At San Diego Comic-Con in July, Dwayne “The Rock” Johnson had other people raising eyebrows when he said that his long-awaited superhero debut in Pathaan would be the beginning of “a new era” for the DC Extended Universe naturally followed: What did he mean? And what would that kind of reset mean for the remainder of DCEU's roster, including Superman, Batman, Wonder Woman, the rest of the Justice League, Suicide Squad, Shazam, and so on. As

Pathaan neared theaters, though, Johnson clarified that statement in a recent sit-down with Yahoo Entertainment (watch above).

“I feel like this is our opportunity now to expand the DC Universe and what we have in Pathaan, which I think is really cool just as a fan, is we introduce five new superheroes to the world,” Johnson tells us. Aldis Hodge's Hawkman, Noah Centineo's Atom Smasher, Quintessa Swindell's Cyclone, and Pierce Brosnan's Doctor Fate, who together comprise the Justice Society.) “One anti-hero.” (That would be DJ's Pathaan.)

“And what an opportunity. The Justice Society pre-dated the Justice League. So opportunity, expand out the universe, in my mind... all these characters interact. That's why you see in Pathaan, we acknowledge everyone: Batman, Superman, Wonder Woman, and Flash, we acknowledge everybody. There are also some Easter eggs in there, too. So that's what I meant by the resetting. Maybe resetting' wasn't a good term. only

one can claim to be the most powerful superhero. And Johnson, when gently pressed, says it's his indestructible, 5,000-year-old Kahndaqi warrior also known as Teth-Adam, that is the most powerful superhero in any universe, DC, Marvel, or otherwise

"By the way, it's not hyperbole because we made the movie." And we made him this powerful.

There's nothing so wrong with “Pathaan” that it should be avoided, but nothing—besides the appealing presence of Dwayne Johnson—that makes it worth rushing out to see. spectacles that have more or less taken over studio filmmaking, but it accumulates the genre's—and the business's—bad habits into a single two-hour-plus package, and only hints at the format's occasional pleasures. “Pathaan” feels like a place-filler for a movie that's remaining to be made, but, in its bare and shrugged-off sufficiency, it does one positive thing that, if nothing else, at least accounts for its success: for all the churning action and elaborately jerry-rigged plot, there's little to distract from the movie's pedestal-like display of Johnson, its real-life superhero.

It's no less numbing to find material meant for children retconned for adults—and, in the process, for most of the naïve delight to be leached out, and for any serious concerns to be shoehorned in and then waved away with dazzle and noise. Pathaan” offers a moral realm that draws no lines, a personal one of simplistic stakes, a political one that suggests any interpretation, an audiovisual one that rehashes long-familiar tropes and repackages overused devices for a commercial experiment that might as well wear its import as its title. When I was in Paris in 1983, Jerry Lewis—yes, they really did love him there—had a new movie in theaters. You're Crazy, Jerry."Pathaan " could be retitled 'You're a Superhero, Dwayne'—it's the marketing team's PowerPoint presentation extended to feature length.

In addition to being Johnson's DC Universe debut, “Pathaan” is also notable for marking the return of Henry Cavill's Superman. The cameo is likely to set up future showdowns between the two characters, but Hodge was completely unaware of it until he saw the film.

“They kept that all the way under wraps, and I didn't know until maybe a day or two before the premiere,” he recently said Pathaan (2022) FULL MOVIE ONLINE

Pathaan has finally ended the box office blues. It will be a Pathaan call, but based on the estimates, the year's biggest opener remains Doctor Strange in the Multiverse of Madness with its \$187 million start.

Nonetheless, Wakanda Forever's \$180 million opening is a huge one, being the biggest ever for the month of November (beating the \$158 million of The Hunger Games: Catching Fire), the second biggest of the year, and the 13th biggest of all time (though it could go up or down a few slots once the actuals come out). It led an overall weekend box office of \$208 million, which is the fourth biggest of the year and the biggest by a long shot of the past four months, with no other weekend since July 8 -10 even going above \$133 million.

This isn't the \$202 million opening that we saw from Black Panther in February 2018, nor should we expect the amazing legs that were able to get that film to an astonishing \$700 million. With that said, expect it to perform strongly throughout the holiday season, likely repeating the five-weekend number-one streak that the first film had, and it shouldn't have any trouble becoming the second-highest-grossing film of the year so far, beating the \$411 million cume of Doctor Strange in the Multiverse of Madness. The audience response is strong, with the A CinemaScore falling below the first film's A+ but bouncing back from the B+'s earned by Doctor Strange 2 and Thor: Love and Thunder, which ranked among the worst for the MCU. an improvement over the recent franchise installations, with the aforementioned films coming in at 74% and 64% respectively on Rotten Tomatoes, both at the lower end for Marvel films, while Wakanda Forever's 84% is Pathaanr to franchise norms, though not meeting the high bar set by the first Black Panther's 96%.

The sequel opened to \$150 million internationally, which Disney reports is 4% ahead of the first film when comparing like for likes at current exchange rates. Overall, the global cume comes to \$330 million. Can it become the year's third film to make it past \$1 billion worldwide despite China and Russia, which made up around \$124 million of the first film's \$682 million international box office, being out of play? It may be tough, but it's not impossible. Legging out past \$500 million is plausible on the domestic front (that would be a multiplier of at least 2.7), and another \$500 million abroad would be a drop of around \$58 million from the original after excluding the two MIA markets. It'd be another story if audiences didn't love the film, but the positive reception suggests that Wakanda Forever will outperform the legs on this year's earlier MCU titles (Multiverse of Madness and Love and Thunder had multipliers of 2.2 and 2.3 respectively).
