the app s coupon page is a plentiful resource for finding out what is on sale at your local store the app also allows you to search by category to find rollbacks or items that have temporarily dropped in price

in one case reported to the bbb for example the consumer was told there would be a small fee of 3 or 4 to receive the 100 gift card instead the fraudster debited the account for 19 the person did not receive any gift card just coupons in the mail

what makes one opinion stand out is that it is well regarded for offering clear details of each task you will know how long it will take what you are required to do and what you will earn before starting any task this is also supported with excellent customer service unlike many platforms one opinion offers 24 hours a day member services team for any issues or queries you may have about your account making it easy to earn free gift cards

there s a good chance the scam won t stop with one inflated charge your account could be hit again in the future without warning of course you can dispute fraudulent credit and debit card charges but it s a hassle and that s assuming the debit card fraud doesn t drain your account or cause legitimate transactions to bounce that s a whole other level of mess

this app is definitely in my top 5 favorite apps of all time it s so fun and easy to use their point system is awesome each point is called a kick there are several different and easy ways to earn kicks once you earn enough kicks you can use them to get a virtual gift card of your choice from a wide variety of different stores they have available to choose from its so easy you can earn kicks by simply walking into certain stores scanning different products on the shelves while you shop purchasing certain products and watching super short videos ads and these are only a few of the easy ways to earn kicks yes it may take a little time to accumulate enough kicks for a gift card with a high dollar amount on it you just have to be persistent i ve been able to earn a little 2 gift card while shopping at walmart just by scanning products around the store which i then used at the register in that same shopping trip it s that simple and totally worth it highly recommend this app to anyone who wants to save some money easily
