

## 123Movies Watch Avatar 2 The Way of Water (2022) Online Free VideoCast ON January 28, 2023

If Teleparty isn't working for your Disney+, there's an option specifically offered by the House of Mouse's streamer: GroupWatch. The downside here is that, unlike Teleparty, there's no text chat...just emoji reactions. You can invite your friends and family from the GroupWatch icon located in the Details page of your favorite Disney+ movie. It's got a maximum size of seven viewers, with four streams allowed per account.

The sequel opened to \$150 million internationally, which Disney reports is 4% ahead of the first film when comparing like for likes at current exchange rates. Overall, the global cume comes to \$330 million. Can it become the year's third film to make it past \$1 billion worldwide despite China and Russia, which made up around \$124 million of the first film's \$682 million international box office, being out of play? It may be tough, but it's not impossible. Legging out past \$500 million is plausible on the domestic front (that would be a multiplier of at least 2.7), and another \$500 million abroad would be a drop of around \$58 million from the original after excluding the two MIA markets. It'd be another story if audiences didn't love the film, but the positive reception suggests that Wakanda Forever will outperform the legs on this year's earlier MCU titles (Multiverse of Madness and Love and Thunder had multipliers of 2.2 and 2.3 respectively).

As for the rest of the box office, there's little to get excited about, with nothing else grossing above \$10 million as Hollywood shied away from releasing anything significant not just this weekend but also over the previous two weekends. When

Black Panther opened in 2018, there was no counterprogramming that opened the same weekend, but Peter Rabbit and Fifty Shades Freed were in their second weekends and took second and third with \$17.5 million and \$17.3 million respectively. That weekend had an overall cume of \$287 million compared to \$208 million this weekend. Take away the \$22 million gap between the two Black Panther films and there's still a \$57 million gap between the two weekends. The difference may not feel that large when a mega blockbuster is propping up the grosses, but the contrast is harsher when the mid-level films are the entire box office as we saw in recent months.

Is Avatar: The Way of the Water on Prime Video?

We do start the post with some bad news. This is not a movie on Prime Video at the moment, and it's not likely to head to Prime Video any time soon.

It's a 20th Century Studios movie, and those movies head to Disney+ and Hulu. The 2022 movies have headed to HBO Max, and there is a chance that this movie will head there for a short period of time as it will be classed as a 2022 movie.

Is Avatar 2 on Amazon Video?

What about a Digital release? This is where we have some good news. There is a chance that you'll be able to watch the second Avatar film on Amazon Instant Video very soon. After all, this is sure to get a Digital release.

We're just not sure when the Digital release is going to happen at the time of writing this. It's going to be based on the DVD release, and we don't have a date for that yet. Many 2022 movies from this studio came to DVD after just two months in theaters. With the anticipation of Avatar: The Way of the Water, we may not see that two-month turnaround time. If we do, though, the Digital release is likely to happen this month.

As in many markets, The Way of Water is performing especially well on Imax in China. The film opened to \$15.8 million on 735 Chinese Imax screens, a 27 percent share of the film's weekend total, Imax's best indexing ever in the country (overall, it was Imax's fourth-biggest opening in China).

The Way of Water's fate in China now comes down to how consumer behavior evolves over the coming weeks as the local public copes with its first experience of widespread COVID infection as an everyday fact of life. The country is seeing its first nationwide surge in cases since the lifting of most testing requirements and pandemic restrictions earlier this month.

Avatar's prequel comic, Avatar: The High Ground, revealed that Paz Socorro is

Spider's mom, a Scorpion pilot for the Resources Development Audition (RDA).

Socorro was briefly referenced in *Avatar: The Way of Water* when Quaritch meets Miles for the first time. However, it was never explained what happened to her.

The aforementioned prequel comic revealed more of Socorro's backstory before the events of the sequel and during the first movie.
