERS. Those serving when SLRP became effective July 1, 1989, had 30 days to waive membership. Those elected after July 1, 1989, automatically become members. Members and employers are statutorily required to contribute certain percentages of salaries and wages as specified by the Board of Trustees.

The retirement allowance is 50 percent of an amount equal to the retirement allowance payable by PERS, determined by credited service as an elected senator or representative in the State Legislature or as president of the Senate. Benefits vest upon completion of the requisite number of membership service years in PERS. SLRP also provides certain death and disability benefits. A member who terminates legislative employment and who is not eligible to receive monthly retirement benefits may request a refund of his or her accumulated employee contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions. Benefit provisions for SLRP are established by Section 25-11-301 et seq., Mississippi Code Ann. (1972) and may be amended only by the State Legislature.

Retirees and beneficiaries of SLRP may receive COLAs calculated identically to PERS retirees and beneficiaries. For the year ended June 30, 2018, the total COLAs for SLRP were \$323,000.

Contribution Requirements

Contribution provisions for PERS, MHSPRS and SLRP are established by state statute. The adequacy of these rates is assessed annually by actuarial valuation. Contribution provisions for MRS are established by state statute and annual local and private legislation. State statutes may be amended only by the State Legislature.

The following table provides information concerning funding policies (amounts expressed in thousands):

	PERS	MHSPRS	MRS	SLRP
Contribution rates as a percent of covered payroll:				
State	15.75% *	37% *	N/A	7.4% *
Other employers	N/A	N/A	.80 – 5.82 mills****	N/A
Plan members	9%	7.25%	7% - 10%	3% **
Employer contributions made	\$ 1,018,163	\$ 15,128***	\$ 17,610	\$ 513

* In October 2012, the Board adopted a revised funding policy aimed at stabilizing the employer contribution rate and reducing the unfunded actuarial accrued liability. The revised policy established a goal to be 80% funded by 2042 and set the PERS employer rate at 15.75%, MHSPRS rate at 37%, and SLRP rate at 7.4%.

** In addition to 9% required by PERS.

*** Includes fees authorized by the State Legislature, which are reported as employer contributions in the pension trust funds. Due to Senate Bill No. 2659 enacted in 2004, an estimated additional contribution of \$3,500,000 (11.82 percent of payroll) was used to calculate the actuarially determined contributions for MHSPRS. The actual amount received in 2018 was \$3,494,000.

**** Based on assessed property values.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the State reported a liability of \$2,928,709,000 for its proportionate share of the net pension liability in PERS. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The State's proportion of the net pension liability was based on a projection of the long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At the measurement date, the State's proportion was 17.62%.

At June 30, 2018, the State reported a net pension liability of \$156,273,000 and \$3,457,000 for MHSPRS and SLRP, respectively. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Changes in the Net Pension Liability

The following table details the changes in the net pension liability from the beginning to the end of the measurement year for the single-employer plans, MHSPRS and SLRP (amounts expressed in thousands):

MHSPRS		Total Pension Liability	Plan Fiduciary Net Positon	Net Pension Liability
		(a)	 (b)	 (a) - (b)
Balances at June 30, 2017	\$	494,101	\$ 311,612	\$ 182,489
Changes for the Year:				
Service Cost		7,328		7,328
Interest		37,086		37,086
Difference between expected and				
actual experience		(5,780)		(5,780)
Changes in assumptions		(3,598)		(3,598)
Contributions - employer			14,809	(14,809)
Contributions - employee			2,147	(2,147)
Net investment income			44,499	(44,499)
Benefit payment, including refunds				
of employee contributions		(31,145)	(31,145)	0
Administrative expense			(203)	203
Net Changes		3,891	30,107	(26,216)
Balances at June 30, 2018	\$	497,992	\$ 341,719	\$ 156,273

SLRP	Total Pension Liability	F	Plan Fiduciary Net Positon	Net Pension Liability
	 (a)		(b)	 (a) - (b)
Balances at June 30, 2017	\$ 21,259	\$	15,768	\$ 5,491
Changes for the Year:				
Service Cost	433			433
Interest	1,593			1,593
Difference between expected and				
actual experience	(204)			(204)
Changes in assumptions	(868)			(868)
Contributions - employer			522	(522)
Contributions - employee			212	(212)
Net investment income			2,264	(2,264)
Benefit payment, including refunds				
of employee contributions	(1,414)		(1,414)	0
Administrative expense	 		(10)	 10
Net Changes	(460)		1,574	(2,034)
Balances at June 30, 2018	\$ 20,799	\$	17,342	\$ 3,457

152

For the year ended June 30, 2018, the State recognized pension expense of \$311,445,000 for PERS, \$20,396,000 for MHSPRS, and \$107,000 for SLRP. At June 30, 2018, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (amounts expressed in thousands):

	Deferred Outflows	Deferred Inflows
	 of Resources	of Resources
PERS		
Difference between expected and actual experience	\$ 42,869	\$ 21,321
Net difference between projected and actual earnings on pension plan investments	74	37,178
Changes in proportion	67,125	5,048
Changes of assumptions	1,268	64,563
Contributions subsequent to the measurement date	172,818	
Total PERS	284,154	128,110
MHSPRS		
Differences between expected and actual experience	2,670	4,457
Net difference between projected and actual earnings on pension plan investments		2,956
Changes of assumptions	5,379	2,775
Contributions subsequent to the measurement date	15,128	
Total MHSPRS	23,177	10,188
SLRP		
Differences between expected and actual experience		476
Net difference between projected and actual earnings on pension plan investments		158
Changes of assumptions	123	682
Contributions subsequent to the measurement date	513	
Total SLRP	636	1,316
Total	\$ 307,967	\$ 139,614

Contributions subsequent to the measurement date of \$172,818,000 for PERS, \$15,128,000 for MHSPRS and \$513,000 for SLRP reported as deferred outflows of resources, will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (amounts expressed in thousands):

	PERS		MHSPRS		SLRP
 Year ended June 30	Net Outflows & Inflows of Resources	-	Net Outflows & Inflows of Resources	-	Net Outflows & Inflows of Resources
2019	\$ 12,478	\$	1,223	\$	(439)
2020	28,519		2,730		(184)
2021	(1,199)		(1,911)		(357)
2022	(56,572)		(4,181)		(213)
Total	\$ (16,774)	\$	(2,139)	\$	(1,193)

Actuarial Assumptions

The collective total pension liability was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

	PERS	MHSPRS	SLRP
Inflation	3 %	3 %	3 %
Salary increases, including inflation	3.25% - 18.5 %	3.25% - 8.81 %	3.25 %
Investment rate of return*	7.75 %	7.75 %	7.75 %
Increases in benefits after retirement**	3 %	3 %	3 %

* net of pension plan investment expense, including inflation

** PERS and SLRP calculated 3% for each full fiscal year of retirement to age 60 (55 for those who became members before July 1, 2011), with 3% compounded for each fiscal year thereafter. MHSPRS calculated 3% simple interest to age 60, compounded each fiscal year thereafter.

Mortality rates for PERS, MHSPRS and SLRP were based on the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022, set forward one year for males with adjustments.

The actuarial assumptions for PERS, MHSPRS and SLRP used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period July 1, 2012, to June 30, 2016. The experience report is dated April 18, 2017.

The long-term expected rate of return on pension plan investments for PERS, MHSPRS and SLRP was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2017, are summarized in the following table:

	Target Asset	Long-term Expected Real
Asset Class	Allocation	Rate of Return
U.S. Broad	27 %	4.60 %
International equity	18	4.50
Emerging markets equity	4	4.75
Global	12	4.75
Fixed income	18	0.75
Real assets	10	3.50
Private equity	8	5.10
Emerging Debt	2	2.25
Cash	1	0.00
Totals	100 %	

Changes of Assumptions

For PERS, the expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected the Scale BB to 2022. Small adjustments were also made to the Mortality Table for disabled lives. The wage inflation assumption was reduced from 3.75% to 3.25%. Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were also adjusted to more closely reflect actual experience. The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.

For MHSPRS, the expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with scale BB to 2022. The wage inflation assumptions were reduced from 3.75% to 3.25%. Pre-retirement Mortality, withdrawal and disability retirements rates were also adjusted to more closely reflect actual experience. Assumed rates of salary increases were adjusted to more closely reflect actual and anticipated experience.

For SLRP, the expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022. Pre-retirement mortality rates and service retirement rates were also adjusted to more closely reflect actual experience. Assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience. The beginning of the attribution period was changed to be the first period in which a member's service accrues pension under the Supplemental Legislative Retirement Plan.

Single-Employer Benefit Plan Employees

The following employees were covered by the benefit terms of MHSPRS and SLRP at June 30, 2017:

	MHSPRS	SLRP
Inactive employees or beneficiaries currently receiving benefits	726	205
Inactive employees assumed eligible for a benefit at retirement date.	40	36
Inactive employees assumed not to receive service retirement benefits	19	20
Active employees	470	174
Totals	1,255	435

Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate of 9%, 7.25% and 3% for PERS, MHSPRS and SLRP, respectively, and that employer contributions will be made at the current employer contribution

rate 15.75%, 37% and 7.4% for PERS, MHSPRS and SLRP, respectively. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plans members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the State's proportionate share of the net pension liability using the discount rate of 7.75%, as well as what the plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate (amounts expressed in thousands):

		Current						
		1% Decrease		Discount Rate		1% Increase		
Net Pension Liability		6.75%		7.75%		8.75%		
PERS	\$	3,841,197	\$	2,928,709	\$	2,171,146		
MHSPRS		216,604		156,273		106,180		
SLRP	_	5,527		3,457		1,679		
Total	\$	4,063,328	\$	3,088,439	\$	2,279,005		

Detailed information about the PERS, MHSPRS and SLRP pension plans is available on the PERS of Mississippi website at <u>www.pers.ms.gov</u>.

Note 16 - Other Postemployment Benefits

Plan Description

The State and School Employees' Health Insurance Management Board (the Board) administers the State Life and Health Insurance Plan (the Plan) established by Section 25-15-3 et seq., Mississippi Code Ann. (1972), which may be amended only by the State Legislature. State law mandates that all state, public education, library, junior and community college and retiring employees be offered health and life benefit coverage through the Plan. The Plan provides other postemployment benefits (OPEB) as a cost-sharing multiple-employer defined benefit OPEB plan.

The 14-member Board, which administers the Plan, is comprised of the Chairman of the Workers' Compensation Commission: the State Personnel Director; the Commissioner of Insurance; the Commissioner of Higher Education; the State Superintendent of Public Education; the Executive Director of the Department of Finance and Administration; the Executive Director of the Mississippi Community College Board; the Executive Director of the Public Employees Retirement System; two appointees of the Governor; the Chairman of the Senate Insurance Committee, or his designee; the Chairman of the House of Representatives Insurance Committee, or his designee; the Chairman of the House of Representatives' Appropriations Committee, or his designee. The Board has a fiduciary responsibility to manage the funds of the Plan.

Benefits Provided

Benefits of the Plan consist of an implicit rate subsidy, which is essentially the difference between the average cost of providing healthcare benefits to retirees under age 65 and the average cost of providing healthcare benefits to all participants when premiums paid by retirees are not age-adjusted. Employees' premiums are funded primarily by their employers. Retirees must pay their own premiums, as do active employees for spouse and dependent medical coverage. The Board has the sole authority for setting life and health insurance premiums for the Plan.

Per section 12-15-15 (10) Mississippi Code Ann. (1972), a retired employee electing to purchase retiree life and health insurance must pay the full cost of such insurance premium. If the Board determined actuarially that the premium paid by the participating retirees adversely affect the overall cost of the Plan to the State, then the Board may impose a premium surcharge not to exceed 15%, upon such participating retired employees who are under the age for Medicare eligibility and who are initially employed before January 1, 2006. For participating retired employees who are under the age for Medicare eligibility and who are initially employed on or after January 1, 2006, the Board may impose a premium surcharge in an amount the Board determined actuarially to cover the full cost of insurance.

The Plan offers a base option and a select option for health benefits for non-Medicare participants. The Plan includes a separate level for Medicare eligible retirees, Medicare eligible surviving spouses and Medicare eligible dependents of retirees and surviving spouses.

Contributions

Pursuant to the authority granted by Mississippi Statue, the Board has the authority to establish and change premium rates for the participants, employers, and other contributing entities. The required premiums vary based on the plan selected and the type of participant. Employees' premiums are paid primarily by the employer. Employers do not pay premiums for retirees nor premiums for active employee spouse and dependent medical coverage. At June 30, 2018, the State's actuarially determined contributions to the OPEB plan were \$8,097,000.

OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the State reported a liability of \$188,888,000 for its proportionate share of the net OPEB liability. The liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The State's proportion of the OPEB liability was based on a projection of the long-term share of contribution to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At the measurement date the State's proportion was 24.07%.

For the year ended June 30, 2018, the State recognized OPEB expense of \$8,693,000. At June 30, 2018, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (amounts expressed in thousands):

	I	Deferred Outflow of Resources	Deferred Inflow of Resources
Changes in proportion	\$	9,479	\$ 13,583
Changes in assumptions			9,616
Contributions subsequent to the measurement date		8,097	
Total	\$	17,576	\$ 23,199

Contributions subsequent to the measurement date of \$8,097,000 reported as deferred outflows of resources will be recognized as a reduction of the collective net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (amounts expressed in thousands):

Year ended June 30	Net Outflows & Inflows of Resources	
2019	\$ (2,407)	
2020	(2,407)	
2021	(2,407)	
2022	(2,407)	
2023	(2,407)	
Thereafter	 (1,685)	
Total	\$ (13,720)	

Actuarial Assumptions

The collective total OPEB liability was determined by an actuarial valuation as of June 30, 2017, using the following actuarial assumptions, applied to the periods included in the measurement:

Inflation	3%
Salary increases, including inflation	3.25% - 18.5%
Investment rate of return	3.56%
Municipal bond index rate	3.56%
Single equivalent interest rate	3.56%
Healthcare cost trend rates	.75% for 2017 decreasing to an ultimate rate of 5% by 2023
Retirement age – by employee type shown:	
Highway safety patrol	Any age with 25 years of service Age 55 with at least 5 years of service Age 45 with at least 20 years of service
General state and school employees hired before July 1, 2011	Any age with 25 years of service or hired before July 1, 2007 Age 60 with at least 4 years of service or hired after July 1, 2007 Age 60 with at least 8 years of service

General state and school employees hired on or after July 1, 2011

Any age with 30 years of service or Age 60 with at least 8 years of service

Both pre-retirement and post-retirement mortality rates were based on the RP 2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022, male rates set forward one year and adjusted to 106% for males at all ages, and females adjusted to 90% for ages less than 76, 95% for age 76, 105% for age 78 and 110% for ages 79 and greater. Post-disability mortality rates were based on the RP 2014 Disabled Retiree Mortality Table set forward four years for males and three years for females.

The demographic actuarial assumptions used in the June 30, 2017 valuation were based on the results of the last actuarial experience study, dated April 18, 2017.

The remaining actuarial assumptions (e.g., initial per capital costs, healthcare cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2017 valuation were based on a review of recent plan experience done concurrently with the June 30, 2017 valuation.

Changes in Actuarial Assumptions and Methods

The discount rate was changed from 3.01% for the prior measurement date to 3.56% for the current measurement date.

Discount Rate

The discount rate used to measure the total OPEB liability was 3.56%. The discount rate determination was based on an average of the Bond Buyer General Obligation 20 year Municipal Bond Index Rates during the month of June published at the end of each week by the Bond Buyer. Since there were no assets in a trust on the measurement date, there is no long-term expected return determination, and there was no projection of cash flows for the plan. The OPEB plan was projected to be depleted in 2017.

Sensitivity of the State's proportionate Share of the collective OPEB Liability to Changes in the Discount Rate

The following table presents the State's proportionate share of the net OPEB liability using the discount rate of 3.56%, as well as what the State's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percent-point lower (2.56%) or 1-percentage-point higher (4.56%) than the current rate (amounts expressed in thousands):

	1% Decrease 2.56%	Current Discount Rate 3.56%	1% Increase 4.56%
State's proportionate share of net OPEB liability	\$ 193,876	\$ 188,888	\$ 185,173

Sensitivity of the State's proportionate Share of the collective OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following table presents the State's proportionate share of the net OPEB liability using the healthcare trend rate of 7.75% decreasing to 5% by 2023, as well as what the State's proportionate share of the net OPEB liability would be if it were calculated using a healthcare trend rate that is 1-percentage-point lower (6.75% decreasing to 4%) or 1-percentage-point higher (8.75% decreasing to 6%) than the current rate (amounts expressed in thousands):

	Current Discount						
		1% Decrease (6.75% decreasing to 4%)		Rate (7.75% decreasing to 5%)		1% Increase (8.75% decreasing to 6%)	
State's proportionate share of net OPEB liability	\$	174,450	\$	188,888	\$	205,369	

Additional Accounting Policies, Actuarial Assumptions and Methods

Since the OPEB Plan does not issue separate financial statements, note disclosures are required to be presented in accordance with GASB 74. Financial Reporting for Postemployment Benefit Plans Other than Pension Plans are being reported in the State's notes to the financial statements.

Retired members and surviving spouses	
currently receiving benefits	25,562
Retire members receiving life insurance only	7,122
Active members	108,918
Total	141,602

157

Mississippi

The components of the net OPEB liability of the OPEB Plan at June 30, 2018, were as follows (amounts expressed in thousands):

Total OPEB liability	\$	774,550
Plan fiduciary net position	_	1,000
Net OPEB liability	\$	773,550
Fiduciary net position as a percentage of the total OPEB liability		0.13%
the total OPEB liability		0.13%

Actuarial Assumptions

The total OPEB liability as of June 30, 2018, was determined based on an actuarial valuation prepared as of June 30, 2018 using the following actuarial assumptions:

Actuarial Cost Method Inflation Future ad hoc cost-of-living increases Salary increases Discount rate – based on municipal bond index rate at:	Entry Age 3% None 3.25% - 18.5% Measurement date 3.89% Measurement date prior year 3.56%				
Healthcare cost trend rates	7.25% for 2018 decreasing to an ultimate rate of 4.75% by 2028				
Experience study Retirement age – by employee type shown: Highway safety patrol	April 18, 2017 Any age with 25 years of service Age 55 with at least 5 years of service Age 45 with at least 20 years of service				
General state and school employees hired before July 1, 2011	Any age with 25 years of service or hired before July 1, 2007 Age 60 with at least 4 years of service or hired after July 1, 2007 Age 60 with at least 8 years of service				
General state and school employees hired on or after July 1, 2011	Any age with 30 years of service or Age 60 with at least 8 years of service				

Mortality Rates – RP 2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022 with male rates set forward one year and adjusted by 106% for males at all ages and as follows for females: 90% for ages less than 76, 95% for age 76, 105% for age 78 and 110% for ages 79 and greater. Post-disability mortality rates were based on the RP 2014 Disabled Retiree Mortality Table set forward four years for males and three years for females.

Contributions

Pursuant to the authority granted by Mississippi Statute, the Board has the authority to establish and change premium rates for the participants, employers and other contributing entities. Employees' premiums are funded primarily by their employers. Retirees must pay their own premiums, as do active employees for spouse and dependent medical coverage. A trust was created June 28, 2018 for the purpose of funding for the OPEB Plan. At June 30, 2018, the actuarially determined contributions of the OPEB plan were \$33,449,000.

Discount Rate

The discount rate used to measure the total OPEB liability at June 30, 2018 was based on an average of the Bond Buyer General Obligation 20-year Municipal Bond Index Rates during the month of June published at the end of each week by the Bond Buyer.

Equity in internal investment pool is cash equity with the Office of State Treasurer and consists of pooled demand deposits and investments recorded at fair value. The OPEB Plan's investment policies are disclosed in Note 4, Deposits and Investments.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the employer calculated using the discount rate of 3.89%, as well as what the Plan's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.89%) or 1-percentage point higher (4.89%) than the current rate (amounts presented in the thousands):

158

	1% Decrease 2.89%		Current Discount Rate 3.89%		1% Increase 4.89%	
Net OPEB liability	\$ 857,461	\$	773,550	\$	701,384	

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the net OPEB Liability of the employer calculated using the healthcare cost trend rate of 7.25% decreasing to 4.75%, as well as what the net OPEB Liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (6.25% decreasing to 3.75%) or 1-percentage-point higher (8.25% decreasing to 5.75%) than the current healthcare cost trend rates (amounts shown in thousands):

		Current Discount								
	1% Decrease (6.25% decreasing to 3.75%)			Rate (7.25% decreasing to 4.75%)	1% Increase (8.25% decreasing to 5.75%)					
Net OPEB liability	\$	716,563	\$	773,550	\$	838,271				

Detailed information about the Life and Health OPEB Plan is available on the Department of Finance and Administration website at <u>www.dfa.ms.gov</u>.

Note 17 - Commitments

A. Operating Leases

The State has entered into numerous agreements to lease land and buildings which are classified as operating leases. These agreements generally contain the provision that, at the expiration date of the lease, the State may renew the operating lease on a month-to-month basis. It is expected that in the normal course of business most of these leases will be renewed or replaced by similar leases. Although the lease terms vary, most leases are subject to annual appropriation by the State Legislature to continue the lease obligation. If an appropriation is reasonably assured, leases are considered non-cancellable for financial reporting purposes. Any escalation clauses, sublease rentals, and contingent rents are considered immaterial to the future minimum lease payments and current rental expenditures.

Operating lease payments are recorded as expenditures or expenses when paid or incurred. Future minimum commitments due under non-cancellable operating leases for land and buildings as of June 30, 2018 are as follows (amounts expressed in thousands):

Year Ending June 30	Amount
2019	21,976
2020	20,168
2021	15,169
2022	12,541
2023	11,392
2024 - 2028	43,600
2029 - 2033	30,496
2034 - 2038	3,306
2039 - 2043	168
2044 - 2048	90
2049 - 2053	 12
Total Minimum Commitments	\$ 158,918

Expenditures for rental of land and buildings under operating leases for the year ended June 30, 2018 amounted to \$23,410,000.

B. Contracts

At June 30, 2018, the Department of Transportation had contracts outstanding of approximately \$967,514,000 with performance continuing during fiscal year 2019. Of this amount \$27,130,000 is related to local public agencies, such as planning and development districts, counties and municipalities. These contracts were primarily for construction, repair and maintenance and will be paid through the General Fund. Approximately 64 percent of future expenditures related to

these commitments are expected to be reimbursed from proceeds of federal grants when the actual costs are incurred. The remaining portion will be funded by specific gasoline taxes.

The State Aid Road Division had contracts of \$84,250,000 outstanding at June 30, 2018 for construction, repair and maintenance of state and county roads. These contracts will be paid through the General Fund. Approximately 24 percent of future expenditures related to these commitments are expected to be reimbursed from proceeds of federal grants when the actual costs are incurred. The remaining portion will be funded by specific tax levies.

The Office of Building, Grounds and Real Property Management had outstanding construction, repair and maintenance contracts of \$113,343,000 at June 30, 2018. These contracts will be paid from the General fund.

The Military Department had contracts outstanding of approximately \$27,845,000 at June 30, 2018. Approximately 100 percent of future expenditures related to these commitments are expected to be reimbursed from proceeds of federal grants when the actual costs are incurred.

The Port Authority at Gulfport (a major enterprise fund) had contracts outstanding of approximately \$13,494,000 at June 30, 2018. These contracts were primarily for construction costs related to the port. These contracts will be paid from Port Authority at Gulfport's revenues and federal grants.

The Department of Information Technology Services had contracts outstanding of approximately \$13,570,000 at June 30, 2018. These contracts were primarily for the construction of the Mississippi Wireless Information Network state-wide digital trunked land mobile radio system including enhancements which add broadband data capabilities. Future expenditures related to these commitments are expected to be reimbursed from proceeds of federal grants when the actual costs are incurred.

C. Encumbrances

Encumbrances represent executed but unperformed purchase orders that are reported within governmental funds as restricted, committed, or assigned fund balance. At June 30, 2018; the encumbrance amounts in the General Fund were \$27,565,000.

Note 18 - Risk Management

The State has elected to finance most exposures to risk through the retention of risk. The exposures to risk retained by the State are health and life benefits, tort liability, unemployment benefits and workers' compensation benefits. The State utilizes the Risk Management Fund to account for these activities with the noted exception in workers' compensation benefits. Estimates of liabilities for incurred but unpaid claims include both reported and unreported insured events. Nonincremental claims adjustment expenses have not been included as part of the liability for claims and judgments due to immateriality. Changes in claim liabilities for fiscal years 2017 and 2018 are as follows (amounts expressed in thousands):

	Claims and									
	Beginning			Changes		.		Ending Balance		Due within
		Balance		in Estimates		Payments		Balance		one year
2017	\$	135,726	\$	914,062	\$	866,402	\$	183,386	\$	141,947
2018		183,386		809,300		819,002		173,684		137,179

Health and Life Benefits: The State has elected to manage the health benefit through the retention of all exposure. The life benefit is purchased from a commercial insurance company for death benefit distribution under tax law but management of the risk is accomplished by self insuring within an insured shell. State law mandates that all state, public education, library, junior and community college and retiring employees be offered health and life benefit coverage through this plan.

Estimates of the liability for unpaid claims are actuarially determined using the development method. This method uses past observed patterns of time between claim incurred and payment to estimate incurred claims from available claims data. Liabilities are based on the estimated ultimate cost of settling the claims, including inflation and other factors, and provisions for estimated claims adjustment expenses.

Tort Liability: The State manages tort claims through the retention of all liability exposure. The State Legislature created the Tort Claims Board to administer these claims beginning in fiscal year 1994. Statutory regulations provide some protection, as well as a limitation of liability, for claims filed against state agencies and state employees. There is some limited purchase of commercial insurance by state agencies for excess auto liability and other lines of coverage to fulfill some contractual requirements on out of state operations. There is purchase of insurance for protection of some fleet vehicles, some specified watercraft and specific fixed wing aircraft. In the last three years, settled claims have not exceeded commercial coverage.

Claims payments are financed through an annual assessment to all state agencies based on amount of payroll and past loss history. Estimates of the liability for unpaid claims are actuarially determined based on observed patterns of claims payments, as well as the experience of similar programs in other states.

Unemployment Benefits: Unemployment benefits are established in statute and administered by the Mississippi Department of Employment Security. The State elects to manage the financial risk for state agencies through retention of all liability exposure. Benefits are financed through collection of premiums from agencies, which provides a stable cash flow for payment of claims.

Estimates of the liability for unpaid claims are actuarially determined based on observed patterns of claims payments, adjusted for changes in covered payrolls.

Workers' Compensation Benefits: Workers' compensation benefits are established in statute and the rules and regulations are established by the Mississippi Workers' Compensation Commission and the Mississippi State Agencies Self-Insured Workers' Compensation Trust Board of Trustees. Three major state agencies have been granted exemption from participation in the Risk Management Fund.

The exposure of risk in the Risk Management Fund is financed mostly through retention of all exposure, with limited purchase of commercial excess insurance. The benefits are financed through collection of premiums, based on an actuarial estimate, from agencies which provides a stable cash flow for claims payments. In the last three years, settled claims have not exceeded commercial coverage. Estimates of the liability for unpaid claims are actuarially determined based on observed patterns of claims payments and case reserves development. Liabilities are based on the ultimate costs of settling claims, including inflation and other factors, and include provisions for estimated claims adjustment expenses.

Exempted state agencies cover all claim settlements and judgments with the resources of the General Fund. Claim expenditures and estimates of the related liability are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated.

Note 19 - Contingencies

A. Federal Grants - The State has received federal grants for specific purposes that are subject to audit by the grantor agencies. Entitlements to these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowance resulting from an audit may become a liability of the State. The State estimates that the ultimate disallowance pertaining to these grants, if any, will be immaterial to its overall financial condition.

The Division of Medicaid, which is reported within the General Fund, has been notified by the Centers for Medicare and Medicaid Services (CMS) of a potential claim relative to potential overpayments by CMS under Medical Assistance Program grants that may have been made between 1981 and 2009 to a number of states, including Mississippi. CMS is working with the Division of Medicaid, as well as various other states, to resolve the discrepancies. The amount questioned by CMS for the Division of Medicaid is approximately \$28,000,000.

Additionally, the Division of Medicaid has also been notified by the Office of the Inspector General (OIG) of a potential claim relative to unallowable school-based Medicaid administrative costs for federal fiscal years 2010 through 2012. The amount determined by the OIG to be unallowable was \$21,200,000.

- B. Litigation The State is party to various legal proceedings that arise in the normal course of governmental operations. The State's legal counsel believes that they will be successful in defending the State and its agencies in a majority of these cases. Of the \$107,926,000 in pending litigation, the State's legal counsel considers \$14,030,000 probable and reasonably estimable that a liability has occurred and is reported in the accompanying financial statements. The State's legal counsel also believes that the remaining \$93,896,000 is reasonably possible that a liability has been incurred as of June 30, 2018. In the opinion of the State, the ultimate disposition of these matters will not have a material adverse effect on the financial position of the State.
- **C.** Loan Guarantees The Mississippi Development Authority (MDA), a state agency, is authorized by state law to provide loan guarantees through the Small Business Loan Guarantee Program, funded through the Federal State Small Business Credit Initiative, in order to increase the amount of capital made available by private lenders to small businesses. The length of the loan guarantees range from one to fifteen years. In the case of default by the borrower, following the private lender's normal collection procedures to seek reimbursement from the loan recipient, the State pays the private lender a percentage of the outstanding loan amount. At June 30, 2018, outstanding MDA loan guarantees totaled \$32,405,000.

The State has co-signed promissory notes issued by the Federal Emergency Management Agency under the Federal Community Disaster Loan Program (CDL) on behalf of local governments as authorized by state law. The program provides operational funding for local governments or political subdivisions of the State that incurred a significant loss in revenue due to a presidentially declared disaster that adversely affected their ability to provide essential governmental services. At June 30, 2018, the remaining outstanding CDL loan guarantees totaled \$4,656,000. The loan guarantees expire January 7, 2020.

D. Conduit Debt - The Mississippi Development Bank (a nonmajor component unit) issues special obligation bonds in order to provide funds for making loans to governmental units. Although the special obligation bonds bear the name of the Bank, the Bank is not responsible for the payment of the bonds but rather the bonds are secured only by the payments agreed to be paid by the governmental units under the terms of the loan agreements. The outstanding balance of special obligation bonds issued by the Bank was approximately \$2,127,946,000 at June 30, 2018. The faith, credit and taxing power of the State and the Bank are not pledged to the payment of such bonds.

Note 20 - Subsequent Events

The Working Cash Stabilization Reserve Account and budgetary special funds may be used to meet cash flow needs throughout the year when the General Fund experiences projected cash flow deficiencies. As a result, the General Fund has accumulated borrowings outstanding of \$349,057,000 from the Working Cash Stabilization Reserve Account and \$158,213,000 from budgetary special funds as of April 12, 2019. In order to comply with State law, all borrowings must be repaid by the end of the fiscal year.

Draws of \$135,000,000 were made subsequent to year end on the Taxable General Obligation Note, Series 2018A issued March 29, 2018. The note was issued to provide funding for the Major Economic Impact. A principal payment of \$34,000,000 was made in November 2018 from proceeds of the General Obligation Bonds, Series 2018B. The note matured April 1, 2019 and the \$101,000,000 balance was paid off with a draw from Taxable General Obligation Note, Series 2019A as discussed below.

Subsequent to year end, the State issued the following bonds and notes:

General Obligation Bonds, Series 2018A totaling \$188,860,000 dated October 17, 2018. These bonds were issued to provide funding for Capital Improvements. These bonds have principal payments beginning in November 2030 and will mature serially through November 2038 with interest payments ranging from 4% to 5%.

Taxable General Obligation Bonds, Series 2018B, totaling \$152,975,000 dated October 17, 2018. These bonds were issued for the purpose of funding Capital Improvements, Major Economic Impact, ACE Fund, and Business Investment. These bonds have principal payments beginning in November 2020 and will mature serially through November 2030 with interest payments ranging from 3.308% to 4.001%.

Gaming Tax Revenue Bonds, Series 2019A totaling \$268,775,000 dated January 10, 2019. These bonds were issued for the purpose of the State's Emergency Road and Bridge Repair Fund and Transportation and Infrastructure Improvements Fund. These bonds have principal payments beginning in October 2019 and will mature serially through October 2038 with interest payments ranging from 4% to 5%.

Taxable General Obligation Note, Series 2019A totaling \$198,000,000 dated March 28, 2019. This note was issued to provide funding for the Major Economic Impact Act. The current outstanding balance is \$101,000,000. Interest is payable semi-annually on the outstanding balance at the rate of 3.25%. The principal balance is payable on or before March 15, 2022.

Notes to Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) - All Budgetary Funds

For the Year Ended June 30, 2018

The Budgetary Comparison Schedule - Budget and Actual (Non-GAAP Basis) - All Budgetary Funds presents the original legally adopted budget, as well as comparisons of the final legally adopted budget with actual data on a budgetary basis. The State's basis of budgeting is the cash basis plus commitments. The State has established three budgetary fund groups to account for its budgetary activities and functions. The General Fund group is established to receive and distribute general tax revenues and other general fund revenues and interest generated thereon. The Education Enhancement Fund group is established to receive specific tax revenues to support various educational programs. The Special Fund group is established to receive federal grants, fees, proceeds from the sale of goods and services, taxes levied for specific purposes and interest generated thereon, and to support the functional activities of the agencies that generate such revenues.

General Fund and Education Enhancement Fund original budget revenues represent the General Fund and Education Enhancement Fund revenue estimates adopted by the Legislative Budget Office at the date of sine die adjournment. Special Fund revenue estimates include anticipated revenues during the year and the amount of beginning cash balances on hand at the beginning of the year that are anticipated to be expended for special fund purposes.

Due to the complexity of the State's budget, a separate *Annual Report of Budgetary Basis Expenditures* has been prepared to present final budget to actual comparisons at the legal level of control. This budgetary report is available at the Department of Finance and Administration.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of differences between budgetary and GAAP presentations for the year ended June 30, 2018 is presented below (amounts expressed in thousands):

Budgetary Funds		General		cation cement	Special	
Financial Statement Major Fund		General	_			
Net Change in Budgetary Fund Balances	\$	401	\$	66,789 \$	(557,613)	
Reclassifications:						
Budgetary fund excesses are reclassified						
to the General Fund for GAAP reporting		492,379	(66,789)	559,168	
The State reports amounts in the budgetary						
funds that are reported in other major and						
nonmajor funds					(1,555)	
Adjustments:						
The financial reporting fund structure includes funds						
that are not part of the budgetary fund structure		133,406				
Financial statements are presented using a modified						
accrual basis of accounting while budgetary basis						
is cash plus commitments		(616,352)				
Net Change in GAAP Fund Balances	\$	9,834	\$	0\$	0

Schedule of Employer Contributions

Mississippi Highway Safety Patrol Retirement System

Last 10 Fiscal Years (Amounts Expressed in Thousands)*

	 2018	2017	2016	2015
Actuarially required employer contribution	\$ 15,128 \$	14,809 \$	14,755 \$	13,695
Contributions in relation to actuarially required contribution	 (15,128)	(14,809)	(14,755)	(13,695)
Contribution deficiency (excess)	\$ 0 \$	0\$	0\$	0
Covered payroll	\$ 29,555 \$	28,845 \$	27,380 \$	25,505
Actual contributions as a percentage of covered payroll	51.19%	51.34%	53.89%	53.7%

Notes to Schedule of Employer Contributions:

Method and assumptions used in calculations of actuarially determined contributions. The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, 2016, two years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method	Entry Age				
Amortization method Level percentage of payroll, open					
Remaining amortization period	42.9 years				
Asset valuation method	5-year smoothed market				
Price Inflation	3%				
Salary increase	4.25% to 9.31%, including inflation				
Investment rate of return	7.75%, net of pension plan investment expense, including inflation				

Other information:

Based on the funding policy adopted by the PERS Board of Trustees, the PERS Board and MHSPRS Administrative Board adopted an employer contribution rate of 49.08 percent of annual compensation effective July 1, 2018, and the amortization period is to be calculated on an open basis. This change has been incorporated into the actuarial valuation.

*Only four fiscal years are presented because 10-year data is not yet available.

Actual contributions as a percentage of covered payroll	15.75%	15.75%	15.75%	15.75%

Notes to Schedule of Employer Contributions:

Method and assumptions used in calculations of actuarially determined contributions. The actuarially determined contribution rates in the schedule of employer contributions are calculated as of June 30, 2016, two years prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine the most recent contribution rate reported in that schedule:

Actuarial cost method	Entry Age
Amortization method	Level percentage of payroll, open
Remaining amortization period	36.6 years
Asset valuation method	5-year smoothed market
Price Inflation	3%
Salary increase	3.75% to 19%, including inflation
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

Other information:

The employer contribution rate of 17.4 percent of annual compensation for the fiscal year ending June 30, 2020, was approved by the PERS Board of Trustees at the June, 2018 Board meeting. The new funding policy for the System was adopted by the Board at the same meeting. The funding policy sets the funding goals, objectives, and metrics for possible changes to the contribution rate for prospective fiscal years. This change has been incorporated into the actuarial valuation.

*Only four fiscal years are presented because 10-year data is not yet available.

APPENDIX C

FORMS OF CONTINUING DISCLOSURE CERTIFICATES

[THIS PAGE INTENTIONALLY LEFT BLANK]

CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (this "Disclosure Certificate") is executed and delivered by the State of Mississippi (the "Issuer" or the "State") in connection with the issuance of the \$169,700,000 State of Mississippi General Obligation Bonds, Series 2019B (the "Series 2019 Bonds"). The Series 2019 Bonds are being issued pursuant to a resolution of the State Bond Commission of the State dated September 3, 2019 (the "Resolution"). The Issuer covenants and agrees as follows:

SECTION 1. Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by the Issuer for the benefit of the holders of the Series 2019 Bonds and the beneficial owners of the Series 2019 Bonds and in order to assist the Participating Underwriters in complying with SEC Rule 15c2-12(b)(5)(i)(C).

SECTION 2. Definitions. In addition to the definitions set forth in the Resolution, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined herein, the following terms shall have the following meanings:

"Annual Report" shall mean any Annual Report provided by the Issuer pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

"Dissemination Agent" shall mean HTS Continuing Disclosure Services, a Division of Hilltop Securities, Inc., Dallas, Texas, and any successors thereto, which has been designated by the Department of Finance and Administration, an agency of the State, to serve as Dissemination Agent to the State.

"EMMA" shall mean the Electronic Municipal Market Access System found at http://emma.msrb.org which is the electronic format prescribed by the MSRB pursuant to the Rule.

"Listed Events" shall mean any of the events listed in Section 5 of this Disclosure Certificate.

"MSRB" shall mean the Municipal Securities Rulemaking Board. The electronic filings with the MSRB shall be through EMMA.

"Participating Underwriters" shall mean any of the original underwriters of the Series 2019 Bonds required to comply with the Rule.

"Repository" shall mean the MSRB and each State Repository, if any.

"Rule" shall mean Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as in effect on the date hereof.

"State Repository" shall mean any public or private repository or entity designated by the State as a state repository for the purpose of the Rule. As of the date of this Disclosure Certificate, there is no State Repository.

SECTION 3. Provision of Annual Reports. The Issuer shall, or shall cause the Dissemination Agent to, not later than February 1 of each year, provide to each Repository an Annual Report which is consistent with the requirements of Sections 3 and 4 of this Disclosure Certificate. Not later than fifteen (15) business days prior to said date, the Issuer shall provide the Annual Report to the Dissemination Agent. The Annual Report may be submitted as a single document or as separate documents comprising a package and may cross-reference other information as provided in Sections 3 and 4 of this Disclosure Certificate; provided that the audited financial statements of the Issuer may be submitted separately from the balance of the Annual Report. If the audited financial statements of the Issuer are publicly unavailable on February 1 of each year, the Issuer agrees to provide unaudited financial statements and such audited financial statements if and when publicly available.

If the Issuer is unable to provide the Repositories an Annual Report by the date required in the immediately preceding paragraph, the Issuer shall send a notice to each Repository.

The Dissemination Agent shall determine each year prior to the date for providing the Annual Report the name and address of each Repository.

SECTION 4. Content of Annual Reports. The Issuer's Annual Report shall contain the Comprehensive Annual Financial Report of the State prepared in conformity with generally accepted accounting

principles as prescribed by the Governmental Accounting Standards Board (the "CAFR"), including operating data of the type included in the Issuer's most recent CAFR dated June 30, 2018 (the "Operating Data"). If the CAFR starts excluding the Operating Data, then the Issuer's Annual Report shall contain the CAFR and the Operating Data, in separate format, to the extent such information is prepared by, or available to, the Issuer.

SECTION 5. Reporting of Significant Events.

(a) This Section 5 shall govern the giving of notices of the occurrence of any of the following events in a timely manner not in excess of ten (10) business days after the occurrence thereof. All events mandated by the Rule are listed below; however, some may not apply to the Series 2019 Bonds:

- (1) Principal and interest payment delinquencies;
- (2) Non-payment related defaults, if material;
- (3) Unscheduled draws on debt service reserves reflecting financial difficulties;
- (4) Unscheduled draws on the credit enhancements reflecting financial difficulties;
- (5) Substitution of credit or liquidity providers or their failure to perform;
- (6) Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the security, or other material events affecting the tax status of the Series 2019 Bonds;
- (7) Modification to rights of security holders, if material;
- (8) Bond calls, if material, and tender offers;
- (9) Defeasances;
- (10) Release, substitution or sale of property securing repayment of the Series 2019 Bonds, if material;
- (11) Rating changes;
- (12) Bankruptcy, insolvency, receivership or similar event of the State¹;
- (13) Consummation of a merger, consolidation, or acquisition involving the State or the sale of all or substantially all of the assets of the State, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;
- (14) The appointment of a successor or additional trustee or the change of name of a trustee, if material;

¹ For the purposes of the event identified in subparagraph (b)(5)(i)(C)(12) of the Rule, the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for an obligated person in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the obligated person, or if such jurisdiction has been assumed by leaving the existing governing body and official or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the obligated person.

- (15) Incurrence of a financial obligation² of the obligated person, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the Issuer, any of which affect security holders, if material; and
- (16) Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation² of the obligated person, any of which reflect financial difficulties.

SECTION 6. Termination of Reporting Obligation. The Issuer's obligations under this Disclosure Certificate shall terminate upon the legal defeasance or payment in full of all of the Series 2019 Bonds.

SECTION 7. Dissemination Agent. The Issuer has engaged the Dissemination Agent to assist it in disseminating information hereunder. The Issuer shall send the information required by Sections 3 and 4 hereof and event notices required by this Disclosure Certificate to the Dissemination Agent. Unless otherwise agreed to, the Dissemination Agent shall, as soon as practicable but not later than five (5) days after receipt of such information, forward the same to (i) the MSRB and State Repository, if any, as described herein, and (ii) any beneficial holder of the Series 2019 Bonds who requests such information in writing to the Dissemination Agent or the Issuer. The Dissemination Agent shall have no duty to review the materials described in this paragraph prior to disseminating such materials.

The initial Dissemination Agent shall be HTS Continuing Disclosure Services, a Division of Hilltop Securities, Inc., Dallas, Texas. The Issuer may discharge the Dissemination Agent or any successor Dissemination Agent, but in such event shall take steps necessary to appoint a successor Dissemination Agent who shall be responsible for undertaking all responsibilities of dissemination hereunder.

SECTION 8. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, the Issuer may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, if such amendment or waiver is supported by an opinion of counsel expert in federal securities laws, to the effect that such amendment or waiver would not, in and of itself, cause the undertakings herein to violate the Rule if such amendment or waiver had been effective on the date hereof but taking into account any subsequent change in or official interpretation of the Rule.

SECTION 9. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the Issuer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the Issuer chooses to include any information in any notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the Issuer shall have no obligation under this Disclosure Certificate to update such information or include it in any future notice of occurrence of a Listed Event.

SECTION 10. Default. In the event of a failure of the Issuer to comply with any provision of this Disclosure Certificate any holder or beneficial owner of a Series 2019 Bonds or the Participating Underwriter may take such actions as may be necessary and appropriate, including seeking mandamus or specific performance by court order, to cause the Issuer to comply with its obligations under this Disclosure Certificate shall not be deemed an "event of default" under the Resolution, and the sole remedy under this Disclosure Certificate in the event of any failure of the Issuer to comply with this Disclosure Certificate shall be an action to compel performance.

SECTION 11. Duties, Immunities and Liabilities of Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate. The obligations of the

 $^{^2}$ For purposes of the events identified in subparagraphs (b)(5)(i)(C)(15) and (16) of the Rule, the term "financial obligation" is defined to mean a (A) debt obligation; (B) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (C) a guarantee of (A) or (B). The term "financial obligation" does not include municipal securities as to which a final official statement has been otherwise provided to the MSRB consistent with the Rule. In complying with Listed Events (15) and (16), the County intends to apply the guidance provided by the Rule or other applicable federal securities law, SEC Release No. 34-83885 (August 20, 2018) and any future guidance provided by the SEC or its staff.

Issuer under this Section 11 shall survive resignation or removal of the Dissemination Agent and payment of the Series 2019 Bonds.

SECTION 12. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the Issuer, the Dissemination Agent, the Participating Underwriters, holders from time to time of the Series 2019 Bonds, and beneficial owners of the Series 2019 Bonds and shall create no rights in any other person or entity.

SECTION 13. Prior Disclosure. The Issuer is current in all material respects with its previous continuing disclosure undertakings under the Rule. However, there have been some instances in the previous five years in which the Issuer filed its annual undertakings late. Due to the change in the Issuer's accounting system, although the Issuer's unaudited financial statements or partial unaudited financial statements were filed timely along with the annual reports, the Issuer's CAFR for fiscal year 2014 was not filed on EMMA until February 24, 2015, the Issuer's CAFR for fiscal year 2015 was not filed on EMMA until May 31, 2016, the Issuer's CAFR for fiscal year 2016 was not filed on EMMA until May 5, 2017, and amended on May 15, 2017, the Issuer's CAFR for fiscal year 2017 was not filed on EMMA until March 15, 2018, and the State's CAFR for fiscal year 2018 was not filed on EMMA until April 18, 2019. For fiscal year 2016, the Issuer filed partial unaudited financial statements on February 1, 2017, for fiscal year 2017, the Issuer filed partial unaudited financial statements on December 28, 2017, and for fiscal year 2018, the State filed partial unaudited financial statements on February 1, 2019. Updated information was filed on EMMA on October 22, 2018. There have been instances when the Issuer's unaudited financial statements did not contain an update of all of the information normally included therein due to its unavailability at the time of filing. When such information has become available, the Issuer has subsequently amended its filings to update the information not available at the time of its original filing. Under one of its continuing disclosure agreements, the Issuer is required to file its CAFR earlier than it is required to do so under its other continuing disclosure agreements, and the Issuer has failed to meet this obligation on multiple occasions. Likewise, the Issuer has in the past failed to timely file certain event notices such as ratings changes and refunding notices and has also on occasion failed to link its filings to all of its CUSIPs. The Issuer has taken steps to ensure that it will timely comply with all undertakings in the future. Specifically, the Issuer has approved a "State of Mississippi Debt Management Policy" which provides detailed procedures for the timely filing of continuing disclosure by the Issuer. Also, the Issuer has engaged the Dissemination Agent to assist compliance with the terms of its undertakings.

Date: October 23, 2019

STATE OF MISSISSIPPI

By:

Governor and Ex officio Chairman of the State Bond Commission

CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (this "Disclosure Certificate") is executed and delivered by the State of Mississippi (the "Issuer" or the "State") in connection with the issuance of the \$235,840,000 State of Mississippi Taxable General Obligation Bonds, Series 2019C (the "Series 2019 Bonds"). The Series 2019 Bonds are being issued pursuant to a resolution of the State Bond Commission of the State dated September 3, 2019 (the "Resolution"). The Issuer covenants and agrees as follows:

SECTION 1. Purpose of the Disclosure Certificate. This Disclosure Certificate is being executed and delivered by the Issuer for the benefit of the holders of the Series 2019 Bonds and the beneficial owners of the Series 2019 Bonds and in order to assist the Participating Underwriters in complying with SEC Rule 15c2-12(b)(5)(i)(C).

SECTION 2. Definitions. In addition to the definitions set forth in the Resolution, which apply to any capitalized term used in this Disclosure Certificate unless otherwise defined herein, the following terms shall have the following meanings:

"Annual Report" shall mean any Annual Report provided by the Issuer pursuant to, and as described in, Sections 3 and 4 of this Disclosure Certificate.

"Dissemination Agent" shall mean HTS Continuing Disclosure Services, a Division of Hilltop Securities, Inc., Dallas, Texas, and any successors thereto, which has been designated by the Department of Finance and Administration, an agency of the State, to serve as Dissemination Agent to the State.

"EMMA" shall mean the Electronic Municipal Market Access System found at http://emma.msrb.org which is the electronic format prescribed by the MSRB pursuant to the Rule.

"Listed Events" shall mean any of the events listed in Section 5 of this Disclosure Certificate.

"MSRB" shall mean the Municipal Securities Rulemaking Board. The electronic filings with the MSRB shall be through EMMA.

"Participating Underwriters" shall mean any of the original underwriters of the Series 2019 Bonds required to comply with the Rule.

"Repository" shall mean the MSRB and each State Repository, if any.

"Rule" shall mean Rule 15c2-12(b)(5) adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as in effect on the date hereof.

"State Repository" shall mean any public or private repository or entity designated by the State as a state repository for the purpose of the Rule. As of the date of this Disclosure Certificate, there is no State Repository.

SECTION 3. Provision of Annual Reports. The Issuer shall, or shall cause the Dissemination Agent to, not later than February 1 of each year, provide to each Repository an Annual Report which is consistent with the requirements of Sections 3 and 4 of this Disclosure Certificate. Not later than fifteen (15) business days prior to said date, the Issuer shall provide the Annual Report to the Dissemination Agent. The Annual Report may be submitted as a single document or as separate documents comprising a package and may cross-reference other information as provided in Sections 3 and 4 of this Disclosure Certificate; provided that the audited financial statements of the Issuer may be submitted separately from the balance of the Annual Report. If the audited financial statements of the Issuer are publicly unavailable on February 1 of each year, the Issuer agrees to provide unaudited financial statements and such audited financial statements if and when publicly available.

If the Issuer is unable to provide the Repositories an Annual Report by the date required in the immediately preceding paragraph, the Issuer shall send a notice to each Repository.

The Dissemination Agent shall determine each year prior to the date for providing the Annual Report the name and address of each Repository.

SECTION 4. Content of Annual Reports. The Issuer's Annual Report shall contain the Comprehensive Annual Financial Report of the State prepared in conformity with generally accepted accounting

183

principles as prescribed by the Governmental Accounting Standards Board (the "CAFR"), including operating data of the type included in the Issuer's most recent CAFR dated June 30, 2018 (the "Operating Data"). If the CAFR starts excluding the Operating Data, then the Issuer's Annual Report shall contain the CAFR and the Operating Data, in separate format, to the extent such information is prepared by, or available to, the Issuer.

SECTION 5. Reporting of Significant Events.

(a) This Section 5 shall govern the giving of notices of the occurrence of any of the following events in a timely manner not in excess of ten (10) business days after the occurrence thereof. All events mandated by the Rule are listed below; however, some may not apply to the Series 2019 Bonds:

- (1) Principal and interest payment delinquencies;
- (2) Non-payment related defaults, if material;
- (3) Unscheduled draws on debt service reserves reflecting financial difficulties;
- (4) Unscheduled draws on the credit enhancements reflecting financial difficulties;
- (5) Substitution of credit or liquidity providers or their failure to perform;
- (6) Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the security, or other material events affecting the tax status of the Series 2019 Bonds;
- (7) Modification to rights of security holders, if material;
- (8) Bond calls, if material, and tender offers;
- (9) Defeasances;
- (10) Release, substitution or sale of property securing repayment of the Series 2019 Bonds, if material;
- (11) Rating changes;
- (12) Bankruptcy, insolvency, receivership or similar event of the State¹;
- (13) Consummation of a merger, consolidation, or acquisition involving the State or the sale of all or substantially all of the assets of the State, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;
- (14) The appointment of a successor or additional trustee or the change of name of a trustee, if material;

¹ For the purposes of the event identified in subparagraph (b)(5)(i)(C)(12) of the Rule, the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for an obligated person in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the obligated person, or if such jurisdiction has been assumed by leaving the existing governing body and official or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the obligated person.

- (15) Incurrence of a financial obligation² of the obligated person, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the Issuer, any of which affect security holders, if material; and
- (16) Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation² of the obligated person, any of which reflect financial difficulties.

SECTION 6. Termination of Reporting Obligation. The Issuer's obligations under this Disclosure Certificate shall terminate upon the legal defeasance or payment in full of all of the Series 2019 Bonds.

SECTION 7. Dissemination Agent. The Issuer has engaged the Dissemination Agent to assist it in disseminating information hereunder. The Issuer shall send the information required by Sections 3 and 4 hereof and event notices required by this Disclosure Certificate to the Dissemination Agent. Unless otherwise agreed to, the Dissemination Agent shall, as soon as practicable but not later than five (5) days after receipt of such information, forward the same to (i) the MSRB and State Repository, if any, as described herein, and (ii) any beneficial holder of the Series 2019 Bonds who requests such information in writing to the Dissemination Agent or the Issuer. The Dissemination Agent shall have no duty to review the materials described in this paragraph prior to disseminating such materials.

The initial Dissemination Agent shall be HTS Continuing Disclosure Services, a Division of Hilltop Securities, Inc., Dallas, Texas. The Issuer may discharge the Dissemination Agent or any successor Dissemination Agent, but in such event shall take steps necessary to appoint a successor Dissemination Agent who shall be responsible for undertaking all responsibilities of dissemination hereunder.

SECTION 8. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Certificate, the Issuer may amend this Disclosure Certificate, and any provision of this Disclosure Certificate may be waived, if such amendment or waiver is supported by an opinion of counsel expert in federal securities laws, to the effect that such amendment or waiver would not, in and of itself, cause the undertakings herein to violate the Rule if such amendment or waiver had been effective on the date hereof but taking into account any subsequent change in or official interpretation of the Rule.

SECTION 9. Additional Information. Nothing in this Disclosure Certificate shall be deemed to prevent the Issuer from disseminating any other information, using the means of dissemination set forth in this Disclosure Certificate or any other means of communication, or including any other information in any notice of occurrence of a Listed Event, in addition to that which is required by this Disclosure Certificate. If the Issuer chooses to include any information in any notice of occurrence of a Listed Event in addition to that which is specifically required by this Disclosure Certificate, the Issuer shall have no obligation under this Disclosure Certificate to update such information or include it in any future notice of occurrence of a Listed Event.

SECTION 10. Default. In the event of a failure of the Issuer to comply with any provision of this Disclosure Certificate any holder or beneficial owner of a Series 2019 Bonds or the Participating Underwriter may take such actions as may be necessary and appropriate, including seeking mandamus or specific performance by court order, to cause the Issuer to comply with its obligations under this Disclosure Certificate shall not be deemed an "event of default" under the Resolution, and the sole remedy under this Disclosure Certificate in the event of any failure of the Issuer to comply with this Disclosure Certificate shall be an action to compel performance.

SECTION 11. Duties, Immunities and Liabilities of Dissemination Agent. The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate. The obligations of the

 $^{^2}$ For purposes of the events identified in subparagraphs (b)(5)(i)(C)(15) and (16) of the Rule, the term "financial obligation" is defined to mean a (A) debt obligation; (B) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (C) a guarantee of (A) or (B). The term "financial obligation" does not include municipal securities as to which a final official statement has been otherwise provided to the MSRB consistent with the Rule. In complying with Listed Events (15) and (16), the County intends to apply the guidance provided by the Rule or other applicable federal securities law, SEC Release No. 34-83885 (August 20, 2018) and any future guidance provided by the SEC or its staff.

Issuer under this Section 11 shall survive resignation or removal of the Dissemination Agent and payment of the Series 2019 Bonds.

SECTION 12. Beneficiaries. This Disclosure Certificate shall inure solely to the benefit of the Issuer, the Dissemination Agent, the Participating Underwriters, holders from time to time of the Series 2019 Bonds, and beneficial owners of the Series 2019 Bonds and shall create no rights in any other person or entity.

SECTION 13. Prior Disclosure. The Issuer is current in all material respects with its previous continuing disclosure undertakings under the Rule. However, there have been some instances in the previous five years in which the Issuer filed its annual undertakings late. Due to the change in the Issuer's accounting system, although the Issuer's unaudited financial statements or partial unaudited financial statements were filed timely along with the annual reports, the Issuer's CAFR for fiscal year 2014 was not filed on EMMA until February 24, 2015, the Issuer's CAFR for fiscal year 2015 was not filed on EMMA until May 31, 2016, the Issuer's CAFR for fiscal year 2016 was not filed on EMMA until May 5, 2017, and amended on May 15, 2017, the Issuer's CAFR for fiscal year 2017 was not filed on EMMA until March 15, 2018, and the State's CAFR for fiscal year 2018 was not filed on EMMA until April 18, 2019. For fiscal year 2016, the Issuer filed partial unaudited financial statements on February 1, 2017, for fiscal year 2017, the Issuer filed partial unaudited financial statements on December 28, 2017, and for fiscal year 2018, the State filed partial unaudited financial statements on February 1, 2019. There have been instances when the Issuer's unaudited financial statements did not contain an update of all of the information normally included therein due to its unavailability at the time of filing. When such information has become available, the Issuer has subsequently amended its filings to update the information not available at the time of its original filing. Under one of its continuing disclosure agreements, the Issuer is required to file its CAFR earlier than it is required to do so under its other continuing disclosure agreements, and the Issuer has failed to meet this obligation on multiple occasions. Likewise, the Issuer has in the past failed to timely file certain event notices such as ratings changes and refunding notices and has also on occasion failed to link its filings to all of its CUSIPs. The Issuer has taken steps to ensure that it will timely comply with all undertakings in the future. Specifically, the Issuer has approved a "State of Mississippi Debt Management Policy" which provides detailed procedures for the timely filing of continuing disclosure by the Issuer. Also, the Issuer has engaged the Dissemination Agent to assist compliance with the terms of its undertakings.

[THIS PAGE INTENTIONALLY LEFT BLANK]

STATE OF MISSISSIPPI

OFFICE OF THE ATTORNEY GENERAL OFFICIAL ATTORNEY GENERAL'S OPINION

[FORM OF OPINION OF ATTORNEY GENERAL]

October 23, 2019

JIM HOOD ATTORNEY GENERAL

State Bond Commission State of Mississippi Jackson, Mississippi

Re: \$169,700,000 State of Mississippi General Obligation Bonds, Series 2019B (Tax-Exempt), dated as of the date of their delivery (the "Series 2019B Bonds")

\$235,840,000 State of Mississippi Taxable General Obligation Bonds, Series 2019C, dated as of the date of their delivery (the "Series 2019C Bonds" and together with the Series 2019B Bonds, the "Series 2019 Bonds")

Commission Members:

The opinion as hereinafter set forth is submitted regarding several matters pertaining to the sale and issuance of the above referenced Series 2019 Bonds of the State of Mississippi (the "State").

There are three members of the State Bond Commission (the "Commission") and, in addition to being a member of the Commission, the Attorney General is legal advisor to the Commission.

The Commission is authorized to issue the Series 2019B Bonds under the provisions of Section 2 of House Bill 1729, 2016 Regular Session of the State Legislature, Section 4 of House Bill 1729, 2016 Regular Session of the State Legislature, Section 22 of House Bill 1729, 2016 Regular Session of the State Legislature, Section 1 of House Bill 1649, 2018 Regular Session of the State Legislature, Section 2(2) of House Bill 1649, 2018 Regular Session of the State Legislature, Section 3 of House Bill 1649, 2018 Regular Session of the State Legislature, House Bill 1160, 2019 Regular Legislative Session of the State Legislature, Sections 31-17-151 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Section 1 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 2(2) of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 3 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 38 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 11 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 4 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 5 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 6 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 7 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 8 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 10 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 13 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 14 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 21 of Senate Bill 3065, 2019 Regular

Session of the State Legislature, Section 22 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 23 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 24 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 25 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 26 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 27 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 28 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 29 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 31 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 33 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 35 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 36 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 37 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 39 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 40 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 41 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 43 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 44 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 46 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 47 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 49 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 50 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 55 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 71 of Chapter 511, Laws of 2016, as amended by Section 52 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Sections 9 and 10 of House Bill 1729, 2016 Regular Session of the State Legislature, Sections 17 and 18 of Senate Bill 3065, 2019 Regular Session of the State Legislature and Section 39-5-145, Mississippi Code of 1972, as amended and supplemented, Sections 15 and 16 of Senate Bill 3065, 2019 Regular Session of the State Legislature, and Section 51-37-3, Mississippi Code of 1972, as amended and supplemented, Sections 57-75-1 et seq., Mississippi Code of 1972, as amended and supplemented (collectively, the "Series 2019B Act") and a resolution adopted by the members of the Commission on September 3, 2019 (the "Series 2019B Resolution").

The Commission is authorized to issue the Series 2019C Bonds under the provisions of Section 57-1-16, Mississippi Code of 1972, as amended and supplemented by Section 15 of House Bill 1729, 2016 Regular Session of the State Legislature and Section 4 of Senate Bill 3033, 2017 Regular Session of the State Legislature, Sections 57-61-36(1) and (3), Mississippi Code of 1972, as amended and supplemented from time to time, Sections 65-4-1 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Sections 57-75-1 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Sections 31-17-151 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Section 8 of House Bill 1724, 2007 Regular Session of the State Legislature, Section 57-1-701, Mississippi Code of 1972, as amended and supplemented from time to time, and Sections 1 and 2 of House Bill 1427, 2019 Regular Session of the State Legislature, House Bill 983, 2019 Regular Session of the State Legislature, Section 57-1-18, Mississippi Code of 1972, as amended and supplemented, including, but not limited to, Section 19 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 49-17-85, Mississippi Code of 1972, as amended and supplemented from time to time, including, but not limited to, House Bill 1568, 2019 Regular Session of the State Legislature, Sections 6 through 20, Chapter 521, Laws of 1995, as amended by Section 17, Chapter 503, Laws of 2003, as amended by Section 2, Chapter 477, Laws of 2004, as amended by Section 2, Chapter 456, Laws of 2006, as amended by Section 3, Chapter 492. Laws of 2008, as amended by Section 47, Chapter 533, Laws of 2010, as amended by Section 13, Chapter 480, Laws of 2011, as amended by Section 35, Chapter 569, Laws of 2013, as amended by Section 8 of House Bill 1649, 2018 Regular Session of the State Legislature, as amended by Section 12 of Senate Bill 3065, 2019 Regular Session of the State Legislature and Section 41-3-16, Mississippi Code of 1972, as amended and supplemented, Section 2 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 9 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 30 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 32 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 34 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 42 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 45 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 48 of Senate Bill 3065, 2019 Regular Session of the State Legislature, and House Bill 1564, 2019 Regular Session of the State Legislature (collectively with the Series 2019B Act, the "Act") and a resolution adopted by the members of the Commission on September 3, 2019 (together with the Series 2019B Resolution, the "Resolutions").

The existing State Constitution is the Mississippi Constitution of 1890. Protection for the contractual obligations owed holders of the Series 2019 Bonds arising from the issuance of the Series 2019 Bonds is expressed in the provisions of Section 16 of the Constitution:

Ex post facto laws, or laws impairing the obligation of contracts shall not be passed.

I am of the opinion that when the Series 2019 Bonds are validated, issued and delivered, such Series 2019 Bonds shall constitute a contract as contemplated by Section 16, supra, and shall enjoy the full protection thereof.

The Series 2019 Bonds have been subjected to validation by a competent State court. Validation procedure is prescribed by statue and requires that the submission for validation shall be accompanied by the written opinion of the State's Bond Attorney, an attorney appointed by the Governor of the State and who shall possess the same qualifications for office as the Attorney General.

Section 31-13-7, Mississippi Code of 1972, as amended and supplemented, provides that when a decree shall be entered confirming and validating bonds and there shall be no appeal from the decree, or if on appeal the Supreme Court enters its decree confirming and validating such bonds, the validity of such bonds shall never be called in question in any court in the State.

A Certificate of Non-litigation shall be rendered by the Attorney General certifying the finality of validation prior to delivery of the Series 2019 Bonds.

As to general obligations, the Act and the Resolutions provide generally:

The bonds issued under the provisions hereof are general obligations of the State, and for the repayment thereof the full faith and credit of the State is irrevocably pledged. If the funds appropriated by the Legislature are insufficient to pay the principal of and the interest on such bonds as they become due, then the deficiency shall be paid by the State Treasurer from any funds in the State Treasury not otherwise appropriated.

It is my opinion that the Series 2019 Bonds have been duly and validly authorized, issued, executed and delivered by and on behalf of the State, that the Series 2019 Bonds constitute valid and binding general obligations of the State enforceable in accordance with the terms thereof (except to the extent that the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted and to the exercise of judicial discretion in accordance with general principles of equity), and that for the payment thereof, the full faith, credit and taxing power of the State is irrevocably pledged.

In connection with the sale and issuance of the Series 2019 Bonds, the State will deliver its Continuing Disclosure Certificates dated as of the date of the issuance and delivery of the Series 2019 Bonds. The Continuing Disclosure Certificates will be delivered by the State for the benefit of the holders of the Series 2019 Bonds and in order to assist the participating underwriters in complying with Rule 15c2-12(b)(5) of the Securities and Exchange Commission.

It is my opinion that the Continuing Disclosure Certificates have been duly and validly authorized, executed and delivered by and on behalf of the State and constitute valid and binding obligations of the State enforceable in accordance with the terms thereof (except to the extent that the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium, and other similar laws affecting creditors' rights heretofore or hereafter enacted and to the exercise of judicial discretion in accordance with general principles of equity).

The Mississippi Legislature enacted Section 11-46-1 *et seq.*, Mississippi Code of 1972, as amended and supplemented, to address the tort liability of the State and its political subdivisions. This act creates an immunity and then waives this immunity except in certain situations up to a maximum of five hundred thousand dollars (\$500,000.00) per occurrence.

When the Attorney General of the State shall give his opinion in writing to an officer, board, commission, department or person authorized to require such written opinion, there shall be no liability, civil or criminal, accruing to or against such body or person who in good faith follows the direction of such opinion and acts in accordance therewith, unless a court of competent jurisdiction, after a full hearing, shall publicly declare that such opinion is manifestly wrong and without any substantial support.

This opinion is being rendered in connection with the issuance of the Series 2019 Bonds and in anticipation that it will be relied upon by Bond Counsel, in rendering its opinion with respect to the Series 2019 Bonds, and such reliance is hereby specifically authorized.

Very truly yours,

JIM HOOD, Attorney General

[THIS PAGE INTENTIONALLY LEFT BLANK]

FORM OF OPINION OF BOND COUNSEL WITH RESPECT TO THE SERIES 2019B BONDS

October 23, 2019

State Bond Commission State of Mississippi Jackson, Mississippi

Commission Members:

We have examined the Constitution and statutes of the State of Mississippi (the "State"), including particularly Section 2 of House Bill 1729, 2016 Regular Session of the State Legislature, Section 4 of House Bill 1729, 2016 Regular Session of the State Legislature, Section 22 of House Bill 1729, 2016 Regular Session of the State Legislature, Section 1 of House Bill 1649, 2018 Regular Session of the State Legislature, Section 2(2) of House Bill 1649, 2018 Regular Session of the State Legislature, Section 3 of House Bill 1649, 2018 Regular Session of the State Legislature, House Bill 1160, 2019 Regular Legislative Session of the State Legislature, Sections 31-17-151 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Section 1 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 2(2) of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 3 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 38 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 11 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 4 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 5 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 6 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 7 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 8 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 10 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 13 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 14 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 21 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 22 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 23 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 24 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 25 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 26 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 27 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 28 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 29 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 31 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 33 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 35 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 36 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 37 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 39 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 40 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 41 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 43 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 44 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 46 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 47 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 49 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 50 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 55 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 71 of Chapter 511, Laws of 2016, as amended by Section 52 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Sections 9 and 10 of House Bill 1729, 2016 Regular Session of the State Legislature, Sections 17 and 18 of Senate Bill 3065, 2019 Regular Session of the State Legislature and Section 39-5-145, Mississippi Code of 1972, as amended and supplemented, Sections 15 and 16 of Senate Bill 3065, 2019 Regular Session of the State Legislature, and Section 51-37-3, Mississippi Code of 1972, as amended and supplemented, Sections 57-75-1 et seq., Mississippi Code of 1972, as amended and supplemented (collectively, the "Act"), and certified copies of the proceedings had by the State Bond Commission (the "Commission"), including the adoption of a resolution by the members of the Commission on September 3, 2019 (the "Resolution"), and other proofs submitted, relative to the sale and issuance by the State, acting by and through the Commission, of

\$169,700,000 STATE OF MISSISSIPPI GENERAL OBLIGATION BONDS, SERIES 2019B (Tax-Exempt)

dated the date of delivery thereof, and maturing in such amounts and at such times, bearing interest and subject to redemption, all as set forth in the Resolution (the "Series 2019B Bonds"). The Series 2019B Bonds are being issued for the purpose of providing funds to finance or refinance the costs of certain capital improvements within the State, as more particularly described in the Resolution, and to pay the costs incident to the sale, issuance and delivery of the Series 2019B Bonds, all as authorized by the Act and the Resolution.

As to questions of fact material to our opinion, we have relied upon representations of the Commission, certified proceedings and other certifications of the Commission and other public officials furnished to us, and certifications furnished to us by or on behalf of the Commission regarding certain federal tax matters in connection with the issuance of the Series 2019B Bonds and the use of the proceeds thereof, without undertaking to verify the same by independent investigation. In all such examinations, we have assumed the genuineness of all signatures, the authenticity of all documents presented to us as originals, and the conformity to original documents of all copies submitted to us as certified, conformed, or photographic copies. As to certificates, we have assumed the same to be properly given and to be accurate.

Based on the foregoing and subject to the qualifications and assumptions herein, we are of the opinion on the date hereof that:

1. Such proceedings and proofs show lawful authority for the sale and issuance of the Series 2019B Bonds by the State pursuant to the Constitution and laws of the State, including the Act, and the provisions of the Resolution.

2. The Series 2019B Bonds have been duly authorized, executed and delivered by the Commission under the provisions of the Resolution and are entitled to the pledge and security of the Resolution.

3. The Series 2019B Bonds are legal, valid and binding general obligations of the State and, under the provisions of the Act, for the payment thereof the full faith and credit of the State are pledged.

4. Under existing statutes, regulations, rulings and court decisions, subject to the assumption stated below, interest on the Series 2019B Bonds is excludable from gross income for federal income tax purposes. Furthermore, interest on the Series 2019B Bonds is not a specific preference item for purposes of the federal alternative minimum tax. We express no opinion regarding other federal tax consequences resulting from the ownership of, receipt or accrual of interest on, or disposition of the Series 2019B Bonds. In rendering the opinion contained in this paragraph 4, we have assumed continuing compliance with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), that must be met after the issuance of the Series 2019B Bonds in order that interest on the Series 2019B Bonds not be includable in gross income for federal income tax purposes. The failure to meet such requirements may cause interest on the Series 2019B Bonds to be includable in gross income for federal income tax purposes retroactive to the date of issuance of the Series 2019B Bonds. The State has covenanted to comply with or to require compliance with the requirements of the Code in order to maintain the excludability of interest on the Series 2019B Bonds from gross income for federal income tax purposes. Owners of the Series 2019B Bonds should consult their own tax advisors as to the applicability and effect on their federal income taxes of any other collateral federal income tax consequences.

5. Under and pursuant to the Act, the Series 2019B Bonds and interest thereon are exempt from all income taxes imposed by the State.

It is to be understood that the rights of the holders of the Series 2019B Bonds and the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting creditors' rights heretofore or hereinafter enacted and that their enforcement may be subject to the exercise of judicial discretion in accordance with general principles of equity.

In this opinion letter issued in our capacity as Bond Counsel, we are opining only upon those matters set forth herein, and we are not passing upon the accuracy, adequacy or completeness of the State's Official Statement or other statements made in connection with any offer or sale of the Series 2019B Bonds or upon any federal or state tax consequences arising from the receipt or accrual of interest on or the ownership or disposition of the Series 2019B Bonds, except those specifically addressed herein or upon any federal or state law with respect to the sale or distribution of the Series 2019B Bonds.

196

This opinion letter is an expression of professional judgment regarding the matters expressly addressed herein. It is neither a guarantee of result nor an insurance policy with respect to the transaction or the future actions or performance of any party or entity. Our services have not included any financial or other non-legal advice. We express no opinion other than as herein expressly stated in this letter, and no expansion of our opinion may be made by implication or otherwise. The opinions herein are given as of the date hereof and are based upon statutes, regulations, rulings and court decisions in effect on the date hereof and not as of any future date. It should be noted that material changes regarding matters of fact and applicable law may hereafter occur. We expressly disclaim any undertaking or responsibility to review, revise, update or supplement this opinion letter subsequent to its date for any reason or to advise you of any change in the law, whether by reason of legislative or regulatory action, by judicial decision or otherwise, or of any change of facts or circumstances or of any facts or circumstances that may hereafter come to our attention or for any other reason.

Respectfully submitted,

BUTLER SNOW LLP

FORM OF OPINION OF BOND COUNSEL WITH RESPECT TO THE SERIES 2019C BONDS

October 23, 2019

State Bond Commission State of Mississippi Jackson, Mississippi

Commission Members:

We have examined the Constitution and statutes of the State of Mississippi (the "State"), including particularly Section 57-1-16, Mississippi Code of 1972, as amended and supplemented by Section 15 of House Bill 1729, 2016 Regular Session of the State Legislature and Section 4 of Senate Bill 3033, 2017 Regular Session of the State Legislature, Sections 57-61-36(1) and (3), Mississippi Code of 1972, as amended and supplemented from time to time, Sections 65-4-1 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Sections 57-75-1 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Sections 31-17-151 et seq., Mississippi Code of 1972, as amended and supplemented from time to time, Section 8 of House Bill 1724, 2007 Regular Session of the State Legislature, Section 57-1-701, Mississippi Code of 1972, as amended and supplemented from time to time, and Sections 1 and 2 of House Bill 1427, 2019 Regular Session of the State Legislature, House Bill 983, 2019 Regular Session of the State Legislature, Section 57-1-18, Mississippi Code of 1972, as amended and supplemented, including, but not limited to, Section 19 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 49-17-85, Mississippi Code of 1972, as amended and supplemented from time to time, including, but not limited to, House Bill 1568, 2019 Regular Session of the State Legislature, Sections 6 through 20, Chapter 521, Laws of 1995, as amended by Section 17, Chapter 503, Laws of 2003, as amended by Section 2, Chapter 477, Laws of 2004, as amended by Section 2, Chapter 456, Laws of 2006, as amended by Section 3, Chapter 492, Laws of 2008, as amended by Section 47, Chapter 533, Laws of 2010, as amended by Section 13, Chapter 480, Laws of 2011, as amended by Section 35, Chapter 569, Laws of 2013, as amended by Section 8 of House Bill 1649, 2018 Regular Session of the State Legislature, as amended by Section 12 of Senate Bill 3065, 2019 Regular Session of the State Legislature and Section 41-3-16, Mississippi Code of 1972, as amended and supplemented, Section 2 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 9 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 30 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 32 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 34 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 42 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 45 of Senate Bill 3065, 2019 Regular Session of the State Legislature, Section 48 of Senate Bill 3065, 2019 Regular Session of the State Legislature, and House Bill 1564, 2019 Regular Session of the State Legislature (collectively, the "Act"), and certified copies of the proceedings had by the State Bond Commission (the "Commission"), including the adoption of a resolution by the members of the Commission on September 3, 2019 (the "Resolution"), and other proofs submitted, relative to the sale and issuance by the State, acting by and through the Commission, of

\$235,840,000 STATE OF MISSISSIPPI TAXABLE GENERAL OBLIGATION BONDS, SERIES 2019C

dated the date of delivery thereof and maturing in such amounts and at such times, bearing interest and subject to redemption, all as set forth in the Resolution (the "Series 2019C Bonds"). The Series 2019C Bonds are being issued for the purpose of providing funds to finance or refinance various economic development loans, grants and programs in the State, finance the costs of certain capital improvements within the State and to pay the costs incident to the sale, issuance and delivery of the Series 2019C Bonds, all as authorized by the Act and the Resolution. Based on the foregoing and subject to the qualifications and assumptions herein, we are of the opinion on the date hereof that:

1. Such proceedings and proofs show lawful authority for the sale and issuance of the Series 2019C Bonds by the State pursuant to the Constitution and laws of the State, including the Act, and the provisions of the Resolution.

2. The Series 2019C Bonds have been duly authorized, executed and delivered under the provisions of the Resolution and are entitled to the pledge and security of the Resolution.

3. The Series 2019C Bonds are legal, valid and binding general obligations of the State and, under the provisions of the Act, for the payment thereof the full faith and credit of the State are pledged.

4. Under and pursuant to the Act, the Series 2019C Bonds and interest thereon are exempt from all income taxes imposed by the State.

Interest on the Series 2019C Bonds should be treated as included in gross income of the holders thereof for federal income tax purposes.

It is to be understood that the rights of the holders of the Series 2019C Bonds and the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting creditors' rights heretofore or hereinafter enacted and that their enforcement may be subject to the exercise of judicial discretion in accordance with general principles of equity.

In this opinion letter issued in our capacity as Bond Counsel, we are opining only upon those matters set forth herein, and we are not passing upon the accuracy, adequacy or completeness of the State's Official Statement or other statements made in connection with any offer or sale of the Series 2019C Bonds or upon any federal or state tax consequences arising from the receipt or accrual of interest on or the ownership or disposition of the Series 2019C Bonds, except those specifically addressed herein or upon any federal or state law with respect to the sale or distribution of the Series 2019C Bonds.

In rendering this opinion letter, we have acted as Bond Counsel for the sole purpose of rendering an opinion with respect to the legality and validity of the Series 2019C Bonds under the laws of the State and with respect to the excludability of the interest on the Series 2019C Bonds from federal and State income taxation.

This opinion letter is an expression of professional judgment regarding the matters expressly addressed herein. It is neither a guarantee of result nor an insurance policy with respect to the transaction or the future actions or performance of any party or entity. Our services have not included any financial or other non-legal advice. We express no opinion other than as herein expressly stated in this letter, and no expansion of our opinion may be made by implication or otherwise. The opinions herein are given as of the date hereof and are based upon statutes, regulations, rulings and court decisions in effect on the date hereof and not as of any future date. It should be noted that material changes regarding matters of fact and applicable law may hereafter occur. We expressly disclaim any undertaking or responsibility to review, revise, update or supplement this opinion letter subsequent to its date for any reason or to advise you of any change in the law, whether by reason of legislative or regulatory action, by judicial decision or otherwise, or of any change of facts or circumstances or of any facts or circumstances that may hereafter come to our attention or for any other reason.

Respectfully submitted,

BUTLER SNOW LLP

BOOK-ENTRY-ONLY SYSTEM

The information provided under this APPENDIX F has been provided by The Depository Trust Company ("DTC"). No representation is made by the State as to the accuracy or adequacy of such information, or as to the absence of material adverse changes in such information subsequent to the date hereof.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the \$169,700,000 State of Mississippi General Obligation Bonds, Series 2019B (Tax-Exempt), and the \$235,840,000 State of Mississippi Taxable General Obligation Bonds, Series 2019C (together, the "Series 2019 Bonds") under the DTC system must be made by or through Direct Participants, which will receive a credit for such Series 2019 Bonds on DTC's records. The ownership interest of each actual purchaser of each Series 2019 Bond (a "Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2019 Bonds are to be accomplished by entries made on the books of Direct or Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Series 2019 Bonds, except in the event that use of the book-entry system for the Series 2019 Bonds is discontinued.

To facilitate subsequent transfers, all Series 2019 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2019 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2019 Bonds. DTC's records reflect only the identity of the Direct Participants to whose accounts the Series 2019 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2019 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2019 Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Series 2019 Bond documents. For example, Beneficial Owners of Series 2019 Bonds may wish to ascertain that the nominee holding the Series 2019 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

203

Redemption notices are to be sent to DTC. If less than all of the Series 2019 Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Series 2019 Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Paying and Transfer Agent as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2019 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, principal and interest payments, if any, on the Series 2019 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detailed information from the State or the Paying and Transfer Agent, on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC nor its nominee, the Paying and Transfer Agent or the State, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, principal and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the State or the Paying and Transfer Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Series 2019 Bonds at any time by giving reasonable notice to the State or the Paying and Transfer Agent. Under such circumstances, in the event that a successor depository is not obtained, Series 2019 Bond certificates are required to be printed and delivered.

The State may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Series 2019 Bonds in definitive form will be printed and delivered. See the caption "DESCRIPTION OF THE SERIES 2019 BONDS - Registration" in this Official Statement.

THE STATE AND THE UNDERWRITERS CANNOT AND DO NOT GIVE ANY ASSURANCE THAT THE DIRECT PARTICIPANTS OR THE INDIRECT PARTICIPANTS WILL DISTRIBUTE TO THE BENEFICIAL OWNERS OF THE SERIES 2019 BONDS (a) PAYMENTS OF PRINCIPAL OR INTEREST ON THE SERIES 2019 BONDS; (b) CERTIFICATES REPRESENTING AN OWNERSHIP INTEREST OR OTHER CONFIRMATION OF BENEFICIAL OWNERSHIP INTERESTS IN THE SERIES 2019 BONDS; OR (c) REDEMPTION OR OTHER NOTICES SENT TO DTC OR CEDE & CO., ITS NOMINEE, AS THE REGISTERED OWNER OF THE SERIES 2019 BONDS, OR THAT THEY WILL DO SO ON A TIMELY BASIS, OR THAT DTC OR DIRECT OR INDIRECT PARTICIPANTS WILL SERVE AND ACT IN THE MANNER DESCRIBED IN THIS OFFICIAL STATEMENT. THE CURRENT "RULES" APPLICABLE TO DTC ARE ON FILE WITH THE SEC AND THE CURRENT "PROCEDURES" OF DTC TO BE FOLLOWED IN DEALING WITH DTC PARTICIPANTS ARE ON FILE WITH DTC.

THE STATE AND THE UNDERWRITERS WILL NOT HAVE ANY RESPONSIBILITY OR OBLIGATIONS TO SUCH DTC PARTICIPANTS OR THE BENEFICIAL OWNERS WITH RESPECT TO (a) THE SERIES 2019 BONDS; (b) THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC OR ANY DTC PARTICIPANT; (c) THE PAYMENT BY ANY DTC PARTICIPANT OF ANY AMOUNT DUE TO ANY BENEFICIAL OWNER IN RESPECT OF THE PRINCIPAL AMOUNT OF AND INTEREST ON THE SERIES 2019 BONDS; (d) THE DELIVERY BY ANY DTC PARTICIPANT OF ANY NOTICE TO ANY BENEFICIAL OWNER WHICH IS REQUIRED OR PERMITTED UNDER THE TERMS OF THE RESOLUTIONS TO BE GIVEN TO HOLDERS OF THE SERIES 2019 BONDS; OR (e) ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC AS HOLDER OF THE SERIES 2019 BONDS.
